13 (i) Notwithstanding the provisions of subdivisions (b) and (c) of this

8 in charge of the owner or his agent. The provisions of section five  
9 hundred ten of this chapter shall apply to such suspension except as  
10 otherwise provided herein.

11 § 2. Subdivision 18-a of section 385 of the vehicle and traffic law,  
12 as added by section 2 of part B of chapter 58 of the laws of 2020, is  
13 amended to read as follows:

14 18-a. A violation of the provisions of subdivisions two or fourteen of  
15 this section, where the violation relates to the height of the vehicle,  
16 including a violation related to the operation, within a city not wholly  
17 included within one county, of a vehicle which exceeds the limitations  
18 provided for in the rules and regulations of the city department of  
19 transportation of such city, shall be punishable by a fine of not more  
20 than [one] five thousand dollars, or by imprisonment for not more than  
21 thirty days, or by both such fine and imprisonment, for the first  
22 offense; by a fine of not more than [two] seven thousand five hundred  
23 dollars, or by imprisonment for not more than sixty days, or by both  
24 such fine and imprisonment, for the second or subsequent offense;  
25 provided that a sentence or execution thereof for any violation under  
26 this subdivision may not be suspended. For any violation of the  
27 provisions of subdivisions two or fourteen of this section where the  
28 violation relates to the height of the vehicle, including a violation

1 related to the operation, within a city not wholly included within one  
2 county, of a vehicle which exceeds the limitations provided for in the  
3 rules and regulations of the city department of transportation of such  
4 city, the registration of the vehicle may be suspended for a period not  
5 to exceed one year whether at the time of the violation the vehicle was  
6 in charge of the owner or his agent. The provisions of section five  
7 hundred ten of this chapter shall apply to such suspension except as  
8 otherwise provided herein.

9 § 3. Subdivision 54 of section 375 of the vehicle and traffic law, as  
10 amended by chapter 473 of the laws of 2021, is amended to read as  
11 follows:

12 54. Stretch limousine [and], charter bus, and commercial motor vehicle  
13 commercial GPS. (a) Every stretch limousine [and], charter bus, and  
14 commercial motor vehicle registered in this state shall be equipped with  
15 commercial global positioning system (GPS) technology within no later  
16 than one year of the date upon which the national highway traffic safety  
17 administration promulgates final regulations establishing standards for  
18 commercial GPS.

19 (b) It shall be unlawful to operate or cause to be operated a stretch  
20 limousine [or], charter bus, or commercial motor vehicle registered in  
21 this state on any public highway or private road open to public motor  
22 vehicle traffic unless such stretch limousine [or], charter bus, or  
23 commercial motor vehicle is equipped with commercial global positioning  
24 system (GPS) technology as required by this subdivision and such commer-  
25 cial global positioning system (GPS) technology is used. The presence in  
26 such stretch limousine [or], charter bus, or commercial motor vehicle of  
27 commercial global positioning system (GPS) technology connected to a  
28 power source and in an operable condition is presumptive evidence of its

1 use by any person operating such stretch limousine [or], charter bus, or  
2 commercial motor vehicle. Such presumption may be rebutted by any cred-  
3 ible and reliable evidence which tends to show that such commercial  
4 global positioning system (GPS) technology was not in use.

5 (c) For the purposes of this subdivision:

6 (i) "Stretch limousine" shall mean an altered motor vehicle having a  
7 seating capacity of nine or more passengers, including the driver,

11 compensation in a chartered party;

12 (iii) "Chartered party" shall mean a group of persons who, pursuant to  
13 a common purpose and under a single contract and at a fixed charge, have  
14 acquired exclusive use of a bus to travel together as a group to a  
15 specific destination or for a particular itinerary either agreed upon in  
16 advance or modified after having left the place of origin by such group;  
17 [and]

18 (iv) "Commercial motor vehicle" shall mean a motor vehicle or combina-  
19 tion of vehicles having a gross combination weight rating of more than  
20 ten thousand pounds used in commerce to transport property or persons  
21 and shall include a tow truck with a gross vehicle weight rating of at  
22 least eighty-six hundred pounds; and

23 (v) "Commercial global positioning system (GPS) technology" shall mean  
24 global positioning system (GPS) technology which has been specifically  
25 designed to assist in the navigation of commercial motor vehicles.

26 § 4. The vehicle and traffic law is amended by adding a new section  
27 509-vv to read as follows:

1     § 509-vv. The use of non-commercial global positioning systems. One  
2 year following the date upon which the national highway traffic safety  
3 administration promulgates final regulations establishing standards for  
4 commercial global positioning systems (GPS), the use of non-commercial  
5 global positioning systems (GPS) by any commercial driver or commercial  
6 motor carrier, while engaged in the operation or directing the operation  
7 of any commercial vehicle, is prohibited. For purposes of this section,  
8 non-commercial global position system (GPS) shall mean any global posi-  
9 tioning technology which has not been specifically designed to assist in  
10 the navigation of commercial vehicles.

11     § 5. The vehicle and traffic law is amended by adding a new section  
12 509-vvv to read as follows:

13     § 509-vvv. Parkways notification. Commercial carriers must notify,  
14 in writing, all commercial drivers in their employ of the prohibition  
15 against operating commercial motor vehicles on parkways.

16     § 6. The vehicle and traffic law is amended by adding a new section  
17 509-ii to read as follows:

18     § 509-ii. The use of non-commercial global positioning systems. One  
19 year following the date upon which the national highway traffic safety  
20 administration promulgates final regulations establishing standards for  
21 commercial global positioning systems (GPS), the use of non-commercial  
22 global positioning systems (GPS) by any bus driver or motor carrier,  
23 while engaged in the operation or directing the operation of any bus, is  
24 prohibited. For purposes of this section, non-commercial global posi-  
25 tion system (GPS) shall mean any global positioning technology which has  
26 not been specifically designed to assist in the navigation of commercial  
27 vehicles.

1 § 7. The vehicle and traffic law is amended by adding a new section  
2 509-iii to read as follows:

3 § 509-iii. Parkways notification. Motor carriers must notify, in  
4 writing, all bus drivers in their employ of the prohibition against  
5 operating commercial motor vehicles on parkways.

6 § 8. The general business law is amended by adding a new section 396-  
7 zz to read as follows:

8 § 396-zz. Commercial vehicle owner notifications of parkway prohibi-  
9 tions. (a) All rental vehicle companies, as defined in section three  
10 hundred ninety-six-z of this article, must notify in writing all author-  
11 ized drivers or renters, as defined in section three hundred  
12 ninety-six-z of this article, of the prohibition against commercial  
13 motor vehicles operating on parkways for any rentals or leases of  
14 commercial motor vehicles. For purposes of this section "commercial  
15 motor vehicle" shall mean a motor vehicle or combination of vehicles  
16 having a gross combination weight rating of more than ten thousand  
17 pounds used to transport property or persons and shall include a tow  
18 truck with a gross vehicle weight rating of at least eighty-six hundred  
19 pounds.

20 (b) A conviction for a violation of this section shall be punishable  
21 by a fine of not more than one thousand dollars.

22 § 9. Severability. If any clause, sentence, subdivision, paragraph,  
23 section or part of this act be adjudged by any court of competent juris-  
24 diction to be invalid, or if any federal agency determines in writing  
25 that this act would render New York state ineligible for the receipt of  
26 federal funds, such judgment or written determination shall not affect,  
27 impair or invalidate the remainder thereof, but shall be confined in its  
28 operation to the clause, sentence, subdivision, paragraph, section or

1 part thereof directly involved in the controversy in which such judgment  
2 or written determination shall have been rendered.

3 § 10. This act shall take effect on the one hundred eightieth day  
4 after it shall have become a law; provided, however, that if chapter 473  
5 of the laws of 2021 shall not have taken effect on or before such date  
6 then section three of this act shall take effect on the same date and in  
7 the same manner as such chapter of the laws of 2021 takes effect;  
8 provided further that this act shall be deemed repealed if any federal  
9 agency determines in writing that this act would render New York state  
10 ineligible for the receipt of federal funds or any court of competent  
11 jurisdiction finally determines that this act would render New York  
12 state out of compliance with federal law or regulation; and provided  
13 that the commissioner of transportation shall notify the legislative  
14 bill drafting commission upon the occurrence of the provisions of this  
15 act in order that the commission may maintain an accurate and timely  
16 effective data base of the official text of the laws of the state of New  
17 York in furtherance of effectuating the provisions of section 44 of the  
18 legislative law and section 70-b of the public officers law; and  
19 provided further, however, that with respect to sections four and six of  
20 this act, the commissioner of transportation shall notify the legisla-  
21 tive bill drafting commission upon the occurrence of the provisions of  
22 sections four and six of this act, in order that the commission may  
23 maintain an accurate and timely effective data base of the official text  
24 of the laws of the state of New York in furtherance of effectuating the  
25 provisions of section 44 of the legislative law and section 70-b of the  
26 public officers law. Effective immediately, the addition, amendment  
27 and/or repeal of any rule or regulation necessary for the implementation

2 completed on or before such effective date.

12 pality, or state department or agency shall construct or improve, within  
13 the state highway right of way an entrance or connection to such high-  
14 way, or construct within the state highway right of way any works,  
15 structure or obstruction, or any overhead or underground crossing there-  
16 of, or lay or maintain therein underground wires or conduits or drain-

18 conditions of a work permit issued by the commissioner of transportation  
19 or his duly designated agent, notwithstanding any consent or franchise  
20 granted by any town or county superintendent, or by any other municipal  
21 authority. Any municipal corporation may enter upon any state highway  
22 for the purpose of widening the pavement or for any other purpose  
23 authorized by this section, but only after securing a permit as provided  
24 herein. Notwithstanding the limitations in any general or special law,  
25 every municipal corporation shall have and is hereby given authority to  
26 deposit with the department of transportation, such a sum of money or a

1 security bond as may be required by the commissioner of transportation  
2 as a condition precedent to the granting of the permit provided in this  
3 section.

4 2. (a) The commissioner of transportation shall establish regulations  
5 governing the issuance of highway work permits, including the fees to be  
6 charged therefor, a system of deposits of money or bonds guaranteeing  
7 the performance of the work and requirements of insurance to protect the  
8 interests of the state during performance of the work pursuant to a  
9 highway work permit. With respect to driveway entrance permits, the  
10 regulations shall take into consideration the prospective character of  
11 the development, the traffic which will be generated by the facility  
12 within the reasonably foreseeable future, the design and frequency of  
13 access to the facility, the effect of the facility upon drainage as  
14 related to existing drainage systems, the extent to which such facility  
15 may impair the safety and traffic carrying capacity of the existing  
16 state highway and any proposed improvement thereto within the reasonably  
17 foreseeable future, and any standards governing access, non-access or  
18 limited access which have been established by the department of trans-  
19 portation.

20 (b) Upon completion of the work within the state highway right of way,  
21 authorized by the work permit, the person, firm, corporation, munici-  
22 pality, or state department or agency, and his or its successors in  
23 interest, shall be responsible for the maintenance and repair of such  
24 work or portion of such work as set forth within the terms and condi-  
25 tions of the work permit.

1 its erection and maintenance. The commissioner of transportation shall  
2 make a demand by mail, to the last known address of the owner, apparent  
3 owner or party responsible for the erection and maintenance of such  
4 advertising sign, display or device, for its removal and, if it is not  
5 removed within thirty days from the date of the mailing of such demand,  
6 the commissioner of transportation may remove any such advertising sign,  
7 display or device, or any part thereof, from the state highway right of  
8 way. Any such legally permitted, erected and maintained sign, display or  
9 device may be maintained by its owner in accordance with the provisions  
10 of this section upon the approval of the permit issuing office on the  
11 same terms and conditions as may exist for the granting of such  
12 approvals generally. Where such approvals are for permits to control  
13 vegetation, the permit issuing office shall approve no more than two  
14 hundred fifty permits per annum. The commissioner of transportation may  
15 also order the approval of additional permits to control vegetation on  
16 an individual basis upon demonstration of acute need.

17 4. The term "state highway right of way" shall, for the purposes of  
18 this section, mean the entire width between the boundary line of all  
19 property which has been purchased or appropriated by the state for state  
20 highway purposes, all property over which the commissioner of transpor-  
21 tation or his predecessors has assumed jurisdiction for state highway  
22 purposes, all property over which the commissioner of transportation has  
23 assumed jurisdiction during the period of construction, reconstruction  
24 or improvement and all property which has become part of the state high-  
25 way system through dedication or use.

26 5. Any person, firm or corporation violating this section shall be  
27 liable [to] for a fine of not [less than twenty-five dollars nor] more  
28 than [one] twenty-five thousand dollars for each day of violation to be

1 recovered by the commissioner of transportation. All fees, fines or  
2 penalties collected or recovered by the commissioner pursuant to this  
3 section shall be deposited by the comptroller into the special obli-  
4 gation reserve and payment account of the dedicated highway and bridge  
5 trust fund established pursuant to section eighty-nine-b of the state  
6 finance law, excepting monies deposited with the state on account of  
7 betterments performed pursuant to subdivision twenty-seven or subdivi-  
8 sion thirty-five of section ten of this chapter.

9 § 2. This act shall take effect immediately.

10 § 2. Severability clause. If any clause, sentence, paragraph, subdivi-  
11 sion, section or Subpart of this Part shall be adjudged by any court of  
12 competent jurisdiction to be invalid, such judgment shall not affect,  
13 impair, or invalidate the remainder thereof, but shall be confined in  
14 its operation to the clause, sentence, paragraph, subdivision, section  
15 or Subpart thereof directly involved in the controversy in which such  
16 judgment shall have been rendered. It is hereby declared to be the  
17 intent of the legislature that this Part would have been enacted even if  
18 such invalid provisions had not been included herein.

19 § 3. This act shall take effect immediately; provided, however, that  
20 the applicable effective date of Subparts A through F of this Part shall  
21 be as specifically set forth in the last section of such Subparts.

22 PART B

23 Section 1. Paragraph (e) of subdivision 4 of section 10-c of the high-  
24 way law, as amended by section 1 part A of chapter 58 of the laws of  
25 2020, is amended to read as follows:

1 (e) Funds allocated for local street or highway projects under this  
2 subdivision shall be used to undertake work on a project either with the  
3 municipality's own forces or by contract, provided however, that whenever  
4 er the estimate for the construction contract work exceeds one hundred  
5 thousand dollars but does not exceed [three] seven hundred fifty thou-  
6 sand dollars such work must be performed either with the municipality's  
7 own forces or by contract let by competitive bid in accordance with the  
8 provisions of section one hundred three of the general municipal law and  
9 provided further, however, that whenever the estimate for the  
10 construction contract work exceeds [three] seven hundred fifty thousand  
11 dollars such work must be performed by contract let by competitive bid  
12 in accordance with the provisions of section one hundred three of the  
13 general municipal law.

14 § 2. This act shall take effect immediately.

