The Kinship Guardianship Assistance Program

Introduction

The Kinship Guardianship Assistance Program (KinGAP) is a federally, state and locally supported program for children in kinship foster care. The program provides financial assistance to related caregivers who assume legal guardianship of children who were formerly their foster children. Under this program, most children receive medical coverage.

The program's purpose is to find permanent homes with relatives for foster children who do **not** have a discharge goal of returning to their parent or of being adopted. KinGAP assesses the child and the prospective relative guardian's eligibility for assistance payments. They consider legal, clinical and assessment considerations before proceeding with a kinship guardianship assistance arrangement.

KinGAP also assists eligible relatives by providing up to \$2,000 per child as part of the Non-Recurring Guardianship Expenses Program for payment of the costs of securing letters of guardianship of the foster child. KinGAP assists youth who are at least 16-years-old after they leave foster care by making independent living services and education and training vouchers available to support permanency and to prepare the child to live independently after the kinship guardianship ends.

KinGAP is available for foster children who are legally freed for adoption and those who are not. For this reason, the program is appealing for related foster parents because their guardianship does not require termination of parental rights. If children are not legally freed, kinship care keeps existing family connections intact, including the children's rights of association with siblings, grandparents, and other extended family members. Legal guardianship also leaves open the possibility that children might someday return home to their biological parents, should the issues that brought them into foster care be resolved.

Background

In October 2008, the federal Fostering Connections to Success and Increasing Adoptions Act (P.L. 110-351) created an option for states to provide financial assistance to relatives caring for foster children and become legal guardians of those children. The federal law allowed states to use federal funds (under Title IV-E of the Social Security Act) for subsidies to guardians of eligible children.

New York's subsidized guardianship assistance program was implemented on April 1, 2011, as a result of Part F of Chapter 58 of the Laws of 2010 (Chapter 58) entitled "Kinship Guardianship Assistance Program" (KinGAP) (see §§458-a--458-f of the SSL). Chapter 58 also amended the Family Court Act (FCA) and the Surrogate's Court Procedure Act, setting forth standards and procedures relating to the application for and issuance of letters of guardianship to prospective relative guardian(s). The New York State statute meets all federal requirements to operate KinGAP and to obtain federal reimbursement for eligible foster children. In addition, Chapter 58 includes provisions specific to New York State and extends eligibility for this program to eligible non-Title IV-E children.

In 2011, the New York State Office of Children and Family Services (OCFS) analyzed the program's impact and addressed issues and considerations necessary so that local social services districts (LDSSs) and voluntary foster care agencies (VAs) could implement and offer this program as a new permanency option to eligible families. OCFS consulted with social services district staff on their pre-implementation work and areas that would need to be addressed in OCFS's instructions to the field. Work was initiated with other impacted state agencies (Department of Health, Office of Temporary and Disability Assistance and the Office of Court Administration) about necessary policy and procedural changes.

In 2012, the implementation work continued with a focus on fine-tuning specific aspects of the program and providing technical assistance to LDSSs and VAs as they encountered more KinGAP cases. One area in particular where technical assistance was provided to LDSSs and VAs was in entering the correct systems codes in the various information technology systems at OCFS. Much of the technical assistance provided that year was to LDSSs in regards to coding questions and issues. As a result, OCFS designed a KinGAP Systems Tip Sheet to walk workers through the information that must be entered into the systems for a KinGAP case.

In 2013, OCFS received more case-specific questions as workers began to address more complex KinGAP cases. Some of the questions raised have resulted in OCFS revising KinGAP materials to address the issues encountered. Updated KinGAP information has been provided regularly via the KinGAP webpage (http://ocfs.ny.gov/kinship/background and process.asp) and email notifications. OCFS continues to provide a KinGAP general email mailbox (KinGAPHelp@ocfs.ny.gov) for questions.

In 2014, inquiries received via the KinGAP help shared mailbox continue to delve into case specific details, rather than asking for general information. The sophistication of the inquiries indicates a progression in understanding of KinGAP statewide. OCFS continues to monitor KinGAP data reports to assess progress and to address concerns. Revisions were completed to a "KinGAP Systems Tip Sheet" in response to feedback from New York City's Administration for Children's Services. An amendment to Title IV-E of the Social Security Act enacted by the federal Preventing Sex Trafficking and Strengthening Families Act (P.L. 113-183) that was signed into law on September 29, 2014. P.L. 113-183 provides that, under certain conditions, a successor guardian will be eligible to receive kinship guardianship assistance payments upon the death or incapacity of the relative guardian. OCFS formed a workgroup to formulate the implementation plan for HR 4980, Preventing Sex Trafficking and Strengthening Families Act, including the provision for KinGAP successor guardianship when the identified KinGAP guardian dies or becomes incapacitated.

