Jeffrey M. Zupan
Regional Plan Association

Mr. Zupan has wide range of experience in transportation planning gained in his more than 50 years in the field. He serves as the Senior Fellow for Transportation for Regional Plan Association. He prepared the mobility element of RPA's Third Regional Plan, A Region at Risk, and now is working on the preparation of the Fourth Regional Plan. He has been responsible for much of RPA's planning and advocacy of transportation projects and policies related to transit, ferries highways, airports, pedestrian circulation, and the variety of topics including transportation financing, pricing, transportation systems and demand management.

Mr. Zupan's consulting practice has brought him a wide range of assignments involving transportation planning with a strong focus on transit, travel demand, urban design and policy formulation for approximately four dozen clients.

Prior to initiating his consulting practice in 1990, Mr. Zupan was Director of Planning for NJ TRANSIT (ten years), where he directed the formulation and evaluation of that agency's "new initiatives" program which directly led to over $2 billion of transit investments. He was Chief Planner for Regional Plan Association from 1969 to 1980, and prior to that he was a consultant.

Mr. Zupan is co-author of four major books, Urban Rail in America, Public Transportation and Land Use Policy, Urban Space for Pedestrians, and Upgrading to World Class: The Future of the New York Region's Airports, and is the author of many reports and technical papers on a wide variety of transportation matters covering all modes of travel.

Mr. Zupan has taught graduate level transportation courses at five universities. He is a graduate of City College of New York (Civil Engineering) and Polytechnic Institute of Brooklyn (Transportation Engineering). Mr. Zupan is a registered Professional Engineer in New York State.