15 PART C

16 Section 1. Section 14-1 of the transportation law, as added by  
17 section 2 of part H of chapter 413 of the laws of 1999, paragraph (f) of  
18 subdivision 2 as amended by section 1 of subpart XX of chapter 59 of the  
19 laws of 2021, is amended to read as follows:

20 § 14-1. Airport improvement and revitalization. 1. Notwithstanding any  
21 other provision of law to the contrary, an airport improvement and re-  
22 talization grant [and loan] program is established. Such program is  
23 established to provide assistance for the revitalization of public use  
24 airports through funding of projects or portions thereof, for which  
25 sufficient federal capital assistance and required non-federal matching  
26 funding is not available and provided the project is consistent with the

1 airport layout plan approved by the department or the Federal Aviation  
2 Administration. The funding of capital improvements pursuant to this  
3 section shall not be used to provide the non-federal matching share for  
4 federal airport capital improvement grants.

5 2. (a) Assistance may consist of grants [and loans] for capital  
6 improvements and technical assistance provided by the department pursu-  
7 ant to this section.

8 [Loans and grants] Grants pursuant to this section may be made to any  
9 municipal corporation, public authority, public benefit corporation or  
10 any combination thereof, or to other owners of a public use airport for  
11 the purpose of improving a public use airport. A county, pursuant to a  
12 written agreement, may act on behalf of one or more cities, towns or  
13 villages for the purposes of this section. No such assistance shall be  
14 provided to any airport operated by a bi-state authority.

15 (b) Improvements pursuant to this section may be made for the follow-  
16 ing purposes:

17 (i) construction, reconstruction, improvement, reconditioning and  
18 preservation of capital facilities where the service life of the project  
19 is at least ten years, and related engineering services provided, howev-  
20 er, that for pavement management projects the service life of the  
21 project shall be at least five years; and

22 (ii) purchase of airport equipment, including navigational aids,  
23 acquisition of land and easements[; and

24 (iii) technical assistance for airports including, but not limited to,  
25 preparation of studies to attract, retain or improve air carrier or air  
26 cargo services including low fare commercial service air carrier  
27 services, airport business plans, activities to inform the general  
28 public or public and private organizations of the availability and

1 economic impact of the airport and the aviation services at the airport  
2 on the community].

3 (c) Assistance pursuant to this section shall be provided pursuant to  
4 contract with the commissioner. Contracts for capital improvements shall  
5 insure the availability to the public of any airport improved hereunder  
6 for the useful life of such improvement as defined in section sixty-one  
7 of the state finance law. The commissioner shall establish standards  
8 governing the form, content and submission of applications for partic-  
9 ipation in this program. Such standards shall include, but not be limit-  
10 ed to, the requirement that, with respect to applications submitted by  
11 owners of privately-owned airports, the commissioner shall make a deter-  
12 mination that a request submitted by such owners will serve a public  
13 purpose [and such applications are accompanied by]. Before any funding  
14 under this section may be accepted or disbursed, the commissioner must  
15 be provided with a resolution from the governing body of the county in  
16 which such privately-owned airport is located formally endorsing the  
17 project for which assistance is requested. The commissioner shall not  
18 approve an application for a grant [or loan] unless the applicant can  
19 demonstrate commitment of sufficient funds to provide the match set  
20 forth in paragraph (d) of this subdivision.

21 [All loans shall be repaid within ten years and bear such rate of  
22 interest as shall be established therefor by the commissioner upon the  
23 issuance of the loan; provided, however, such rate shall not exceed six  
24 percent per annum. Payments on all loans shall be made to the department  
25 and credited to the airport improvement and revitalization fund estab-  
26 lished pursuant to section eighty-eight-d of the state finance law.]

27 (d) Matching ratios. [(i)] Capital grants [and loans]. State assist-  
28 ance for the program shall cover the following share of the project

1 cost: for general aviation airports and commercial service airports with  
2 less than fifty thousand annual enplanements, up to ninety percent; for  
3 commercial service airports with fifty thousand or more but less than  
4 seven hundred thousand annual enplanements, up to eighty percent; and  
5 for commercial service airports with annual enplanements of seven  
6 hundred thousand or more, up to seventy percent.

7 [(ii) Technical assistance. Technical assistance may be up to eighty  
8 percent of the project cost. Funding for technical assistance shall be  
9 limited to general aviation airports and commercial service airports  
10 with less than two hundred fifty thousand annual enplanements, provided,  
11 however, that such funding may be granted to general aviation airports  
12 and commercial service airports, regardless of the number of annual  
13 enplanements, for the preparation of studies to attract, retain or  
14 improve low fare commercial service air carrier services. The entire  
15 cost of regional or statewide studies conducted by or on behalf of the  
16 department may be funded.]

17 (e) Funds for assistance pursuant to this section shall be from the  
18 airport improvement and revitalization fund established pursuant to  
19 section eighty-eight-d of the state finance law. No funds shall be paid  
20 pursuant to this section unless the applicant for assistance provides  
21 for the required non-state funded share of the costs of a project.

22 (f) No grant [or loan] to any eligible applicant shall exceed the sum  
23 of [two] five million [five hundred thousand] dollars, and no part of  
24 any such grant [or loan] shall be used for salaries or for services  
25 regularly provided by the applicant for administrative costs in  
26 connection with such grant [or loan].

27 (g) On or before May first each year, the commissioner shall submit a  
28 report on the immediately preceding fiscal year to the governor, tempo-

1 rary president of the senate and speaker of the assembly showing the  
2 total funds available for assistance pursuant to this section, and item-  
3 ization of assistance provided[, and the repayments of loans].

4 (h) No provision of this section shall be deemed to make any applicant  
5 ineligible for assistance otherwise available pursuant to section four-  
6 teen-h or fourteen-k of this article.

7 (i) The commissioner may promulgate rules and regulations for the  
8 implementation of this section.

9 § 2. This act shall take effect immediately.

10 PART D

11 Section 1. Section 45 of the highway law, as amended by chapter 1110  
12 of the laws of 1971, is amended to read as follows:

13 § 45. Entry upon adjacent lands and streams. Lands adjacent to a state  
14 highway or adjoining or in the bed or beds of any streams or creeks may  
15 be entered upon and occupied by the commissioner of transportation, his  
16 or her representatives and employees, or by a contractor or any of his  
17 or her agents or employees when directed by the commissioner of trans-  
18 portation or his or her representative:

19 1. to open, maintain or construct an existing ditch or drain or for  
20 making surveys and for digging a new ditch or drain, or a section there-  
21 of, for the free passage of water for the drainage of such highways.

22 2. to perform such work of construction, reconstruction, improvement  
23 or maintenance in order to keep the waters of such streams or creeks  
24 within their proper channels and to prevent their encroachment upon  
25 state highways or bridges thereon.

1 3. to remove or change the position of a fence or other obstruction  
2 which, in the judgment of the commissioner of transportation, prevents  
3 the free flow of water under or through a state highway, bridge or  
4 culvert.

5 4. to remove any fence or other obstruction which, in the judgment of  
6 the commissioner of transportation, causes snow to drift in and upon a  
7 state highway, and to erect snow fences or other devices upon such lands  
8 to prevent the drifting of snow in or upon any such highway.

9 5. to inspect trees for the purpose of determining whether any are in  
10 such a condition as to constitute a danger to users of the adjacent  
11 highway and to remove or prune those trees or parts thereof which in the  
12 judgment of the commissioner constitute such a danger.

13 6. on a temporary basis, when determined to be necessary in the  
14 discretion of the commissioner, to perform emergency repairs to provide  
15 for the safe functionality and operation of state highways and bridges  
16 when such functionality or operation is impacted by storm damage, land-  
17 slide, or retaining wall or drainage failure, and may pose a threat to  
18 the traveling public.

19 Notwithstanding the provisions of any general, special or local law or  
20 of any inconsistent provision of this chapter, claims for any damage  
21 caused by such entry and work and not exceeding three hundred and fifty  
22 dollars may be adjusted by agreement by the commissioner of transporta-  
23 tion without appropriating any property. Upon making any such agreement  
24 and adjustment, and upon the approval thereof by the department of audit  
25 and control, the commissioner of transportation shall deliver to the  
26 comptroller such agreement and a certificate stating the amount due such  
27 owner for damage caused by such entry and work and the amount so fixed

1 shall be paid out of the state treasury from moneys appropriated for the  
2 maintenance and repair of state highways.

3 § 2. This act shall take effect immediately.

4 PART E

5 Section 1. Section 1 of part I of chapter 413 of the laws of 1999,  
6 relating to providing for mass transportation payments, as amended by  
7 section 1 of part D of chapter 58 of the laws of 2015, is amended to  
8 read as follows:

9 Section 1. Notwithstanding any other law, rule or regulation to the  
10 contrary, payment of mass transportation operating assistance pursuant  
11 to section 18-b of the transportation law shall be subject to the  
12 provisions contained herein and the amounts made available therefor by  
13 appropriation.

14 In establishing service and usage formulas for distribution of mass  
15 transportation operating assistance, the commissioner of transportation  
16 may combine and/or take into consideration those formulas used to  
17 distribute mass transportation operating assistance payments authorized  
18 by separate appropriations in order to facilitate program administration  
19 and to ensure an orderly distribution of such funds.

20 To improve the predictability in the level of funding for those  
21 systems receiving operating assistance payments under service and usage  
22 formulas, the commissioner of transportation is authorized with the  
23 approval of the director of the budget, to provide service payments  
24 based on service and usage statistics of the preceding year.

25 In the case of a service payment made, pursuant to section 18-b of the  
26 transportation law, to a regional transportation authority on account of

1 mass transportation services provided to more than one county (consider-  
 2 ing the city of New York to be one county), the respective shares of the  
 3 matching payments required to be made by a county to any such authority  
 4 shall be as follows:

20 Notwithstanding any other inconsistent provisions of section 18-b of  
21 the transportation law or any other law, any moneys provided to a public  
22 benefit corporation constituting a transportation authority or to other  
23 public transportation systems in payment of state operating assistance  
24 or such lesser amount as the authority or public transportation system  
25 shall make application for, shall be paid by the commissioner of trans-  
26 portation to such authority or public transportation system in lieu, and

1 in full satisfaction, of any amounts which the authority would otherwise  
2 be entitled to receive under section 18-b of the transportation law.

3 Notwithstanding the reporting date provision of section 17-a of the  
4 transportation law, the reports of each regional transportation authori-  
5 ty and other major public transportation systems receiving mass trans-  
6 portation operating assistance shall be submitted on or before July 15  
7 of each year in the format prescribed by the commissioner of transporta-  
8 tion. Copies of such reports shall also be filed with the chairpersons  
9 of the senate finance committee and the assembly ways and means commit-  
10 tee and the director of the budget. The commissioner of transportation  
11 may withhold future state operating assistance payments to public trans-  
12 portation systems or private operators that do not provide such reports.

13 Payments may be made in quarterly installments as provided in subdivi-  
14 sion 2 of section 18-b of the transportation law or in such other manner  
15 and at such other times as the commissioner of transportation, with the  
16 approval of the director of the budget, may provide; and where payment  
17 is not made in the manner provided by such subdivision 2, the matching  
18 payments required of any city, county, Indian tribe or intercity bus  
19 company shall be made within 30 days of the payment of state operating  
20 assistance pursuant to this section or on such other basis as may be  
21 agreed upon by the commissioner of transportation, the director of the  
22 budget, and the chief executive officer of such city, county, Indian  
23 tribe or intercity bus company.

24 The commissioner of transportation shall be required to annually eval-  
25 uate the operating and financial performance of each major public trans-  
26 portation system. Where the commissioner's evaluation process has iden-  
27 tified a problem related to system performance, the commissioner may  
28 request the system to develop plans to address the performance deficien-

1 cies. The commissioner of transportation may withhold future state oper-  
2 ating assistance payments to public transportation systems or private  
3 operators that do not provide such operating, financial, or other infor-  
4 mation as may be required by the commissioner to conduct the evaluation  
5 process.

6 Payments shall be made contingent upon compliance with regulations  
7 deemed necessary and appropriate, as prescribed by the commissioner of  
8 transportation and approved by the director of the budget, which shall  
9 promote the economy, efficiency, utility, effectiveness, and coordinated  
10 service delivery of public transportation systems. The chief executive  
11 officer of each public transportation system receiving a payment shall  
12 certify to the commissioner of transportation, in addition to informa-  
13 tion required by section 18-b of the transportation law, such other  
14 information as the commissioner of transportation shall determine is  
15 necessary to determine compliance and carry out the purposes herein.

16 Counties, municipalities or Indian tribes that propose to allocate  
17 service payments to operators on a basis other than the amount earned by  
18 the service payment formula shall be required to describe the proposed  
19 method of distributing governmental operating aid and submit it one  
20 month prior to the start of the operator's fiscal year to the commis-  
21 sioner of transportation in writing for review and approval prior to the  
22 distribution of state aid. The commissioner of transportation shall only  
23 approve alternate distribution methods which are consistent with the  
24 transportation needs of the people to be served and ensure that the  
25 system of private operators does not exceed established maximum service  
26 payment limits. Copies of such approvals shall be submitted to the  
27 chairpersons of the senate finance and assembly ways and means commit-  
28 tees.

1 Notwithstanding the provisions of subdivision 4 of section 18-b of the  
2 transportation law, the commissioner of transportation is authorized to  
3 continue to use prior quarter statistics to determine current quarter  
4 payment amounts, as initiated in the April to June quarter of 1981. In  
5 the event that actual revenue passengers and actual total number of  
6 vehicle, nautical or car miles are not available for the preceding quar-  
7 ter, estimated statistics may be used as the basis of payment upon  
8 approval by the commissioner of transportation. In such event, the  
9 succeeding payment shall be adjusted to reflect the difference between  
10 the actual and estimated total number of revenue passengers and vehicle,  
11 nautical or car miles used as the basis of the estimated payment. The  
12 chief executive officer may apply for less aid than the system is eligi-  
13 ble to receive. Each quarterly payment shall be attributable to operat-  
14 ing expenses incurred during the quarter in which it is received, unless  
15 otherwise specified by such commissioner. In the event that a public  
16 transportation system ceases to participate in the program, operating  
17 assistance due for the final quarter that service is provided shall be  
18 based upon the actual total number of revenue passengers and the actual  
19 total number of vehicle, nautical or car miles carried during that quar-  
20 ter.

21 Payments shall be contingent on compliance with audit requirements  
22 determined by the commissioner of transportation.

23 In the event that an audit of a public transportation system or  
24 private operator receiving funds discloses the existence of an overpay-  
25 ment of state operating assistance, regardless of whether such an over-  
26 payment results from an audit of revenue passengers and the actual  
27 number of revenue vehicle miles statistics, or an audit of private oper-  
28 ators in cases where more than a reasonable return based on equity or

1 operating revenues and expenses has resulted, the commissioner of trans-  
2 portation, in addition to recovering the amount of state operating  
3 assistance overpaid, shall also recover interest, as defined by the  
4 department of taxation and finance, on the amount of the overpayment.