In 2015, OCFS issued Administrative Directive 15-OCFS-ADM-15, Continuation of the Kinship Guardianship Assistance Program (KinGAP) to a Successor Guardian, to address continuation of KinGAP payments to a successor guardian if the original guardian receiving KinGAP payments dies or is incapacitated.

In 2016, OCFS again focused efforts on KinGAP as a permanency option with:

- Training:
 - Increasing the number of social services district and voluntary agency staff trained in the Kinship Care Overview: Presenting Options to Kin/Relative Caregivers. The training curriculum can be used as an overview to conduct group meetings with kin caregivers to explain their options when deciding how to meet the permanency needs of children to whom they are related.
- Information:

OCFS created a plain language pamphlet, *Know Your Options: Kin Caring for Children*, to introduce relatives/kin to the options under kinship care.

- Collaboration:
 - A statewide implementation team with representatives from LDSSs and VAs focused on kinship and KinGAP in 2016. The team put out a newsletter supporting the value of kinship placements and encouraging the use of KinGAP as a permanency option.
- Support:

OCFS awarded state funds to eight regional "Permanency Resource Centers" (PRCs) aimed at improving the safety, permanency and well-being of children in adoptive and legal guardianship families. The appendix of this report contains a comprehensive list of the KinGAP activities in 2016. Links are provided on the list to written materials developed for this program.

Also in 2016, OCFS updated 15-OCFS-ADM-15 by the issuance of Administrative Directive 16-OCFS-ADM-10 that addressed the eligibility of Successor Guardians to receive non-recurring guardianship expense payments

Reporting Requirements

In addition to establishing KinGAP, Section 12 of Part F of Chapter 58 of the Laws of 2010 sets forth reporting requirements for OCFS with regard to KinGAP and some additional relevant data. Each year, OCFS must report the required information to the governor, speaker of the Assembly, temporary president of the Senate, the minority leader of the Senate, the chair of the Assembly Committee on Children and Families, and the chair of the Senate Committee on Children and Families, detailing the implementation and progress of KinGAP.

The information is to be provided on a yearly basis and includes, but is not limited to the following:

- The total number statewide, and number of children in each LDSS, who have entered into KinGAP within that yearly reporting period
- The total number of children who have entered into KinGAP since implementation
- The total number of applications statewide, and number of KinGAP applications in each LDSS
- The total number of KinGAP applications denied and accepted by an LDSS
- The ages of children entering into KinGAP

- The number of fair hearings requested by KinGAP applicants and recipients, including the reasons for such hearing requests
- The number of fair hearings held, the time frames within which decisions were rendered, and the number of fair hearings resolved in favor of the aggrieved party and the LDSS
- Changes since implementation of KinGAP in the percentage of foster care children adopted, reunified, and released to other permanency outcomes
- Changes since implementation of KinGAP in the percentage of children directly placed with relatives under Article 10 of the FCA
- · Changes in the average length of stay in foster care

This report is the sixth annual since the start of KinGAP in April 2011. OCFS has seen a significant increase in the number of KinGAP applications and completed KinGAP arrangements in the past year, and expects this number to continue to rise in 2017, as LDSSs and VAs become more familiar with the program and its benefits. OCFS has worked hard over the years to assist LDSSs and VAs with entering their KinGAP activity codes into the appropriate OCFS data systems to provide an accurate picture of the KinGAP work they have completed.

The remainder of this report will focus on the data collected as required by Chapter 58.

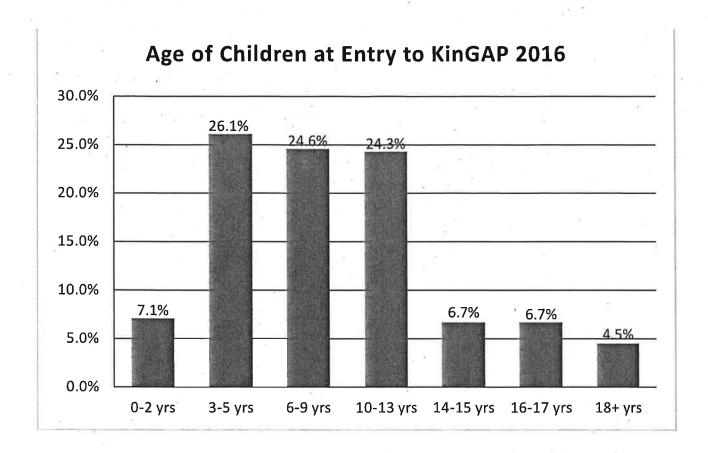

Summary of Data Reported by Districts

The data reported on the tables included in this report are based on the data entered by LDSSs in the OCFS system of record, CONNECTIONS.

