*Appointment as University Professor*

*Background:* From time to time, the Trustees of Pace University designate individual professors who have contributed significantly to scholarship in their fields and who are distinguished in their service to the University and their Schools and disciplines, as *University Professor*.

*University Citation* (11 March 2009): "The trustees have conferred the position of University Professor for the Environment on Nicholas A. Robinson. He helped to establish the field of environmental law, both in the USA and abroad, and continues to build environmental law in nations around the Earth through his scholarship and capacity building. As a University Professor, he collaborates across Pace University's faculties and environmental programs and lectures widely on behalf of the University. His research into how the law can advance climate change mitigation and adaptation cuts across a number of disciplines. Climate change is quintessentially a global issue, and Prof. Robinson's international and comparative environmental legal studies are a contribution that Pace University makes to our society."

This résumé summarizes Prof. Nicholas Robinson's work during 40 years in establishing and strengthening environmental law, in particular his specialization in international and comparative environmental law and policy. It sets forth his (I) formal education, (II) academic credentials as a law teacher, (III) professional experience as a lawyer, (IV) public service, including in the international sector, (V) scholarly

publications, and (VI) personal data. In recognition of his leadership establishing Pace University's programs in environmental legal education, Pace Law School named him James D. Hopkins Professor in 1991-2, and thereafter named him the Gilbert & Sarah Kerlin Distinguished Professor of Environmental Law in 1999. In 1992, he was awarded The Elizabeth Haub Prize in Environmental Law by the Université Libre du Bruxelles. In 2002 the Natural Resources Council of America conferred upon him its National Environment Quality Award. In 2012, the World Conservation Congress of the International Union for the Conservation of Nature (IUCN) conferred Honorary Membership on Prof. Robinson "in recognition of outstanding service in the field of conservation of nature and natural resources." In 2012 also he was inducted into the American College of Environmental Lawyers. His contributions to the field of international environmental law are described in Barbara Lausche, Weaving A Web of Environmental Law (Erich Schmidt Verlag, Berlin, 2008).