5 Notwithstanding any other law, rule or regulation to the contrary,  
6 whenever the commissioner of transportation is notified by the comp-  
7 troller that the amount of revenues available for payment from an  
8 account is less than the total amount of money for which the public mass  
9 transportation systems are eligible pursuant to the provisions of  
10 section 88-a of the state finance law and any appropriations enacted for  
11 these purposes, the commissioner of transportation shall establish a  
12 maximum payment limit which is proportionally lower than the amounts set  
13 forth in appropriations.

14 Notwithstanding paragraphs (b) of subdivisions 5 and 7 of section 88-a  
15 of the state finance law and any other general or special law, payments  
16 may be made in quarterly installments or in such other manner and at  
17 such other times as the commissioner of transportation, with the  
18 approval of the director of the budget may prescribe.

19 § 2. This act shall take effect immediately and shall be deemed to  
20 have been in full force and effect on and after April 1, 2022.

## PART F

22 Section 1. Subdivision 1 of section 359 of the public authorities law,  
23 as amended by section 6 of part TT of chapter 54 of the laws of 2016, is  
24 amended to read as follows:

1 1. On assuming jurisdiction of a thruway section or connection or any  
2 part thereof, or of a highway connection, the authority shall proceed  
3 with the construction, reconstruction or improvement thereof. All such  
4 work shall be done pursuant to a contract or contracts which shall be  
5 let to the lowest responsible bidder, by sealed proposals publicly  
6 opened, or by electronically secure proposal submission as permitted by  
7 the authority and electronically posted for public view, after public  
8 advertisement and upon such terms and conditions as the authority shall  
9 require; provided, however, that the authority may reject any and all  
10 proposals and may advertise for new proposals, as herein provided, if in  
11 its opinion, the best interests of the authority will thereby be  
12 promoted; provided further, however, that at the request of the authori-  
13 ty, all or any portion of such work, together with any engineering  
14 required by the authority in connection therewith, shall be performed by  
15 the commissioner and his subordinates in the department of transporta-  
16 tion as agents for, and at the expense of, the authority.

17 § 2. This act shall take effect immediately.

18 PART G

19 Section 1. Section 359-a of the public authorities law, as amended by  
20 section 7 of part TT of chapter 54 of the laws of 2016, is amended to  
21 read as follows:

22 § 359-a. Procurement contracts. For the purposes of section twenty-  
23 eight hundred seventy-nine of this chapter as applied to the authority,  
24 the term "procurement contract" shall mean any written agreement for the  
25 acquisition of goods or services of any kind by the authority in the  
26 actual or estimated amount of [fifteen] fifty thousand dollars or more.

1 The authority may utilize a procurement contract let by any department,  
2 agency or instrumentality of the United States government and/or any  
3 department, agency, office, political subdivision or instrumentality of  
4 any state or states. The authority shall document in the procurement  
5 record its rationale for the use of such a contract. Such rationale  
6 shall include, but need not be limited to, a determination of need, a  
7 consideration of the procurement method by which the contract was  
8 awarded, an analysis of alternative procurement sources including an  
9 explanation why a competitive procurement or the use of a centralized  
10 contract let by the commissioner of the office of general services is  
11 not in the best interest of the authority, and the reasonableness of  
12 cost. The authority shall accept sole responsibility for any payment  
13 due the vendor or contractor as a result of the authority's use of the  
14 contract.

15 § 2. This act shall take effect immediately.

16 PART H

17 Section 1. Subdivision 1 of section 1264 of the public authorities  
18 law, as amended by section 2 of subpart B of part ZZZ of chapter 59 of  
19 the laws of 2019, is amended to read as follows:

20 1. The purposes of the authority shall be the continuance, further  
21 development and improvement of commuter transportation and other  
22 services related thereto within the metropolitan commuter transportation  
23 district, including but not limited to such transportation by railroad,  
24 omnibus, marine and air, in accordance with the provisions of this  
25 title. It shall be the further purpose of the authority, consistent with  
26 its status as the ex officio board of both the New York city transit

1 authority and the triborough bridge and tunnel authority, to develop and  
2 implement a unified mass transportation policy for such district in an  
3 efficient and cost-effective manner that includes the use of design-  
4 build contracting on all projects over [twenty-five] two hundred million  
5 dollars in cost for new construction and all projects over four hundred  
6 million dollars in cost for projects that are predominantly rehabili-  
7 tation or replacement of existing assets except where a waiver is grant-

17 any project until funds therefor have been allocated pursuant to the  
18 provisions of this section and copies of the appropriate certificates of  
19 approval filed with the chair of the senate finance committee, the chair  
20 of the assembly ways and means committee and the state comptroller.

21 § 11. Subdivision 32 of section 61 of the state finance law, as added  
22 by section 3 of part UU of chapter 59 of the laws of 2021, is amended to  
23 read as follows:

24 32. Thirty years. For the payment of "[restore mother nature] clean  
25 water, clean air, and green jobs" projects, as defined in article  
26 fifty-eight of the environmental conservation law and undertaken pursu-  
27 ant to a chapter of the laws of two thousand twenty-one, enacting and

7 od of probable life of [restore mother nature] clean water, clean air,  
8 and green jobs projects, including any other works or purposes to be  
9 financed with state debt. Weighted average period of probable life shall  
10 be determined by computing the sum of the products derived from multi-  
11 plying the dollar value of the portion of the debt contracted for each  
12 work or purpose (or class of works or purposes) by the probable life of  
13 such work or purpose (or class of works or purposes) and dividing the  
14 resulting sum by the dollar value of the entire debt after taking into

19 nature", is amended to read as follows:

20 § 5. This act shall take effect only in the event that section 1 of  
21 part TT of the chapter of the laws of 2021 enacting the environmental  
22 bond act of 2022 "[restore mother nature] clean water, clean air, and  
23 green jobs" is submitted to the people at the general election to be  
24 held in November 2022 and is approved by a majority of all votes cast  
25 for and against it at such election. Upon such approval, this act shall  
26 take effect immediately; provided that the commissioner of environmental  
27 conservation shall notify the legislative bill drafting commission upon  
28 the occurrence of the enactment of section 1 of part TT of the chapter

1 of the laws of 2021 enacting the environmental bond act of 2022  
2 "[restore mother nature] clean water, clean air, and green jobs", in  
3 order that the commission may maintain an accurate and timely effective  
4 data base of the official text of the laws of the state of New York in  
5 furtherance of effectuating the provisions of section 44 of the legisla-  
6 tive law and section 70-b of the public officers law. Effective imme-  
7 diately, the addition, amendment, and/or repeal of any rule or regu-  
8 lation necessary for the implementation of the foregoing sections of  
9 this act are authorized [and directed] to be made and completed on or  
10 before such effective date.

11 § 13. This act shall take effect immediately; provided, however that  
12 sections one, two, three, four, five, six, seven, eight, nine, ten and  
13 eleven of this act shall take effect on the same date and in the same  
14 manner as part UU of chapter 59 of the laws of 2021, takes effect.

15 PART PP

16 Section 1. Subdivision (a) of section 1421 of the tax law, as amended  
17 by section 4 of part 000 of chapter 59 of the laws of 2019, is amended  
18 to read as follows:

19 (a) From the taxes, interest and penalties attributable to the tax  
20 imposed pursuant to section fourteen hundred two of this article, the  
21 amount of one hundred ninety-nine million three hundred thousand dollars  
22 shall be deposited by the comptroller in the environmental protection  
23 fund established pursuant to section ninety-two-s of the state finance  
24 law for the fiscal year beginning April first, two thousand nine; the  
25 amount of one hundred nineteen million one hundred thousand dollars  
26 shall be deposited in such fund for the fiscal year beginning April

1 first, two thousand ten; the amount of two hundred fifty-seven million  
2 three hundred fifty thousand dollars shall be deposited into such fund  
3 for the fiscal year beginning April first, two thousand twenty-two; and  
4 for each fiscal year thereafter. On or before June twelfth, nineteen  
5 hundred ninety-five and on or before the twelfth day of each month ther-  
6 eafter (excepting the first and second months of each fiscal year), the  
7 comptroller shall deposit into such fund from the taxes, interest and  
8 penalties collected pursuant to such section fourteen hundred two of  
9 this article which have been deposited and remain to the comptroller's  
10 credit in the banks, banking houses or trust companies referred to in  
11 section one hundred seventy-one-a of this chapter at the close of busi-  
12 ness on the last day of the preceding month, an amount equal to one-  
13 tenth of the annual amount required to be deposited in such fund pursu-  
14 ant to this section for the fiscal year in which such deposit is  
15 required to be made. In the event such amount of taxes, interest and  
16 penalties so remaining to the comptroller's credit is less than the  
17 amount required to be deposited in such fund by the comptroller, an  
18 amount equal to the shortfall shall be deposited in such fund by the  
19 comptroller with subsequent deposits, as soon as the revenue is avail-  
20 able. Beginning April first, nineteen hundred ninety-seven, the comp-  
21 troller shall transfer monthly to the clean water/clean air fund estab-  
22 lished pursuant to section ninety-seven-bbb of the state finance law,  
23 all moneys remaining from such taxes, interest and penalties collected  
24 that are not required for deposit in the environmental protection fund.

25 § 2. This act shall take effect immediately.

1 Section 1. Subdivisions 2, 3 and 7 of section 24-0105 of the environ-  
2 mental conservation law, as added by chapter 614 of the laws of 1975,  
3 subdivision 7 as renumbered by chapter 654 of the laws of 1977, are  
4 amended to read as follows:

5 2. Considerable acreage of freshwater wetlands in the state of New  
6 York has been lost, despoiled or impaired by unregulated draining,  
7 dredging, filling, excavating, building, pollution or other [acts]  
8 activities inconsistent with the natural uses of such areas. [Other  
9 freshwater] Freshwater wetlands are in jeopardy of being lost, despoiled  
10 or impaired by such [unrelated acts] activities.

11 3. Recurrent flooding aggravated or caused by the loss of freshwater  
12 wetlands has serious effects upon natural ecosystems and communities.  
13 The increasing severity and duration of storm-related flooding due to  
14 climate change, which has caused billions of dollars of property damage  
15 across the state, makes protection of all freshwater wetlands in the  
16 state of vital importance.

17 7. Any loss of freshwater wetlands deprives the people of the state of  
18 some or all of the many and multiple benefits to be derived from  
19 wetlands, to wit:

20 (a) flood and storm control by the hydrologic absorption and storage  
21 capacity of freshwater wetlands;

22 (b) wildlife habitat by providing breeding, nesting and feeding  
23 grounds and cover for many forms of wildlife, wildfowl and shorebirds,  
24 including migratory wildfowl and rare, endangered or threatened species  
25 [such as the bald eagle and osprey];

26 (c) protection of subsurface water resources and provision for valu-  
27 able watersheds and recharging ground water supplies;

1 (d) recreation by providing areas for hunting, fishing, boating,  
2 hiking, bird watching, photography, camping and other uses;

3 (e) pollution treatment by serving as biological and chemical oxida-  
4 tion basins;

5 (f) erosion control by serving as sedimentation areas and filtering  
6 basins, absorbing silt and organic matter and protecting channels and  
7 harbors;

8 (g) education and scientific research by providing readily accessible  
9 outdoor bio-physical laboratories, living classrooms and vast training  
10 and education resources; [and]

11 (h) open space and aesthetic appreciation by providing often the only  
12 remaining open areas along crowded river fronts and coastal Great Lakes  
13 regions; [and]

14 (i) sources of nutrients in freshwater food cycles and nursery grounds  
15 and sanctuaries for freshwater fish[.];

16 (j) supporting a diversity of plant species that are rare, endangered  
17 or threatened, or exploitably vulnerable as defined in section 9-1503 of  
18 this chapter; and

19 (k) supporting a diversity of communities of plants and animals that  
20 are deemed by the commissioner to be rare in the state or in a region of  
21 the state.

22 § 2. The opening paragraph and paragraphs (c) and (d) of subdivision  
23 1, and subdivisions 2, 3 and 8 of section 24-0107 of the environmental  
24 conservation law, as amended by chapter 654 of the laws of 1977, are  
25 amended and two new subdivisions 9 and 10 are added to read as follows:

26 "Freshwater wetlands" means lands and waters of the state [as shown on  
27 the freshwater wetlands map] that have an area of at least twelve and  
28 four-tenths acres or, if less than twelve and four-tenths acres in size,

1 are of unusual importance, and which contain any or all of the follow-  
2 ing:

3 (c) lands and waters substantially enclosed by aquatic or semi-aquatic  
4 vegetation as set forth in paragraph (a) of this subdivision or by dead  
5 vegetation as set forth in paragraph (b) of this subdivision, the regu-  
6 lation of which is necessary to protect and preserve the aquatic and  
7 semi-aquatic vegetation; and

8 (d) the waters overlying the areas set forth in paragraphs (a) and (b)  
9 of this subdivision and the lands underlying paragraph (c) of this  
10 subdivision.

11 2. "Freshwater wetlands map" shall mean a map promulgated by the  
12 department pursuant to section 24-0301 of this article on which are  
13 indicated the boundaries of any freshwater wetlands. Freshwater wetland  
14 maps depict the approximate location of wetlands and are not necessarily  
15 determinative as to whether a permit is required pursuant to section  
16 24-0701 of this article. There is a rebuttable presumption that mapped  
17 and unmapped areas meeting the definition of a freshwater wetland in  
18 this section are regulated and subject to permit requirements. This  
19 presumption may be rebutted by presenting information to the department  
20 that the area does not meet the definition contained in this section. A  
21 wetland delineation by the department, or a verification by the depart-  
22 ment of a wetland delineation by another party, is required to identify  
23 the regulated freshwater wetland boundary in a particular location.

24 3. "Boundaries of a freshwater wetland" shall mean the outer limit of  
25 the vegetation specified in paragraphs (a) and (b) of subdivision one of  
26 this section [24-0107] and of the lands and waters specified in para-  
27 graph (c) of such subdivision.

1 8. "Pollution" shall mean the presence in the environment of [man-in-  
2 duced] human-induced conditions, or contaminants in quantities or char-  
3 acteristics which are or may be injurious to human, plant or wildlife,  
4 or other animal life or to property.

5 9. "Unusual importance" shall mean a freshwater wetland, regardless of  
6 size, that possesses one or more of the following characteristics as  
7 determined by the department:

8 (a) it is located in a watershed that has experienced significant  
9 flooding in the past, or is expected to experience significant flooding  
10 in the future from severe storm events related to climate change;

11 (b) it is located within an urbanized area, as defined by the United  
12 States census bureau;

13 (c) it contains a plant species occurring in fewer than thirty-five  
14 sites statewide or having fewer than five thousand individuals state-  
15 wide;

16 (d) it contains habitat for an essential behavior of an endangered or  
17 threatened species or a species of special concern as defined under  
18 section 11-0535 of this chapter or listed as a species of greatest  
19 conservation need in New York's wildlife action plan;

20 (e) it is classified by the department as a Class I wetland;

21 (f) it was previously classified and mapped by the department as a  
22 wetland of unusual local importance; or

23 (g) it is determined by the commissioner to be of significant impor-  
24 tance to protecting the state's water quality.