In 2016, 448 children entered the KinGAP program; 354 children in New York City and 94 from the rest of the state. Since the start of the KinGAP program in April 2011, 1,519 children have achieved permanency and have been discharged from foster care to a KinGAP arrangement (complete detail included on Table 1).

Based on CONNECTIONS data, between January 1, 2016, and December 31, 2016, there were a total of 434 KinGAP applications received. Out of those applications, 358 were received by New York City and 16 by counties (including the St. Regis Mohawk Tribe) in the rest of the state. In 2016, in addition to New York City, applications were received in 17 counties including; Allegany, Cattaraugus, Chenango, Dutchess, Franklin, Nassau, Oneida, Onondaga, Orange, Oswego, Putnam, St. Lawrence, St. Regis Mohawk Tribe, Suffolk, Tompkins, Ulster, and Westchester. No KinGAP applications were denied. Statewide, 405 KinGAP applications were approved and 29 are pending (complete detail included on Table 2).

KinGAP continues serving children at a variety of ages, from less than two years old to older than 18 years of age at the time of their entry into KinGAP. Of the children who entered KinGAP in 2016, 32 children were between 0-2 years of age, 117 were ages 3-5, 110 ages 6-9, 109 ages 10-13, 30 ages 14-18, 30 ages 16-17 and 20 were age 18 and older. The majority of children entering the program were ages 3-5; the second-largest group was ages 6-9. The smallest number of children entering were in the 18-and-older range (complete detail included on Table 3).

In 2016, there was one fair hearing request received by OCFS on a KinGAP application. (Table 4). The case was coded as kinship. At the hearing it was determined that the appellant was seeking retroactive foster care reimbursement payments. The issue in the case was the delay in the Court's appointment of the appellant as guardian. The monies owed were in actuality foster care reimbursement payments. The case was settled with a stipulation for the LDSS to provide retroactive foster care reimbursement payments for the period when foster care reimbursement payments stopped to the date of commencement of the KinGAP payments.

Between 2011 and 2016, the percentage of all exits from relative foster care to KinGAP increased from 0.1 percent to 21.1 percent. In addition, the number of all permanent exits from all foster care settings since KinGAP implementation was 9,298 as compared to 12,591 during the baseline year of 2011. (Table 5, Part A and Part B).

Between 2011 and 2016, there has been a significant increase of 49.3 percent in the number of children placed directly (in the direct legal custody) with a relative or other suitable adult under Article 10¹ (non-LDSS custody). This increase equates to 719 more children with direct relative placements in 2016 as compared to 2011. In New York City, the number of children directly placed with relatives decreased

¹ Prior to November 7, 2011, there was one dispositional code (62) that was used for both relative and non-relative direct-custodial placements; therefore, there was no way to separate out the relative from the non-relative data, though it is thought that most of these direct placements were with relatives. As of November 7, 2011, the use of dispositional code 62 was no longer allowed and districts were given two codes to separate out Article 10 direct custodial placements with relatives (88) and non-relatives (89).

48.9 percent, from 274 in 2011 to 140 in 2016. In the rest of the state, the number of children directly placed with relatives increased 72 percent from 1,185 in 2011 to 2,038 in 2016.

Of the 1,459 children who were placed directly in the legal custody of relatives in 2011, 321 children moved to either relative foster care (98 children) or non-relative foster care (223 children) within 12 months of the direct relative placement. In comparison, of the 2,304 children who were placed directly with relatives in 2015, 405 children moved to either relative foster care (99 children) or non-relative foster care (306 children). In 2015, 2,304 children were placed directly with relatives (Table 6).

The average length of stay for children exiting all foster care settings decreased 7.7 percent from the baseline period of 2011, from 30.7 months to 28.3.5 months in 2016. The average length of stay for children exiting foster care from approved relative homes decreased 0.3 percent, from 33.9 months in 2011 to 33.8 months in 2016 (Table 7, Parts A and B). Of the 374 children exiting care to KinGAP in 2016, the average length of stay was 35.68 months (Table 7, Part C).