25 10. "Delineation" shall mean a precise representation of a regulated  
26 freshwater wetland as defined in subdivisions one and three of this  
27 section.

1 § 3. Subdivisions 1, 2, 3, 4 and 5 of section 24-0301 of the environ-  
2 mental conservation law are REPEALED.

3 § 4. Subdivisions 6, 7 and 8 of section 24-0301 of the environmental  
4 conservation law, subdivision 6 as amended by chapter 16 of the laws of  
5 2010 and subdivision 7 as amended and subdivision 8 as added by chapter  
6 654 of the laws of 1977, are amended to read as follows:

7 [6.] 1. Except as provided in subdivision [eight] three of this  
8 section, the commissioner shall supervise the maintenance of [such boun-  
9 dary] freshwater wetlands maps, which shall be available to the public  
10 [for inspection and examination at the regional office of the department  
11 in which the wetlands are wholly or partly located and in the office of  
12 the clerk of each county in which each such wetland or a portion thereof  
13 is located] on the department's website. The commissioner may readjust  
14 the map [thereafter to clarify the boundaries of the wetlands, to  
15 correct any errors on the map, to effect any additions, deletions or  
16 technical changes on the map, and to reflect changes as have occurred as  
17 a result of the granting of permits pursuant to section 24-0703 of this  
18 article, or natural changes which may have occurred through erosion,  
19 accretion, or otherwise. Notice of such readjustment shall be given in  
20 the same manner as set forth in subdivision five of this section for the  
21 promulgation of final freshwater wetlands maps. In addition, at the time  
22 notice is provided pursuant to subdivision five of this section, the  
23 commissioner shall update any digital image of the map posted on the  
24 department's website to reflect such readjustment] at any time to more  
25 accurately depict the approximate location of wetlands.

26 [7.] 2. Except as provided in subdivision [eight] three of this  
27 section, the commissioner may, upon [his] their own initiative, and  
28 shall, upon a written request by a landowner whose land or a portion

1 thereof may be included within a wetland, or upon the written request of  
2 another person or persons or an official body whose interests are shown  
3 to be affected, cause to be delineated [more precisely] the boundary  
4 line or lines of a freshwater wetland or a portion thereof. [Such more  
5 precise delineation of a freshwater wetland boundary line or lines shall  
6 be of appropriate scale and sufficient clarity to permit the ready iden-  
7 tification of individual buildings and of other major man-made struc-  
8 tures or facilities or significant geographical features with respect to  
9 the boundary of any freshwater wetland.] The commissioner shall under-  
10 take to delineate the boundary of a particular wetland or wetlands, or a  
11 particular part of the boundary thereof only upon a showing by the  
12 applicant therefor of good cause for such [more precise] delineation and  
13 the establishment of such [more precise] line.

14 [8.] 3. The supervision of the maintenance of any freshwater wetlands  
15 map or portion thereof applicable to wetlands within the Adirondack  
16 park, the readjustment and precise delineation of wetland boundary lines  
17 and the other functions and duties ascribed to the commissioner by  
18 subdivisions [six and seven] one and two of this section shall be  
19 performed by the Adirondack park agency, which shall make such maps  
20 available [for public inspection and examination at its headquarters] on  
21 the agency's website.

22 § 5. Subdivisions 1 and 4 of section 24-0701 of the environmental  
23 conservation law, subdivision 1 as amended by chapter 654 of the laws of  
24 1977 and subdivision 4 as amended by chapter 697 of the laws of 1979,  
25 are amended to read as follows:

26 1. [After issuance of the official freshwater wetlands map of the  
27 state, or of any selected section or region thereof, any] Any person  
28 desiring to conduct activities on freshwater wetlands [as so designated

1 thereon any of the regulated activities set forth in subdivision two of  
2 this section], or the regulated areas adjacent to these wetlands set  
3 forth in subdivision two of this section, must obtain a permit as  
4 provided in this title.

5 4. [The] On lands in active agricultural use, the activities of farm-  
6 ers and other landowners in grazing and watering livestock, making  
7 reasonable use of water resources, harvesting natural products of the  
8 wetlands, selectively cutting timber, draining land or wetlands for  
9 growing agricultural products and otherwise engaging in the use of  
10 wetlands or other land for growing agricultural products shall be  
11 excluded from regulated activities and shall not require a permit under  
12 subdivision one [hereof] of this section, except that structures not  
13 required for enhancement or maintenance of the agricultural productivity  
14 of the land and any filling activities shall not be excluded hereunder,  
15 and provided that the use of land [designated as a freshwater wetland  
16 upon the freshwater wetlands map at the effective date thereof] that  
17 meets the definition of a freshwater wetland in section 24-0107 of this  
18 article for uses other than those referred to in this subdivision shall  
19 be subject to the provisions of this article. All activities on lands  
20 that meet the definition of a freshwater wetland shall be subject to the  
21 provisions of this article once agricultural activities cease.

22 § 6. Subdivision 5 of section 24-0703 of the environmental conserva-  
23 tion law, as amended by section 38 of part D of chapter 60 of the laws  
24 of 2012, is amended to read as follows:

25 5. [Prior to the promulgation of the final freshwater wetlands map in  
26 a particular area and the implementation of a freshwater wetlands  
27 protection law or ordinance, no person shall conduct, or cause to be  
28 conducted, any activity for which a permit is required under section

1 24-0701 of this title on any freshwater wetland unless he has obtained a  
2 permit from the commissioner under this section.] Any person may inquire  
3 of the department as to whether or not a given parcel of land [will be  
4 designated] includes a freshwater wetland subject to regulation or a  
5 regulated freshwater wetland adjacent area. The department shall give a  
6 definite answer in writing within [thirty] sixty days of such request as  
7 to [whether] the status of such parcel [will or will not be so desig-

18 packaging or paper product in the state; or

19 (ii) the person who imports the packaging or paper product as the  
20 owner or licensee of a trademark or brand under which the packaging or  
21 paper products are sold or distributed in the state; or

22 (iii) the person or company that offers for sale, sells, or distrib-  
23 utes the packaging or paper product in the state.

7 paper product, any such person may assume responsibility for obligations  
8 of a producer of that brand under this title. If none of those persons  
9 assume responsibility for the obligations of a producer under this  
10 title, any and all such persons jointly and severally may be considered  
11 the responsible producer of that brand for purposes of this title.

12 9. "Producer responsibility organization" means a not-for-profit  
13 organization designated by a group of producers to act as an agent on  
14 behalf of each participating producer to develop and implement a produc-  
15 er responsibility program. To the extent applicable, a producer respon-  
16 sibility organization shall have a governing board that represents the  
17 diversity of producers and the covered materials and product types, and  
18 such board shall include non-voting members representing a diversity of  
19 material trade associations.

20 10. "Readily-recyclable" means packaging that can be sorted by enti-  
21 ties processing recyclables from New York and for which, during the  
22 previous two calendar years, there was a consistent market, meaning  
23 recyclers were willing to pay for fully sorted material at the door of  
24 their facilities in quantities equal to or in excess of material supply.  
25 This does not include material types that recyclers accept in low quan-  
26 tities or sort out of material during additional processing steps; if  
27 material recyclers do not desire a full bale of a specific material  
28 type, that material type is not readily-recyclable.

1 11. "Recovery rate" means the amount of packaging or paper products

4 into the state, by material type, expressed as percentages.

5 12. "Recycling" means the processing of source-separated packaging and  
6 paper products to produce a marketable product or secondary raw materi-

8 fuel or fuel products without substantial production of a marketable  
9 non-fuel product or secondary raw material.

10 13. "Recycling collection" means a recycling program that serves resi-  
11 dential units, schools, federal, state or local agencies, businesses, or  
12 institutions, where such schools, federal, state or local agencies,  
13 businesses, or institutions were eligible to be served under a contract  
14 with a municipality by a municipality or a private sector hauler as of  
15 the effective date of this title, and such recycling program is operated  
16 by a municipality or pursuant to a contract with the municipality,  
17 private sector hauler, or other public agency or through approved local  
18 solid waste management plans.

19 14. "Recycling rate" means the amount of discarded packaging and paper  
20 products that is managed through recycling, as defined by this title,  
21 and is computed by dividing the amount of discarded packaging and paper  
22 products collected and recycled, by material type, by the total amount  
23 of discarded packaging and paper products collected over a program year,  
24 by material type, expressed as percentages.

25 15. "Retailer" means a person who sells or offers for sale a product  
26 to a consumer, including sales made through an internet transaction to  
27 be delivered to a consumer in the state.

1 16. "Reuse" means returning, donating or selling a discarded packaging  
2 or paper product back into the market for its original intended use,  
3 when the discarded packaging or paper product retains its original  
4 performance characteristics and can be used for its original purpose.

5 § 27-3303. Needs assessment and establishment of a packaging and paper  
6 products program.

8 assessment conducted by a third-party organization selected by the  
9 department, shall be submitted to the department.

10 (b) The statewide needs assessment shall be retroactively funded by  
11 the producers or producer responsibility organization.

12 (c) The statewide needs assessment shall include an evaluation of the  
13 capacity, costs, gaps, and needs for the following factors:

14 (i) current funding needs, both operational and capital, impacting  
15 recycling access and availability;

16 (ii) existing state statutory provisions and funding sources for recy-  
17 cling, reuse, reduction, and recovery;

18 (iii) the collection and hauling system for recyclable materials in  
19 the state;

20 (iv) the processing capacity and infrastructure for recyclable materi-  
21 als in the state and regionally and identifying necessary capital  
22 investments to existing and future reuse and recycling infrastructure;

23 (v) the market conditions and opportunities for recyclable and reus-  
24 able materials in the state and regionally;

25 (vi) consumer education needs for recycling, reuse, and reduction of  
26 covered materials and products;

27 (vii) current state packaging and paper product recovery rates, recy-  
28 cling rates, and post-consumer recycled content rates, by material type;

1 (viii) accounting of greenhouse gas emissions associated with  
2 collection, processing, and marketing of packaging and paper products;

3 (ix) an evaluation of state and regionally accepted recycling prac-  
4 tices that constitute legitimate recycling; and

5 (x) current barriers affecting the equitable access to recycling or  
6 reuse programs.

7 2. By June first, two thousand twenty-three, an advisory committee  
8 shall be established and begin performing its obligations pursuant to  
9 section 27-3305 of this title.

10 3. (a) By April first, two thousand twenty-five, any producer imple-  
11 menting an individual extended producer responsibility program or any  
12 producer responsibility organization, shall submit a producer responsi-  
13 bility program plan developed in consultation with the advisory commit-  
14 tee to the department for approval. A producer may satisfy its obli-  
15 gations under this title individually or through a producer  
16 responsibility organization.

17 (b) Any producer implementing an individual extended producer respon-  
18 sibility program or any producer responsibility organization, shall  
19 begin program implementation within six months after the date the plan

21 4. Any person that becomes a producer after April first, two thousand  
22 twenty-five, shall submit an individual extended producer responsibility  
23 program plan within six months and begin program implementation within  
24 six months of plan approval, or join a producer responsibility organiza-  
25 tion.

26 5. By April first, two thousand twenty-six, no producer shall sell,  
27 offer for sale, or distribute packaging or paper products for use in New  
28 York unless the producer, or its designated producer responsibility

1 organization, has submitted a producer responsibility program plan to  
2 the department for approval.

3 6. To address program performance, producers shall be required to  
4 evaluate how they are meeting the minimum post-consumer recycled content  
5 rate, minimum recovery rate, and minimum recycling rate for packaging  
6 and paper material types, as recommended by the advisory committee, and  
7 adopted by the department in regulation.

8 7. No producer shall sell, offer for sale, or distribute packaging and  
9 paper products for use in New York unless such packaging or paper  
10 products are in compliance with title two of article thirty-seven of  
11 this chapter.

12 8. Funds collected from producers by a producer responsibility organ-  
13 ization to operate the program pursuant to this title shall not be used  
14 to carry out lobbying activities, bring a lawsuit against the state,  
15 defend litigation involving claims of a producer responsibility organ-  
16 ization's failure to comply with the requirements of this chapter, or  
17 for payment of penalties for violations of this chapter.

18 9. No person may charge a consumer a point-of-sale or point-of-collec-  
19 tion fee to recoup the costs associated with meeting the obligations  
20 under this title.

21 § 27-3305. Advisory committee.

22 1. The commissioner of the department shall appoint members to the  
23 advisory committee, which shall be comprised of an odd number of  
24 members, with at least one member representing each of the following  
25 disciplines, with each discipline having equal representation:

26 (a) an association representing municipalities and an additional  
27 municipal representative from a city with a population of one million or  
28 more residents;

- 1 (b) a municipality operating a recycling program;

13 (j) a consumer advocate;  
14 (k) a retail organization; and  
15 (l) a producer of packaging products, producer of paper products, and  
16 a representative from a producer responsibility organization established  
17 under this title as non-voting members.
- 18 2. The advisory committee shall select a chair from among the  
19 members. The chair will be responsible for selecting secretarial support  
20 for the advisory committee.
- 21 3. The advisory committee shall be consulted as needed, but at least  
22 once, during the development of the producer responsibility program  
23 plan, prior to any update to the producer responsibility program plan,  
24 and prior to the submission of an annual report.
- 25 4. The advisory committee shall use the findings from the statewide  
26 needs assessment to inform its producer or producer responsibility  
27 organization program plan recommendations.

1 5. The advisory committee shall work with all producers implementing  
2 an individual extended producer responsibility program and all producer  
3 responsibility organizations to ensure consistent messaging and coordi-  
4 nation across program plans.

5 6. The advisory committee shall review the producer responsibility  
6 program plans required under this title and prepare specific written  
7 recommendations on all portions of the producer responsibility program  
8 plans and on all updates or revisions to approved producer responsibil-  
9 ity program plans. Such recommendation shall be approved by a majority  
10 of the advisory committee's members. The producer implementing an indi-  
11 vidual extended producer responsibility program or producer responsibil-  
12 ity organization shall consider and respond to those written recommenda-  
13 tions in writing, and such recommendations and responses shall be  
14 provided to the department at the time of plan submission.

15 7. By April first, two thousand twenty-four, the advisory committee  
16 shall recommend to the department annual minimum recovery rates, recycl-  
17 ing rates, and post-consumer recycled content rates, by material type,  
18 over a five-year timeframe beginning in two thousand twenty-six. Such  
19 rate setting recommendation shall be informed by the needs assessment  
20 and approved by the department.

21 8. By October first, two thousand twenty-five, the department shall  
22 adopt regulations setting forth initial annual minimum recovery rates,  
23 recycling rates, and post-consumer recycled content rates, by material  
24 type, over a five-year timeframe beginning in two thousand twenty-six.

25 9. (a) The advisory committee shall make recommendations to the  
26 department at the time of producer or producer responsibility organiza-  
27 tion annual report submittal, as to whether any adjustments to the  
28 initially adopted minimum recovery rates, recycling rates, and post-con-

1 sumer recycled content rates are necessary. The advisory committee, in  
2 consideration of a recommendation to adjust any rates, shall consider:

3 (i) changes in market conditions, including supply and demand for  
4 post-consumer recycled plastics, both domestically and globally;

5 (ii) current recycling rates;

6 (iii) the availability of recycled materials suitable to meet the  
7 minimum recycled content goals, including the availability of high-qual-  
8 ity recycled materials, and food-grade recycled materials;

9 (iv) the capacity of recycling or processing infrastructure;

10 (v) utilization rates of the material; and

11 (vi) the progress made by producers in meeting the post-consumer recy-  
12 clad targets by material type.

13 (b) If an adjustment is recommended, the advisory committee shall  
14 provide a detailed basis for justification.

15 10. Members of the advisory committee shall be reimbursed for any  
16 necessary travel expenses, related to participating on the advisory  
17 committee, by the producer implementing an individual extended producer  
18 responsibility program or producer responsibility organization, and the  
19 department shall be responsible for monitoring these expenses. Members  
20 of the advisory committee shall receive no salary from a producer imple-  
21 menting an individual extended producer responsibility program or  
22 producer responsibility organization. The costs for secretarial support  
23 to the advisory committee shall be paid for by the producer implementing  
24 an individual extended producer responsibility program or producer  
25 responsibility organization, and the department shall be responsible for  
26 monitoring these expenses.

27 11. Members shall serve on the advisory committee for at least three  
28 years.

1 § 27-3307. Producer responsibility program plan.

2 1. By April first, two thousand twenty-five, any producer implementing  
3 an individual extended producer responsibility program or any producer  
4 responsibility organization, shall submit to the department a producer  
5 responsibility program plan, detailing its proposed collection and recy-  
6 cling program for packaging and paper products.

7 2. The producer responsibility program plan shall be valid for five  
8 years and shall be reviewed and updated every five years following the  
9 approval of the original plan. The department shall have the discretion  
10 to require the plan to be reviewed or revised prior to the five-year  
11 period if the department has cause to believe the minimum post-consumer  
12 recycled content rates, minimum recovery rates, minimum recycling rates,  
13 as specified by the department in regulation, or other factors of the  
14 plan are not being met or followed by the producer or producer responsi-  
15 bility organization, or if there has been a change in circumstances that  
16 warrants revision of the plan.

17 3. The submitted plan shall, at a minimum, address the following:

18 (a) Contact information. Contact information, including the name,  
19 electronic and physical address, and telephone number of the authorized  
20 representative of the producer implementing an individual extended  
21 producer responsibility program or producer responsibility organization.

22 (b) Participating producer or producers. Identify the producer or  
23 producers participating in the submitted producer responsibility program  
24 plan.

25 (c) Advisory committee recommendations. A description of how the  
26 recommendations from the advisory committee were considered and  
27 addressed in the development of the plan.

1 (d) Types and brands of packaging and paper products. A list of the  
2 types and brands of packaging and paper products for which the producer  
3 or producer responsibility organization is responsible for.

4 (e) Funding mechanism. A description of the proposed funding mechanism  
5 that is necessary to meet the requirements of this title and is suffi-  
6 cient to cover the cost of operating the program, updating the plan, and  
7 maintaining a financial reserve sufficient to operate the program in a  
8 fiscally prudent and responsible manner. The department may promulgate  
9 regulations necessary for a producer implementing an individual extended  
10 producer responsibility program or a producer responsibility organiza-  
11 tion to develop and manage a funding mechanism and activity-based costs.  
12 The following funding mechanism details shall be provided in the produc-  
13 er responsibility plan:

14 (i) proposed program charges for producers, listed by producer, which  
15 shall be sufficient to cover all program costs;

16 (ii) eco-modulation. For purposes of this title, "eco-modulation"  
17 shall provide that program charges are structured to provide producers  
18 with financial incentives that reward waste and source reduction and  
19 recycling compatibility innovations and practices, reward producers of  
20 packaging and paper products that can be easily reused, and that disin-  
21 centivize designs or practices that increase costs of managing the pack-  
22 aging and paper products. The producer responsibility organization may  
23 adjust charges to be paid by participating producers, or the producers  
24 may be provided a credit, based on factors that affect system costs. At  
25 a minimum, charges shall be variable based on:

26 (A) costs to provide recycling collection or other form of consumer  
27 service that is, at minimum, as convenient as the previous waste  
28 collection schema in the particular jurisdiction for all consumers;

1 (B) costs to process a producer's packaging and paper products for  
2 sale to secondary material markets;

3 (C) whether the packaging or paper product would typically be readi-  
4 ly-recyclable except that as a consequence of the product's design, the  
5 product has the effect of disrupting recycling processes or the product  
6 includes labels, inks, or adhesives containing heavy metals that would  
7 contaminate the recycling process;

8 (D) whether the packaging and paper products are nonfood contact pack-  
9 aging that is specifically designed to be reusable or refillable and has  
10 a high reuse or refill rate;

11 (E) the commodity value of packaging and paper products; and

12 (F) contributions to greenhouse gas emissions from the production,  
13 use, collection, processing, and marketing of the packaging or paper  
14 product.

15 (iii) a proposed special assessment charge on specific categories of  
16 covered packaging and paper products at the request of responsible enti-  
17 ties representing and approved by the advisory committee if the nature  
18 of the covered packaging and paper product imposes unusual costs in  
19 collection or processing or requires special actions to address effec-  
20 tive access to recycling or successful processing in municipal recycling  
21 facilities. The revenue from the special assessment shall be used to  
22 make system improvements for the specific covered packaging and paper  
23 products on which the special assessment was applied;

24 (iv) how charges shall be adjusted based upon the percentage of post-  
25 consumer recycled content and such percentage of post-consumer recycled  
26 content shall be verified either by the producer responsibility organ-  
27 ization or by an independent party designated by the department to  
28 ensure that such percentage meets or exceeds the minimum requirements in

1 the packaging or paper product, as long as the recycled content does not  
2 disrupt the potential for future recycling; and

3 (v) how activity-based costs are calculated and dispersed for services  
4 utilized by a producer implementing an individual extended producer  
5 responsibility program or producer responsibility organization if the  
6 waste haulers, recyclables handling and recovery facilities, recyclers,  
7 and municipalities, and other service providers elect to participate and  
8 be compensated by the producer implementing an individual extended  
9 producer responsibility program or producer responsibility organization  
10 in the recovery, recycling, and processing of packaging and paper  
11 products. The activity-based cost mechanism shall be based on the cost  
12 of consumer recycling collection, on-site processing cost for each read-  
13 ily-recyclable material, processing cost of non-readily recyclable mate-  
14 rial types, transportation cost of recycling for each material type,  
15 disposal costs for any residual or non-recyclable material, and any  
16 other cost factors as determined by the advisory committee or depart-  
17 ment.

18 (f) Municipal and private entity reimbursement. A description of the  
19 process for municipalities or private entities (such as solid waste  
20 collection, transportation, sorting, and processing companies, and other  
21 participating service providers) operating under the producer or produc-  
22 er responsibility organization's plan, to recoup reasonable costs from  
23 the producer or producer responsibility organization for the activity-  
24 based costs, including, as applicable, any administrative, collection,  
25 sorting, transportation, capital improvement, or processing costs. The  
26 municipality or private entity may not pass on to the consumer costs for  
27 which it has been paid by the producer or producer responsibility organ-  
28 ization. To facilitate the producer's or producer responsibility organ-

1 ization's determination of activity-based costs, participating municipi-  
2 palities and private entities shall report data related to their costs  
3 and the value of materials to the producer or producer responsibility  
4 organization. Cost calculations shall account for revenue generated from  
5 recyclable materials.

6 (g) Outreach and education. A description of the producer's or produc-  
7 er responsibility organization's public outreach and education program  
8 for consumers and other stakeholders.

9 (i) The plan shall address how the outreach and education program  
10 will:

11 (A) be designed to achieve the management goals of packaging and paper  
12 products extended producer responsibility under this title, including  
13 the prevention of contamination of products;

14 (B) be coordinated across producer and producer responsibility organ-  
15 ization programs to avoid confusion for consumers; and

16 (C) consult with municipalities and other stakeholders, coordinate  
17 with and assist local municipal programs, municipal contracted programs,  
18 solid waste collection companies, and other entities providing services,  
19 and develop and provide outreach and education to the diverse popu-  
20 lations in the state, including utilizing a variety of outreach and  
21 education tools and ensuring materials are accessible to all persons and  
22 are provided in multiple languages.

23 (ii) Participating producers shall label or mark packaging and paper  
24 products in accordance with current labeling rules, laws, or regulations  
25 with information to assist consumers in responsibly managing and recycl-  
26 ing packaging and paper products, responsibly composting packaging and  
27 paper products, and educating consumers about the percentage of post-  
28 consumer recycled content.

1 (iii) Details on the following components of the outreach and educa-  
2 tion program shall be provided in the plan, and available to consumers  
3 and other stakeholders on the producer's or producer responsibility  
4 organization's public education program website:

5 (A) proper end-of-life management of packaging, paper products and  
6 beverage containers;

7 (B) the location and availability of recycling collection;

8 (C) how to prevent litter of packaging, paper products, and beverage  
9 containers;

10 (D) information on how consumers can reduce their consumption for  
11 single-use packaging and paper products in favor of more reusable mate-  
12 rials;

13 (E) recycling and composting instructions that are: consistent state-  
14 wide, except as necessary to take into account differences among local  
15 laws and processing capabilities; easy to understand; and easily acces-  
16 sible; and

17 (F) a description of the process for answering stakeholder questions  
18 and resolving any issues.

19 (iv) A producer implementing an individual extended producer responsi-  
20 bility program or producer responsibility organization shall undertake  
21 outreach, education, and communications that assist in attaining or  
22 exceeding the minimum post-consumer content, minimum recovery rates, and  
23 minimum recycling rates, as specified by the department in regulation.

24 (h) Existing infrastructure. How the producer implementing an individ-  
25 ual extended producer responsibility program or the producer responsi-  
26 bility organization will work with existing waste haulers, recyclables  
27 handling and recovery facilities, recyclers, and municipalities to oper-

1 ate or expand current collection programs to address material collection  
2 methods.

3 (i) Convenience. A description of how the producer implementing an  
4 individual extended producer responsibility program or producer respon-  
5 sibility organization intends to meet the convenience requirements set  
6 forth as follows:

7 (i) A producer implementing an individual extended producer responsi-  
8 bility program or producer responsibility organization shall provide for  
9 widespread, free, convenient, and equitable consumer access to  
10 collection opportunities for the packaging and paper products identified  
11 under the producer or producer responsibility organization's program  
12 plan.

13 (ii) A producer implementing an individual extended producer responsi-  
14 bility program or producer responsibility organization shall ensure  
15 services, that are at least as convenient as the previous collection  
16 schema in a particular jurisdiction, continue for all consumers as of  
17 the effective date of this title.

18 (iii) A producer implementing an individual extended producer respon-  
19 sibility program or producer responsibility organization shall ensure  
20 services that collect covered packaging and paper products generated by  
21 business establishments are at least as orderly and efficient as the  
22 previous collection schema as of the effective date of this title.

23 (iv) A producer implementing an individual extended producer responsi-  
24 bility program or producer responsibility organization may rely on a  
25 range of means to collect various categories of packaging and paper  
26 products including, but not limited to, curbside collection, facility  
27 drop-off, and events, so long as packaging and paper products collection  
28 options include recycling collection services if:

1 (A) The category of packaging and paper products is suitable for recy-  
2 cling collection and can be effectively sorted by the facilities receiv-  
3 ing the collected material;

4 (B) The provider of the recycling collection service agrees to include  
5 the category of packaging and paper products as an accepted material;

6 (C) The packaging and paper products category is not handled through a  
7 deposit and return scheme, other extended producer responsibility  
8 program, or buy back system that relies on a collection system other  
9 than recycling collection; and

10 (D) The provider of the recycling collection service agrees to the  
11 producer implementing an individual extended producer responsibility  
12 program's or producer responsibility organization's activity-based costs  
13 arrangement.

14 (v) Where recycling collection is not available and drop-off  
15 collection facilities are utilized, consumers shall have free and equi-  
16 table access to facilities that are within fifteen miles of at least  
17 ninety-five percent of the jurisdiction's population unserved by recycl-  
18 ing collection.

19 (j) Minimum recycling, recovery and content rates. A description of  
20 how the producer implementing an individual extended producer responsi-  
21 bility program or producer responsibility organization intends to meet  
22 or exceed the minimum recycling rate, minimum recovery rate, and minimum  
23 post-consumer recycled content rates for packaging or paper products, by  
24 material type, as specified by the department in regulation.

25 (k) End-of-life management processes. A description of the process for  
26 end-of-life management, including recycling and disposal, for each  
27 component material, using environmentally sound management practices.

1 (l) A description of how the producer responsibility organization  
2 shall provide the option to purchase recycled materials from processors  
3 on behalf of producer members interested in obtaining recycled feedstock  
4 in order to achieve post-consumer recycled content objectives.

5 (m) A description of how the producer responsibility organization will  
6 work with producers to help reduce a producer's total amount of non-  
7 reusable packaging.

8 (n) Packaging and paper products reduction. A description of how a  
9 producer responsibility organization will work with producers to reduce

19 sibility organization is implemented, and annually thereafter, each  
20 producer implementing an individual extended producer responsibility  
21 program, or each producer responsibility organization, shall submit a  
22 report to the department that details the prior calendar year's program.

1 methods made available to consumers and an evaluation of the program's  
2 collection convenience;

3 (b) a detailed description of the amount of packaging and paper  
4 products sold, offered for sale, or distributed to consumers in the  
5 state on an annual basis, including a percentage of packaging and paper  
6 products sold, offered for sale, or distributed to consumers in the

17 product or product category will reduce the costs of waste management to  
18 local governments and taxpayers; or

19 (iv) an extended producer responsibility program for the potential  
20 product or product category will enhance energy conservation or mitigate  
21 climate change impacts; or

22 (v) an extended producer responsibility program for the potential  
23 product or product category will be beneficial for existing and new  
24 businesses and infrastructure to manage the products and lead to the  
25 development of new industries to utilize the recovered materials; or

26 (vi) there exists public demand for an extended producer responsibil-  
27 ity program for the potential product or product category; or

1 (vii) there is success in collecting and processing similar types of

10 PART SS

11 Section 1. Title 2 of article 37 of the environmental conservation law  
12 is REPEALED and a new title 2 is added to read as follows:

13 TITLE 2

14 TOXICS IN PACKAGING ACT

15 Section 37-0201. Legislative findings and intent.

16 37-0203. Short title and definitions.