List of Tables

Table 1: Number of Children Entering KinGAP 2016

Responds to § 12, subsection (a) of the statute²: "the total number, and number per local social services district, of children who have entered into the kinship guardianship assistance program within the yearly reporting period, as well as the total cumulative number of children in the program."

Table 2: Applications for KinGAP Assistance 2016

Responds to § 12, subsection (b) of the statute: "the total number, and number per local social services district of applications for kinship guardianship assistance, including the number of applications denied and the number accepted by the local social services district."

Table 3: Ages of Children at KinGAP Entry 2016

Responds to § 12, subsection (c) of the statute: "the ages of children entering into the kinship guardianship assistance program."

Table 4: Fair Hearings

Responds to § 12, subsection (d) of the statute: "the number of fair hearings requested by applicants for, and recipients of, kinship guardianship assistance, including the reasons for such hearing requests, the number of fair hearings held, the time frames within which decisions were rendered, and the number of fair hearings resolved in favor of the aggrieved party and in favor of the local social services district."

² Part F of Chapter 58 of the Laws of 2010.

Table 5: Changes in Permanent Exits

Responds to § 12, subsection (e) of the statute: "changes since implementation of the kinship guardianship assistance program in: the percentage of foster children adopted, reunified, and released to other permanency outcomes." There are two parts to this table:

- Table 5, Part A: Changes in Permanent Exits From All Foster Care Settings Since KinGAP Implementation 2016
- Table 5, Part B: Changes in Permanent Exits From Approved Relative Settings Since KinGAP Implementation 2016

<u>Table 6: Percentage Change in Children Placed Directly With a Relative or Other Suitable</u> <u>Adult Under Article 10 (non-LDSS Custody) 2016</u>

Responds to § 12, subsection (e) of the statute: "changes since implementation of the kinship guardianship assistance program in: ... the percentage of children directly placed with relatives under article ten of the family court act."

Table 7: Average Length of Stay

Responds to § 12, subsection (e) of the statute: "... the average length of stay in foster care." There are three parts to this table and the numbers in the table refer to months in foster care:

- Table 7, Part A: Average Length of Stay in Months for Children Exiting Foster Care 2016
- Table 7, Part B: Average Length of Stay in Months for Children Exiting Foster Care From an Approved Relative Home Setting 2016
- Table 7, Part C: Average Length of Stay in Months for Children Exiting Foster Care From an Approved Relative Home Setting to KinGAP 2016

Appendix

OCFS KinGAP Activities

OCFS continued its efforts to support and promote KinGAP through the following activities in 2016:

> Report to the Governor and Legislature on the Kinship Guardianship Assistance

 Reports to the governor and Legislature on KinGAP can be found at: http://ocfs.ny.gov/kinship/reports.asp

Regional Permanency Resource Centers

Eight regional PRCs were approved in December of 2016. These centers will support the
needs of post adoption and post guardianship families. Five centers will serve 24 counties,
and three centers are each serving all five boroughs of New York City. OCFS plans to
approve seven additional centers in 2017 to cover an additional 27 counties.

Know Your Options: Kin Caring for Children (Pub. 5175)

 A plain-language pamphlet was created and published in December to introduce relatives/kin to the options under kinship care.

Electronic Application

• Development of an electronic system for submission of KinGAP applications and agreements with an anticipated rollout in 2017.

➢ KinGAP HELP Mailbox

• A dedicated mailbox continues to receive questions regarding KinGAP. The mailbox address is: <u>KinGapHELP@ocfs.ny.gov</u>

> KinGAP Training

- Kinship Care Overview: Presenting Options to Kin/Relative Caregivers, for LDSS and VA staff
- A computer-based KinGAP eligibility course continues to be made available by the State University at Buffalo's Center for Development of Human Services via a formal training contract.
 - The link to the KinGAP eligibility course introduction is http://www.bsc-cdhs.org/cwe/ (click on KinGAP on the left side).

New York State KinGAP Webpage

OCFS continues to add resources to the KinGAP webpage as they become available.
 The webpage is at: http://ocfs.ny.gov/kinship/background and process.asp

KinGAP Data Warehouse Reports

 KinGAP reports that coincide with the reports prepared for this report are available to LDSSs and state staff in the data warehouse through this URL:

https://cognos.otda.state.nyenet/cognos/cgi-

bin/cognosisapi.dll?b action=xts.run&m=portal/cc.xts&m folder=iF7E56BEB5C5E47799 211DF7C3A543B20&m folder2=m-i1A0098E2EA47410C81526688D34D5818

OCFS Monitoring

OCFS staff review reports to monitor the progress of KinGAP applications and completions and to offer support to counties.