17 37-0205. Prohibitions.

18 37-0207. Certificate of compliance.

19 37-0209. Violations.

20 37-0211. Regulations.

21 37-0213. Severability.

22 § 37-0201. Legislative findings and intent.

23 The legislature finds and declares that:

24 1. The management of solid waste can pose a wide range of hazards to  
25 public health and safety and to the environment; and

1 2. Packaging comprises a significant percentage of the overall solid  
2 waste stream; and

3 3. The presence of chemicals, such as heavy metals, in packaging is a  
4 part of the total concern in light of their likely presence in emissions  
5 or ash when packaging is incinerated, or in leachate when packaging is  
6 landfilled; and

7 4. Lead, mercury, cadmium, hexavalent chromium, PFAS, and phthalates,  
8 on the basis of available scientific and medical evidence, are of  
9 particular concern; and

10 5. It is desirable as a first step in reducing the toxicity of packag-  
11 ing waste to eliminate the addition of these chemicals to packaging; and

12 6. The intent of this title is to achieve this reduction in toxicity  
13 without impeding or discouraging the expanded use of post-consumer mate-  
14 rials in the production of packaging and its components.

15 § 37-0203. Short title and definitions.

16 1. This title shall be known as and may be cited as the "toxics in

4 age or packaging component, or whose brand name is affixed to such pack-  
5 age or packaging component. In the case of a package or packaging compo-

7 the importer or first domestic distributor of the package or packaging  
8 component if the person who currently manufactures or assembles the  
9 package or packaging component or whose brand name is affixed to such  
10 package or packaging component does not have a presence in the United  
11 States.

12 e. "Package" means any container produced domestically or interna-  
13 tionally that markets, protects, or allows for the handling of a product  
14 and shall include a unit package, an intermediate package, or a shipping  
15 container. "Package" shall also mean and include such unsealed recepta-  
16 cles as carrying cases, crates, cups, pails, tubs, rigid foil and other  
17 trays, wrappers, wrapping films, and bags.

19 package produced domestically or internationally, such as, but not  
20 limited to, any interior or exterior blocking, bracing, cushioning,  
21 weatherproofing, exterior strapping, coatings, closures, inks, dyes,  
22 pigments, adhesives, stabilizers, labels, or any other additives.

24 members of the class of fluorinated organic chemicals containing at  
25 least one fully fluorinated carbon atom.

3 two carbon chains located in the ortho position.

4 § 37-0205. Prohibitions.

23 § 37-0207. Certificate of compliance.

24 No person who distributes a package or packaging component, or any  
25 product that incorporates such package or packaging component, shall be  
26 held in violation of this title if they can show that they relied in  
27 good faith on the written assurance of the manufacturer or distributor  
28 of such package or packaging component that such a package or packaging

1 component met the requirements of this title. Such written assurance  
2 shall take the form of a certificate of compliance, in a form and manner  
3 prescribed by the department, stating that such a package or packaging  
4 component is in compliance with the requirements of this title. The  
5 certificate of compliance shall be signed by an authorized officer of

23 regulations as it shall deem necessary to implement the provisions of  
24 this title. The department is authorized to evaluate other chemicals to  
25 review for potential regulation under this title. The department may  
26 provide a report based upon that evaluation to the governor and legisla-  
27 ture which may contain recommendations to add other chemicals contained

1 in a package or packaging component to regulate in order to further  
2 reduce the toxicity of packaging waste.

3 § 37-0213. Severability.

4 If any clause, sentence, paragraph, section or part of this title  
5 shall be adjudged by any court of competent jurisdiction to be invalid,  
6 such judgment shall not affect, impair or invalidate the remainder ther-  
7 eof, but shall be confined in its operation to the clause, sentence,  
8 paragraph, section or part thereof directly involved in the controversy  
9 in which such judgment shall have been rendered.

10 § 2. Subdivisions 1 and 2 of section 72-1009 of the environmental  
11 conservation law, subdivision 1 as amended by chapter 60 of the laws of  
12 1993 and subdivision 2 as added by chapter 166 of the laws of 1991, are  
13 amended to read as follows:

14 1. The environmental regulatory account shall be credited with all  
15 moneys received from fees and fee interest collected; all other moneys  
16 collected by the department pursuant to title twenty-seven of article  
17 twenty-three of this chapter, except as identified under article six of  
18 the public officers law; all moneys collected or received by the depart-  
19 ment pursuant to title two of article thirty-seven of this chapter; and  
20 any other contributions or donations by the public to such account.

21 2. Moneys in the account, following appropriation by the legislature,  
22 shall be allocated upon the certification of approval for availability  
23 by the director of the budget for the administration and enforcement of  
24 title twenty-seven of article twenty-three and title two of article  
25 thirty-seven of this chapter, including but not limited to monitoring,  
26 surveillance, enforcement, training, research, administration and coop-  
27 eration with any federal, state or local agency.

28 § 3. This act shall take effect immediately.

## PART TT

2 Section 1. Short title. This act shall be known and may be cited as the  
3 "Suffolk County water quality restoration act".

4 § 2. Legislative intent. The county of Suffolk ("county"), with a  
5 population of one million five hundred thousand persons, has in excess  
6 of three hundred eighty thousand existing onsite systems, comprised  
7 mostly of cesspools and septic systems, with two hundred nine thousand  
8 of these onsite systems in environmentally sensitive areas which could  
9 benefit from nitrogen-reducing technologies. The United States Environ-  
10 mental Protection Agency recognizes Long Island as having a sole source  
11 aquifer system for its drinking water supply. Suffolk county has an  
12 imminent need to preserve this valuable water resource by reducing the  
13 amount of nitrogen discharged into the groundwater by onsite systems.  
14 The full water cycle is impacted by increasing quantities of nutrients,  
15 pathogens, pesticides, volatile organic contaminants and saltwater  
16 intrusion, as well as a number of emerging threats such as prescription  
17 drugs and sea level rise.

18 The Suffolk county subwatersheds wastewater plan ("SWP"), certified by  
19 the department of environmental conservation as a Nine Elements  
20 Watershed (9E) plan, has documented the devastating effects of high  
21 levels of nitrogen pollution, not only on the drinking water quality,  
22 but also on coastal ecosystems, dissolved oxygen, water clarity,  
23 eelgrass, wetlands, shellfish, coastal resilience and in triggering  
24 harmful algal blooms. The Suffolk county subwatersheds wastewater plan,  
25 or SWP, is a long-term plan to address the need for wastewater treatment  
26 infrastructure throughout the county comprehensively over a period of

1 fifty years. The SWP delineates the source and concentration of nitrogen  
2 loading in one hundred ninety-one subwatersheds throughout the county,  
3 and established nitrogen reduction goals for each watershed.

4 For many areas of the county, installing or connecting sewers is not a  
5 practical or cost-effective method of treating wastewater. For that  
6 reason, the SWP prescribes a hybrid approach that relies on sewerage  
7 where feasible, and the replacement of cesspools and septic systems with  
8 innovative/alternative onsite wastewater treatment systems. The consol-  
9 idation of any or all of the twenty-seven county sewer districts, as  
10 well as unsewered areas of the county, into a county-wide wastewater  
11 management district allows for the implementation of a much needed inte-  
12 grated long-term wastewater solution for the county through comprehen-  
13 sive planning and management, the establishment of a water quality  
14 restoration fund and county-wide district board of trustees to monitor  
15 progress and the allocation of resources consistent with the goals of  
16 the SWP.

17 The purpose of this act is to create a water quality restoration fund  
18 to finance projects for the protection, preservation, and rehabilitation  
19 of groundwater and surface waters as recommended by the SWP. This act  
20 would allow the funding of projects that will mitigate wastewater pollu-  
21 tants utilizing the best available technology consistent with the SWP.

22 A county-wide wastewater management district, supported by a dedicated  
23 and recurring revenue source, will provide an integrated and efficient  
24 approach to managing wastewater services across the county; allow the  
25 county to enhance and expand its incentive program to property owners to  
26 upgrade their wastewater treatment systems without risk of adverse  
27 personal income tax consequences; to manage, monitor and enforce nitro-  
28 gen reduction programs throughout the county; to complete additional

1 sewer extension projects; and provide an opportunity to consolidate and  
2 streamline the county's existing sewer district system and normalize the  
3 inequitable rate structure that has long existed.

4 § 3. The county law is amended by adding a new section 256-b to read  
5 as follows:

6 § 256-b. Suffolk county wastewater management district. 1. (a)  
7 Notwithstanding the provisions of any general, special or local law to  
8 the contrary, including this article, the county legislature of Suffolk  
9 county is hereby authorized to establish by resolution a Suffolk county  
10 wastewater management district, hereinafter referred to in this section  
11 as the "district", which shall include all powers of a sewer district  
12 and a wastewater disposal district as provided in section two hundred  
13 fifty of this article and as set forth in this subdivision, pursuant to  
14 the procedure contained in this section.

15 (b) In addition to the powers provided in section two hundred fifty of  
16 this article, the district shall have the power, as determined by the  
17 county legislature, to: (i) consolidate all of the original sewer  
18 districts within the county as well as unsewered areas of the county,  
19 under the jurisdiction of the district; (ii) establish one or more zones  
20 of assessment within the district based upon territorial boundaries, the  
21 method of wastewater collection, treatment and disposal, existing or  
22 proposed, or both, and make changes to such zones of assessments; (iii)  
23 acquire interests in real property which may be completed by the trans-  
24 fer of property of original sewer districts to the district, necessary  
25 for the installation and maintenance of district facilities; (iv) prior-  
26 itize district projects in accordance with the Suffolk county subwat-  
27 ershed wastewater plan (SWP) adopted by the county legislature, and any  
28 amendments thereto; (v) receive funds from the county or the water qual-

1 ity restoration fund, as established by subdivision twelve of this  
2 section, and distribute grant proceeds within the district in accordance  
3 with the goals established in the Suffolk county subwatershed wastewater  
4 plan; (vi) assume and pay any remaining indebtedness of each original  
5 sewer district; (vii) establish and provide for the collection of charg-  
6 es, rates, taxes or assessments to provide for the costs of operation,  
7 expenses, interest payments, maintenance and improvements of the  
8 district, including but not limited to: (A) special assessment as  
9 defined in subdivision fifteen of section one hundred two of the real  
10 property tax law; (B) special ad valorem levy as defined in subdivision  
11 fourteen of section one hundred two of the real property tax law; (C)  
12 sewer rent as provided under article fourteen-F of the general municipal  
13 law; and (viii) distribute grant proceeds within the district in accord-  
14 ance with the goals established in the SWP.

15 2. Boundaries. The boundaries of the district shall coincide with the  
16 territorial boundaries of the county of Suffolk.

17 3. County agency review and report. The county legislature shall  
18 direct the county agency, appointed or established pursuant to section  
19 two hundred fifty-one of this article, to review and report thereon to  
20 the county legislature on the creation of the district and the merger  
21 therewith of any or all existing county sewer districts in accordance  
22 with this section and such other details as may be directed by the coun-  
23 ty legislature consistent with this article. When the agency has caused  
24 such report to be prepared, it shall transmit it to the county legisla-  
25 ture. Upon receipt of the report, the county legislature shall call a  
26 public hearing pursuant to subdivision five of this section to create a  
27 Suffolk county wastewater management district in accordance with this

1 section. Such report shall be filed in the office of the clerk of the  
2 legislature of Suffolk county.

3 4. Resolution. The county legislature of Suffolk county may adopt a  
4 resolution calling a public hearing upon the proposed creation of the  
5 district.

6 5. Notice. The clerk of the county legislature shall give notice of  
7 the hearing described in subdivision four of this section in such news-  
8 papers and within such time period as set forth in section two hundred  
9 fifty-four of this article. Such notice shall specify the time, date  
10 and location of such hearing and, in general terms, describe the  
11 proposed establishment of the district and the proposed basis of the  
12 future assessment of all costs of operation, maintenance and improve-  
13 ments of the district.

14 6. Hearing and resolution to establish. (a) The county legislature  
15 shall meet at the time, date and location specified in such notice and  
16 hear all persons interested in the subject matter thereof concerning the  
17 same. If the county legislature determines that it is in the public  
18 interest to establish the district as specified in such notice, the  
19 county legislature may adopt a resolution, subject to a mandatory refer-  
20 endum, establishing the district.

21 (b) The permission of the state comptroller shall not be required to  
22 establish a district created pursuant to this section.

23 7. Notice of adoption of resolution. Within ten days after the  
24 adoption by the county legislature of the resolution to establish the  
25 district described in subdivision six of this section, the county legis-  
26 lature shall give notice thereof, at the expense of the county, by the  
27 publication of a notice in such newspapers and within such time period  
28 as set forth in section one hundred of this chapter. Such notice shall

1 set forth the date of adoption of the resolution and contain an abstract  
2 of such resolution, describing, in general terms, the district, the  
3 basis for the future assessment of all costs of operation, maintenance  
4 and improvements, and that such resolution was adopted subject to a  
5 mandatory referendum.

6 8. Assessments, levys and charges. After the establishment of the  
7 district in accordance with this section, the county is hereby author-  
8 ized by resolution approved by majority vote of the total membership of  
9 the county legislature to assess, levy and collect upon each lot or  
10 parcel of land subject to taxation within the district: (a) special  
11 assessment as that term is defined in subdivision fifteen of section one  
12 hundred two of the real property tax law; (b) special ad valorem levy as  
13 that term is defined in subdivision fourteen of section one hundred two  
14 of the real property tax law; and (c) sewer rents as provided by article  
15 fourteen-F of the general municipal law. Such costs and expenses may  
16 include, but shall not be limited to, the amount of money required to  
17 pay the annual expenses of maintenance, operation, personnel services of  
18 the district and the sums sufficient to pay the annual installment of  
19 principal of, and interest on, obligations for improvements of the  
20 district. Such sums so levied shall be collected by the local tax  
21 collectors or receivers of taxes and assessments and shall be paid over  
22 to the chief fiscal officer of the county, in the same manner and at the  
23 same time as taxes levied for general county purposes. The chief fiscal  
24 officer shall keep a separate account of such moneys and they shall be  
25 used only for purposes set forth in this section, and in addition, all  
26 monies collected from each zone of assessment established or amended in  
27 accordance with this section shall be further segregated and shall not  
28 be commingled with monies of other zones of assessment except upon

1 approval by resolution of the county legislature upon recommendation of  
2 the district board of trustees established in accordance with the  
3 Suffolk county water quality restoration act.

4 8-a. Recording determination. The clerk of the county legislature  
5 shall within ten days after the effective date of the resolution creat-  
6 ing the district cause a certified copy to be recorded in the office of  
7 the clerk of the county and when so recorded such order shall be  
8 presumptive evidence of the regularity of the proceedings for the  
9 creation of the district and of all other action taken by the county  
10 legislature pursuant to this section. A certified copy shall also be  
11 filed in the office of the state department of audit and control in  
12 Albany, New York.

13 9. Other laws. All provisions of the real property tax law and the  
14 Suffolk county tax act, as the same may be amended from time to time,  
15 not inconsistent with the provisions of this article, relating to the  
16 assessing, levy and collection and enforcement of special assessments,  
17 ad valorem levies and sewer rents in the county shall apply and be of  
18 equal force and applicability to special assessments, ad valorem levies  
19 and sewer rents authorized pursuant to this section.

20 10. Towns and villages. This section shall not be construed as merging  
21 the sewer districts of towns and villages within the county of Suffolk  
22 into the district created by this section, however the merger of any  
23 town or village sewer district with the district shall be in accordance  
24 with section two hundred seventy-seven of this article.

25 11. Water quality restoration fee. (a) Notwithstanding any provision  
26 of law to the contrary, the county of Suffolk is authorized to establish  
27 a water quality restoration fund pursuant to subdivision twelve of this  
28 section, to be financed by the water quality restoration fee as provided

1 by this subdivision. Said fund shall be enacted by local law, subject  
2 to mandatory referendum, pursuant to section twenty-three of the munici-  
3 pal home rule law.

4 (b) For each residential dwelling unit, the fee shall be five dollars  
5 per month. For all other properties, the fee shall be five dollars per  
6 month for each "equivalent dwelling unit" (EDU). An EDU shall be defined  
7 as three hundred gallons of wastewater generated per day. The number of  
8 EDUs for each property shall be determined by the actual amount of  
9 wastewater generated per day. Where such amount of actual wastewater  
10 generated per day cannot be determined for a property, the county, by  
11 local law, shall establish a schedule of EDUs for each category of land  
12 use consistent with the Suffolk County Sanitary Code. The local law may  
13 provide for subcategories for each land use.

14 (c) Such fee shall be collected on all properties in the county of  
15 Suffolk except as provided herein. Water usage on public land shall be  
16 excluded from such fee. Land utilized as part of a farm operation: (i)  
17 located in an agricultural district; or (ii) benefitted by an agricul-  
18 tural assessment, pursuant to article twenty-five-AA of the agriculture  
19 and markets law; or (iii) subject to a government purchase of develop-  
20 ment rights program; or (iv) otherwise protected for agricultural  
21 purposes shall be exempt from the fee. For the purposes of this act  
22 "public land" shall mean any land exempt from real property taxation  
23 pursuant to title one of article four of the real property tax law. For  
24 the purposes of this section, "farm operation" shall have the same mean-  
25 ing as provided for in section three hundred one of the agriculture and  
26 markets law.

27 (d) The local law shall also provide for an exemption from the water  
28 restoration fee based upon substantial financial hardship.

1 (e) The county, by local law, shall determine the criteria for estab-  
2 lishing such substantial financial hardship. The county, by local law,  
3 shall determine the means and manner of collection for the fee author-  
4 ized pursuant to this section.

5 12. Water quality restoration fund. (a) Notwithstanding any provision  
6 of law to the contrary, the net collections from the fee imposed pursu-  
7 ant to subdivision eleven of this section shall be deposited in a  
8 special fund by the county of Suffolk, to be designated as the water  
9 quality restoration fund, to be created by said county therefor, sepa-  
10 rate and apart from any other funds and accounts of the county. In no  
11 event shall monies deposited in the fund be transferred to any other  
12 account. Deposits into the fund may include revenues of Suffolk county  
13 from whatever source and shall include, at a minimum, all net revenues  
14 from the water quality restoration fee imposed pursuant to subdivision  
15 eleven of this section. The fund shall also be authorized to accept  
16 gifts of funds. Interest accrued by monies deposited into the fund shall  
17 be credited to the fund. Nothing contained in this section shall be  
18 construed to prevent the financing in whole or in part, pursuant to the  
19 local finance law, of any project authorized pursuant to this section.  
20 Monies from the fund may be utilized to repay any indebtedness or obli-  
21 gations incurred pursuant to the local finance law consistent with  
22 effectuating the purposes of this section. Where Suffolk county finances  
23 a project, in whole, or in part, pursuant to the local finance law, the  
24 resolution authorizing such indebtedness shall be accompanied by a  
25 report from the county executive demonstrating how said indebtedness  
26 will be repaid by the fund. Said report shall include an estimate of  
27 projected revenues of the fund during the period of indebtedness. The  
28 report shall also provide an accounting of all other indebtedness

1 incurred against the fund to be repaid for the same period. The county  
2 legislature shall make findings by resolution that there will be suffi-  
3 cient revenue to repay such indebtedness in its entirety from the fund  
4 before authorizing such indebtedness. Monies in said fund may be appro-  
5 priated from or expended in any fiscal year to implement the powers set  
6 forth in this section and to repay any indebtedness or obligations  
7 incurred pursuant to the local finance law for the purposes authorized  
8 pursuant to this section.

9 (b) (i) For purposes of this section: "water quality improvement  
10 project" shall mean the planning, design, construction, acquisition,  
11 enlargement, extension, or alteration of a wastewater treatment facili-  
12 ty, including individual hookups, or an individual septic system,  
13 including an alternative wastewater treatment facility or an individual  
14 septic system with active treatment, to treat, neutralize, stabilize,  
15 eliminate or partially eliminate sewage or reduce pollutants, including  
16 permanent or pilot demonstration wastewater treatment projects, or  
17 equipment or furnishings thereof. Such projects shall have as their  
18 purpose the remediation of existing water quality to meet specific water  
19 quality standards consistent with the SWP. Projects consistent with or  
20 listed in the SWP that are part of a plan adopted by a local government  
21 resulting in a net nitrogen reduction shall be eligible for consider-  
22 ation by the district board of trustees, established in accordance with  
23 subdivision six of this section. Projects designed primarily to increase  
24 density shall not be included within this definition. Of the annual  
25 collections of the fund, seventy-five percent of the annual funds shall  
26 be used toward individual septic systems purposes, inclusive of: (A) the  
27 preparation of an annual SWP implementation action plan to protect,  
28 preserve, and rehabilitate groundwater, surface water, and drinking

1 water; (B) the construction of water quality improvement projects; (C)  
2 the establishment of a program for residents of the county of Suffolk  
3 for grants and low-interest loans as incentives to construct individual  
4 septic systems which qualify as water quality improvement projects; and  
5 (D) administration of the county wastewater management district not to  
6 exceed ten percent of the annual funds.

7 (ii) Other than for the payment of indebtedness or obligations  
8 incurred as set forth in paragraph (a) of this subdivision, and except  
9 for the preparation of the annual SWP implementation plan, itself, no  
10 monies may be expended until the annual SWP implementation plan has been  
11 prepared and approved as provided for in this section.

12 (c) (i) Within the local law establishing the water quality restora-  
13 tion fund, the county shall establish a district board of trustees of  
14 seventeen members to review and approve the action plan for submission  
15 to the county executive and county legislature. Such approval shall be  
16 in addition to all other approvals required by law. The board of trus-  
17 tees shall consist of: (A) a representative from the department of envi-  
18 ronmental conservation; (B) a representative from the East End supervi-  
19 sors and mayors association; (C) a representative of the Suffolk town  
20 supervisors association; (D) a representative of the Suffolk County  
21 Village Officials Association; (E) a town representative from the State  
22 Central Pine Barrens Joint Planning and Policy Commission to be desig-  
23 nated by the commission; (F) a municipal representative from the Peconic  
24 Estuary Partnership; (G) a municipal representative from the State South  
25 Shore Estuary Reserve; (H) a municipal representative from the Long  
26 Island Sound Estuary; (I) a representative of the Long Island Federation  
27 of Labor; (J) a representative of Building and Construction Trades Coun-  
28 cil of Nassau & Suffolk counties; (K) a representative from a regional

1 environmental organization; (L) the chair of the Suffolk county planning  
2 commission; (M) the county executive or designee; (N) the presiding  
3 officer of the county legislature or designee; (O) the minority leader  
4 of the county legislature or designee; (P) the county department of  
5 public works commissioner or designee; and (Q) the county department of  
6 health services commissioner or designee.

7 (ii) The powers and duties of the district board of trustees shall  
8 include auditing fiscal allocations as it relates to the goals of the  
9 Suffolk county subwatersheds wastewater plan, making prudent recommenda-  
10 tions for resource allocations for county-approved alternative wastewa-  
11 ter treatment technologies not contemplated in the Suffolk county  
12 subwatersheds wastewater plan and long-term progress monitoring of the  
13 implementation of the Suffolk county subwatersheds wastewater plan  
14 regarding achievements of nitrogen load reductions and ecological  
15 endpoints.

16 (d) Water quality restoration citizens advisory committee. Within the  
17 local law establishing the district board of trustees, the county is  
18 authorized to establish a water quality restoration citizens advisory  
19 committee ("advisory committee") to actively assist and advise the board  
20 of trustees in the preparation, adoption and implementation of the annu-  
21 al SWP implementation plan. The committee shall consist of not more  
22 than twenty-five members which shall include representatives of environ-  
23 mental groups, economic development and real estate interests, farmers,  
24 water suppliers, civic groups, planners, biologists, and water quality  
25 scientists and recreational interests. The members of the committee  
26 shall serve without compensation. The committee by a majority vote shall  
27 elect a chairperson. The advisory committee shall meet periodically with  
28 the board of trustees, make available working drafts of such plan and

1 other documents, and shall provide services to the district board of  
2 trustees, as are necessary and appropriate to carry out its functions  
3 under this section. The county by resolution of the county legislature,  
4 shall appoint the members of the advisory committee.

5 (e) Annual SWP implementation plan. The water quality restoration fund  
6 and district board of trustees shall prepare, review and approve and  
7 submit to the county executive the annual SWP implementation plan within  
8 one year of the effective date of this section, and in every year there-  
9 after in a like manner. The board of trustees shall conduct a public  
10 hearing on said plan before its adoption or subsequent amendment. Each  
11 year, said plan shall list every water quality restoration project which  
12 the county plans to undertake pursuant to the fund and shall state how  
13 such project would improve existing water quality. Funds may only be  
14 expended pursuant to this section for projects which have been included  
15 in said plan. Said plan shall be consistent with state, federal, county,  
16 and local government land use and wastewater management plans. After  
17 submission and approval by the county executive, such plan shall be  
18 submitted to the county legislature. Such plan shall not become effec-  
19 tive until approved by local law.

20 (f) Annual audit. The county shall annually commission an independent  
21 audit of the fund. The audit shall be conducted by an independent certi-  
22 fied public accountant or an independent public accountant. Said audit  
23 shall be performed by a certified public accountant or an independent  
24 public accountant other than the one that performs the general audit of  
25 the county's finances. Such audit shall be an examination of the fund  
26 and shall determine whether the fund has been administered consistent  
27 with the provisions of this section and all other applicable provisions  
28 of state law. Said audit shall be initiated within sixty days of the

1 close of the fiscal year of the county and shall be completed within one  
2 hundred twenty days of the close of the fiscal year. A copy of the  
3 audit shall be submitted annually to the state comptroller and the coun-  
4 ty comptroller. A copy of the audit shall be made available to the  
5 public within thirty days of its completion. A notice of the completion  
6 of the audit shall be published in the official newspaper of the county  
7 and shall also be posted on the internet website for the county. The  
8 cost of the audit may be a charge to the fund.

9 (g) Annual report. In addition to any other report required by this  
10 section, the water quality restoration fund and district board of trus-  
11 tees, through its chairperson, shall deliver annually, in oral and  
12 written form, a report to the county legislature. Such report shall  
13 be presented by May fifteenth of each year. The report shall describe in  
14 detail the projects undertaken, the monies expended, and the administra-  
15 tive activities of the water quality fund and district established in  
16 accordance with this section, during the prior year. At the conclusion  
17 of the report, the chairperson of the water quality restoration fund and  
18 district board of trustees shall be prepared to answer the questions of  
19 the county legislature with respect to the projects undertaken, the  
20 monies expended, and the administrative activities during the past year.

21 13. Amendment by mandatory referendum only. Where the provisions of  
22 this section have been adopted by local law subject to mandatory refer-  
23 endum, said local law may only be amended, modified, repealed, or  
24 altered by enactment of another local law subject to mandatory referen-  
25 dum under the municipal home rule law.

26 § 4. This act shall take effect immediately.

1 Section 1. Paragraph h of subdivision 1 of section 17-1909 of the  
2 environmental conservation law, as added by chapter 565 of the laws of  
3 1989, is amended to read as follows:

5 corporation, county or town improvement district, school district, Indi-

7 ration or public authority established pursuant to the laws of New York  
8 or any agency of New York state which is empowered to construct and  
9 operate an eligible project, or any two or more of the foregoing which  
10 are acting jointly in connection with an eligible project.

17 to read as follows:

18 2. Except as may be provided in regulations of the secretary pursuant  
19 to subdivision one of this section, every local government shall admin-  
20 ister and enforce the uniform fire prevention and building code and the  
21 state energy conservation construction code on and after the first day  
22 of January, nineteen hundred eighty-four, provided, however, that a  
23 local government may enact a local law prior to the first day of July in  
24 any year providing that it will not enforce such codes on and after the  
25 first day of [January] April next succeeding. In such event the county  
26 in which said local government is situated shall administer and enforce

1 such codes within such local government from and after the first day of  
2 [January] April next succeeding the effective date of such local law, in  
3 accordance with the provisions of paragraph b of subdivision five of  
4 this section unless the county shall have previously enacted a local law  
5 providing that it will not enforce such codes within that county. In  
6 such event the secretary in the place and stead of the local government  
7 shall, directly or by [contract] using the services of any contractors  
8 or other third-party providers as the secretary may deem to be  
9 qualified, administer and enforce the uniform code and the state energy  
10 conservation construction code within such local government on and after  
11 the first day of April next succeeding. A county that is responsible for  
12 administering and enforcing such codes within a local government pursu-  
13 ant to the foregoing provisions of this subdivision may enact a local  
14 law prior to the first day of October in any year providing that it will  
15 not enforce such codes within such local government on and after the  
16 first day of April next succeeding. In such event, the secretary, in the  
17 place and stead of such local government, shall, directly or by using  
18 the services of any contractors or other third-party providers as the  
19 secretary may deem to be qualified, administer and enforce such codes in  
20 such local government from and after the first day of April next  
21 succeeding. A local government that adopts a local law providing that it  
22 will not enforce such codes on and after the first day of April next  
23 succeeding shall promptly notify the county in which such local govern-  
24 ment is located and the secretary of the adoption of such local law. A  
25 county that adopts a local law providing that it will not enforce such  
26 codes on and after the first day of April next succeeding shall promptly  
27 notify each local government in which such county is administering and  
28 enforcing such codes and the secretary of the adoption of such local

1 law. A local government or a county may repeal a local law which  
2 provides that it will not enforce such codes and shall thereafter admin-  
3 ister and enforce such codes as provided above. Two or more local  
4 governments may provide for joint administration and enforcement of the  
5 uniform code, the state energy conservation construction code, or both,  
6 by agreement pursuant to article five-G of the general municipal law.  
7 Any local government may enter into agreement with the county in which  
8 such local government is situated to administer and enforce the uniform  
9 code, the state energy conservation construction code, or both, within  
10 such local government. Local governments or counties that administer  
11 and enforce the uniform code, the state energy conservation construction  
12 code, or both, may charge and collect fees to defray the costs of admin-  
13 istration and enforcement. Where the secretary is responsible for  
14 administration and enforcement of the uniform code and state energy  
15 conservation construction code within a local government pursuant to  
16 this subdivision or pursuant to paragraph e of subdivision four of this  
17 section, (a) the secretary shall administer and enforce the codes in  
18 accordance with the provisions of rules and regulations promulgated  
19 pursuant to subdivision one of this section; (b) any person or entity  
20 who knowingly violates any provision of such rules and regulations shall  
21 be punishable by a fine not to exceed one thousand dollars per day of  
22 violation, imprisonment not to exceed one year, or both, and (c) the  
23 secretary may charge and collect fees to defray the costs of adminis-  
24 tration and enforcement.

25 3. a. On and after the first day of July, nineteen hundred eighty-  
26 five, the secretary shall have power to investigate [and conduct hear-  
27 ings relative to] whether administration and enforcement of the uniform  
28 fire prevention and building code and the state energy conservation

1 construction code complies with the minimum standards promulgated pursu-  
2 ant to subdivision one of this section. In connection with any such  
3 investigation, the secretary shall have the power to issue subpoenas  
4 compelling the testimony of witnesses, the production of documents, or  
5 both, and the power, at the secretary's discretion, to conduct one or  
6 more hearings. At least ten days written notice of any such hearing  
7 shall be provided to the elective or appointive chief executive officer  
8 or, if there be none, the chairman of the legislative body of the local  
9 government or county whose administration and enforcement of the uniform  
10 code and state energy conservation construction code is at issue.

11 b. The elective or appointive chief executive officer or, if there be  
12 none, the chairman of the legislative body of a county may, with  
13 approval of a majority vote of the legislative body of such county,  
14 submit to the secretary a written notice requesting the secretary to  
15 authorize such county to investigate whether administration and enforce-  
16 ment of the uniform fire prevention and building code and the state  
17 energy conservation construction code by a local government located in  
18 such county complies with the minimum standards promulgated pursuant to  
19 subdivision one of this section. Upon receipt of such notice, the secre-  
20 tary may authorize such county to conduct such investigation and to  
21 provide a written report upon completion of such investigation to the  
22 secretary. In connection with any such investigation, the county shall  
23 have the power to issue subpoenas compelling the testimony of witnesses,  
24 the production of documents, or both, and the power, at the county's  
25 discretion, to conduct one or more hearings. At least ten days written  
26 notice of any such hearing shall be provided to the elective or appoin-  
27 tive chief executive officer or, if there be none, the chairman of the  
28 legislative body of the local government whose administration and

1 enforcement of the uniform code and state energy conservation  
2 construction code is at issue. Upon receipt of the county's report, the  
3 secretary may issue a determination based on such report, conduct  
4 further investigations, or take such other action as the secretary deems  
5 appropriate, and the secretary shall notify the county and the local  
6 government of the actions to be taken by the secretary. Nothing in this  
7 paragraph shall limit or impair the secretary's power to investigate,  
8 issue subpoenas, and conduct hearings as provided in paragraph a of this  
9 subdivision. Nor shall the power of the secretary to investigate, issue  
10 subpoenas, and conduct hearings as provided in paragraph a of this  
11 subdivision be diminished or otherwise affected by reason of a county  
12 submitting, or not submitting, a notice pursuant to this paragraph.

13 4. If the secretary determines that a local government has failed to  
14 administer and enforce the uniform fire prevention and building code  
15 and/or the state energy conservation construction code in accordance  
16 with the minimum standards promulgated pursuant to subdivision one of  
17 this section, the secretary shall take any of the following actions,  
18 either individually or in combination in any sequence:

19 a. The secretary may issue an order compelling compliance by such  
20 local government with the minimum standards [for administration and  
21 enforcement of the uniform code] promulgated pursuant to subdivision one  
22 of this section.

23 b. The secretary may appoint and remove any person deemed qualified by  
24 the secretary as an oversight officer, who shall have the power and  
25 authority to do any or all of the following, at the discretion of the  
26 oversight officer and at the expense of such local government:

1 (i) observe and report on compliance by such local government with the  
2 minimum standards promulgated pursuant to subdivision one of this  
3 section;

4 (ii) direct all or any part of the code enforcement activities of the  
5 local government's code enforcement personnel;

6 (iii) hire, contract for, or otherwise obtain the services of quali-  
7 fied third parties to review building permit applications and plans and  
8 specifications submitted therewith, conduct construction inspections and  
9 periodic fire safety and property maintenance inspections, and perform  
10 other code enforcement activities within the local government;

11 (iv) issue notices of violation, appearance tickets, orders to remedy,  
12 and other instruments related to code violations within the local  
13 government, or direct the local government to do so, and refer such  
14 violations to counsel for the local government or the district attorney  
15 for the county in which the local government is located for appropriate  
16 prosecution; and

17 (v) take any other steps deemed by the oversight officer to be neces-  
18 sary or appropriate to ensure that the uniform code and state energy  
19 conservation construction code are administered and enforced within such  
20 local government in a due and proper manner and in compliance with the  
21 minimum standards promulgated pursuant to subdivision one of this  
22 section. Any person who is appointed as an oversight officer pursuant  
23 to this paragraph shall be deemed to be a state officer under section  
24 two of the public officers law.

25 c. The secretary may ask the attorney general to institute in the name  
26 of the secretary an action or proceeding seeking appropriate legal or  
27 equitable relief to require such local government to administer and  
28 enforce the uniform code and state energy conservation construction code

1 in a due and proper manner and in compliance with the minimum standards  
2 promulgated pursuant to subdivision one of this section, including but  
3 not limited to requiring such local government to take specific remedial  
4 actions, such as establishing and enforcing an effective code enforce-  
5 ment program, conducting fire safety and property maintenance  
6 inspections, increasing the frequency of fire safety and property main-  
7 tenance inspections, and taking enforcement actions that are timely and  
8 responsive to circumstances associated with the property in question  
9 when violations are identified.

10 [c. the] d. The secretary may designate the county in which such local  
11 government is located, or any other local government that adjoins or is  
12 reasonably proximate to such local government, to administer and enforce  
13 the uniform code and state energy conservation construction code in such  
14 local government. In the case of such designation, the provisions of  
15 subdivision five of this section shall apply.

16 [d.] e. The secretary may, in the place and stead of the local govern-  
17 ment, directly or by using the services of any contractors or other  
18 third-party providers as the secretary may deem to be qualified, admin-  
19 ister and enforce the uniform code and state energy conservation  
20 construction code in such local government in accordance with the mini-  
21 mum standards promulgated pursuant to subdivision one of this section.  
22 In such event, the provisions of subdivision five of this section shall  
23 apply.

24 f. The secretary may designate the county in which such local govern-  
25 ment is located, any other local government that adjoins or is reason-  
26 ably proximate to such local government, or the department of state to  
27 perform within such local government such types and classes of code  
28 enforcement activities, such as permit application review and approval,

1 construction inspections, and fire safety and property maintenance  
2 inspections, as the secretary may specify. In the case of such desig-  
3 nation, the provisions of subdivision seven of this section shall apply.

4 5. Where the secretary has designated a county or adjoining or reason-  
5 ably proximate local government to administer and enforce the uniform  
6 fire prevention and building code and state energy conservation  
7 construction code within a local government pursuant to paragraph d of  
8 subdivision four of this section, or has assumed authority for adminis-

23 standards from and after the date of such designation or assumption.

11 will provide such administration and enforcement in compliance with the  
12 minimum standards promulgated pursuant to subdivision one of this  
13 section.

14 d. The provisions of subdivisions three and four of this section shall

19 recreation and historic preservation to be a contributing building to an  
20 historic district that is listed or eligible for listing on the state or  
21 national registers of historic places, or (d) otherwise defined as an  
22 historic building in regulations adopted by the state fire prevention  
23 and building code council] certified as a contributing resource within a  
24 national register-listed, state register-listed, or locally designated  
25 historic district.

26 11. "Life-cycle cost." An estimate of the total cost of acquisition,  
27 operation, maintenance, and construction of any system within or related  
28 to a structure over the design life of the structure. "Life-cycle cost"

1 includes, but is not limited to, the cost of fuel, materials, machinery,  
2 ancillary devices, labor, service, replacement, and repairs.

3 § 4. Paragraph (b) of subdivision 1 and subdivisions 2 and 3 of  
4 section 11-103 of the energy law, paragraph (b) of subdivision 1 as  
5 added and subdivision 2 as amended by chapter 560 of the laws of 2010  
6 and subdivision 3 as amended by chapter 292 of the laws of 1998, are  
7 amended to read as follows:

8 (b) The code shall apply to the construction of any new building. The  
9 code shall also apply to an addition to, and alteration of, any existing  
10 building or building system; provided, however, that the code shall not  
11 be interpreted to require any unaltered portion of the existing building  
12 or building system to comply with the code. The code shall [not apply to  
13 the following provided that the energy use of the building is not  
14 increased:

15 (1) storm windows installed over existing fenestration;

16 (2) glass only replacements in an existing sash and frame;

17 (3) existing ceiling, wall or floor cavities exposed during  
18 construction provided that these cavities are filled with insulation;

19 (4) construction where the existing roof, wall or floor cavity is not  
20 exposed;

21 (5) reroofing for roofs where neither the sheathing nor the insulation  
22 is exposed; roofs without insulation in the cavity and where the sheath-  
23 ing or insulation is exposed during reroofing shall be insulated either  
24 above or below the sheathing;

25 (6) replacement of existing doors that separate conditioned space from  
26 the exterior shall not require the installation of a vestibule or  
27 revolving door, provided, however, that an existing vestibule that sepa-  
28 rates such conditioned space from the exterior shall not be removed;

1 (7) alterations that replace less than fifty percent of the luminaires  
2 in a space, provided that such alterations do not increase the installed  
3 interior lighting power;

4 (8) alterations that replace only the bulb and ballast within the  
5 existing luminaires in a space provided that the alteration does not  
6 increase the installed interior lighting power; and

7 (9) any other exception] be subject to such other exceptions as may be  
8 adopted by the state fire prevention and building code council provided  
9 that such [exception will] exceptions shall not prevent the attainment  
10 of the compliance goals set forth in section 410(2)(c) of the American  
11 Recovery and Reinvestment Act of 2009.

12 2. (a) The state fire prevention and building code council is author-  
13 ized, from time to time as it deems appropriate and consistent with the  
14 purposes of this article, to review and amend the code, or adopt a new  
15 code, through rules and regulations provided that the code remains cost  
16 effective with respect to building construction in the state. In deter-  
17 mining whether the code remains cost effective, the code council shall  
18 consider [whether the cost of materials and their installation to meet  
19 its standards would be equal to or less than the present value of energy  
20 savings that could be expected over a ten year period in the building in  
21 which such materials are installed] (i) whether complying with the code  
22 would reduce or maintain overall life-cycle costs under a life-cycle  
23 cost analysis performed under methodology as established by the New York  
24 state energy research and development authority from time to time, and  
25 (ii) secondary or societal effects, such as reductions in greenhouse gas  
26 emissions. The methodology for assessing cost-effectiveness, including  
27 secondary or societal effects, shall be developed through an open and  
28 transparent public process. For residential buildings, the code shall

1 meet or exceed the then most recently published International Energy  
2 Conservation Code, or achieve equivalent or greater energy savings; and  
3 for commercial buildings, the code shall meet or exceed the then most  
4 recently published ASHRAE [90.1-2007] 90.1, or achieve equivalent or  
5 greater energy savings.

6 (b) When adopting the first amended version of the code next following  
7 the effective date of the chapter of the laws of two thousand twenty-two  
8 that added this paragraph, and any subsequent codes, the state fire  
9 prevention and building code council shall use its best efforts to adopt  
10 provisions for residential buildings that achieve energy savings greater  
11 than energy savings achieved by the then most recently published Inter-  
12 national Energy Conservation Code and to meet the goals of the New York  
13 state climate leadership and community protection act pursuant to chap-  
14 ter one hundred six of the laws of two thousand nineteen and to adopt  
15 provisions for commercial buildings that achieve energy savings greater  
16 than energy savings achieved by the then most recently published ASHRAE  
17 90.1 and to meet the goals of the New York state climate leadership and  
18 community protection act pursuant to chapter one hundred six of the laws  
19 of two thousand nineteen, both at levels recommended by the New York  
20 state energy research and development authority, provided that the state  
21 fire prevention and building code council determines that such advanced  
22 energy savings can be achieved while still meeting the cost effective-  
23 ness considerations contemplated by this subdivision.

24 3. Notwithstanding any other provision of law, the state fire  
25 prevention and building code council in accordance with the mandate  
26 under this article shall have exclusive authority among state agencies  
27 to promulgate a construction code incorporating energy conservation  
28 features and clean energy features, including but not limited to green-

1 house gas reduction. Any other code, rule or regulation heretofore  
2 promulgated or enacted by any other state agency, incorporating specific  
3 energy conservation and clean energy requirements applicable to the  
4 construction of any building, shall be superseded by the code promulgat-  
5 ed pursuant to this section. The New York state energy research and  
6 development authority shall provide meaningful opportunities for public  
7 comment from all segments of the population that will be impacted by  
8 the promulgated codes, rules, or regulations, including persons living  
9 in disadvantaged communities as identified by the climate justice work-  
10 ing group established under section 75-0111 of the environmental conser-  
11 vation law.

12 § 5. Subdivision 5 of section 11-104 of the energy law, as amended by  
13 chapter 560 of the laws of 2010, is amended and a new subdivision 6 is  
14 added to read as follows:

15 5. The [code shall exempt from such uniform standards and requirements  
16 any historic building as defined in section 11-102 of this article]  
17 state fire prevention and building code council, in consultation with  
18 the commissioner of the department of parks, recreation, and historic  
19 preservation, is authorized to provide exemptions to such uniform stand-  
20 ards and requirements for historic buildings as defined in section  
21 11-102 of this article, to the extent that the uniform standards and  
22 requirements would threaten, degrade, or destroy the historic form,  
23 fabric, or function of such historic buildings.

24 6. To the fullest extent feasible, the code shall require new  
25 construction statewide to have zero onsite greenhouse gas emissions no  
26 later than the year two thousand twenty-seven to help achieve the  
27 state's clean energy and climate agenda, including but not limited to  
28 greenhouse gas reduction, set forth within chapter one hundred six of

1 the laws of two thousand nineteen, also known as the New York state  
2 climate leadership and community protection act, and as further identi-  
3 fied by the New York state climate action council established pursuant  
4 to section 75-0103 of the environmental conservation law.
