(b) after using the special consultative procedure set out in section 83 of the Local Government Act 2002; and

(c) in accordance with subsection (4).

(3) Where a charge fixed in accordance with subsection (1) is, in any particular case, inadequate to enable a local authority to recover its actual and reasonable costs in respect of the matter concerned, the local authority may require the person who is

(3A) A local authority must, upon request by any person liable to pay a charge under this section, provide an estimate of any additional charge likely to be imposed under subsection (3).

(4) When fixing charges referred to in this section, a local authority shall have regard to the following criteria:

   (b) a particular person or persons should only be required to pay a charge—
      (i) to the extent that the benefit of the local authority’s actions to which the charge relates is obtained by those persons as distinct from the community of the local authority as a whole; or
      (ii) where the need for the local authority’s actions to which the charge relates is occasioned by the actions of those persons; or
      (iii) in a case where the charge is in respect of the local authority’s monitoring functions under section 35(2)(a) (which relates to monitoring the state of the whole or part of the environment), to the extent that the monitoring relates to the likely effects on the environment of those persons’ activities, or to the extent that the likely benefit to those persons of the monitoring exceeds the likely benefit of the monitoring to the community of the local authority as a whole,—
   and the local authority may fix different charges for different costs it incurs in the performance of its various functions, powers, and duties under this Act—
   (c) in relation to different areas or different classes of applicant, consent holder, requiring authority, or heritage protection authority; or
   (d) where any activity undertaken by the persons liable to pay any charge reduces the cost to the local authority of carrying out any of its functions, powers, and duties.
(5) A local authority may, in any particular case and in its absolute discretion, remit the whole or any part of any charge of a kind referred to in this section which would otherwise be payable.

(6) Sections 357B to 358 (which deal with rights of objection and appeal against certain decisions) shall apply in respect of the requirement by a local authority to pay an additional charge under subsection (3).

(7) Where a charge of a kind referred to in subsection (1) is payable to a local authority, the local authority need not perform the action to which the charge relates until the charge has been paid to it in full.

(8) However, subsection (7) does not apply to a charge to which subsection (1)(ab)(ii), (ad)(ii), or (cb)(iv) applies (relating to independent hearings commissioners requested by submitters or reviews required by a court order).

(3) A local authority may adopt, in accordance with the special consultative procedure set out in section 83 of the Local Government Act 2002, a policy in respect of discounting administrative charges imposed under section 36 of this Act in the circumstances where—

(4) The policy must specify—
(a) the discount, or the method for determining the discount, that would be given for any application fees or charges paid or owing; and
(b) the procedure an applicant must follow to obtain the discount.

(5) If a discount in a policy adopted under subsection (3) is more generous than that provided for in the regulations the local authority may comply with the policy instead of the regulations.

(2) In determining an appropriate procedure for the purposes of subsection (1), the authority shall—

39C Effect of lack of accreditation

(1) This section applies when a local authority purports to give authority under section 39B to a person or group of persons, but does not in fact give it because the person, chairperson of the group, or members of the group are not accredited as required by the section.

(2) No decision made by the person or group of persons is invalid solely because the person, chairperson of the group, or members of the group were not accredited as required by section 39B.

40 Persons who may be heard at hearings

(1) At any hearing described in section 39, the applicant, and every person who has made a submission and stated that they wished to be heard at the hearing, may speak (either personally or through a representative) and call evidence.

(2) Notwithstanding subsection (1), the authority may, if it considers that there is likely to be excessive repetition, limit the circumstances in which parties having the same interest in a matter may speak or call evidence in support.

(3) If—
   (a) the applicant; or
   (b) any person who made a submission and stated they wished to be heard at any such hearing—

(7) In any other case, the authority must hold the hearing within 40 working days after the closing date for submissions.

41C Directions and requests before or at hearings

(1) Before or at the hearing, the authority may—

(a) direct the order of business at the hearing, including the order in which evidence and submissions are presented; or

(b) direct that evidence and submissions be—
...recorded; or
(ii) taken as read; or
(iii) limited to matters in dispute; or
(c) direct the applicant, when presenting evidence or a submission, to present it within a time limit; or

(2) Before or at the hearing, the authority may request a person who has made a submission to provide further information.

(3) At the hearing, the authority may request the applicant to provide further information.

(4) At the hearing, the authority may commission a consultant or any other person employed for the purpose to prepare a report on any matter on which the authority requires further information, if all the following apply:
   (a) the activity that is the subject of the hearing may, in the authority’s opinion, have a significant adverse environmental effect; and
   (b) the applicant is notified before the authority commissions the report; and
   (c) the applicant does not refuse to agree to the commissioning of the report.

(5) The authority must provide a copy of any further information requested under subsection (2), and received before the hearing, to the applicant and every person who made a submission.

   (b) any report that is commissioned under subsection (4).

(5B) The authority must—

(5C) However, the authority does not need to provide further information to the applicant or submitter who provided the information.

(6) At the hearing, the authority may direct a person presenting a submission not to present—
(a) the whole submission, if all of it is irrelevant or not in dispute; or
(b) any part of it that is irrelevant or not in dispute.

(7) Before or at the hearing, the authority may direct that the whole, or a part, of a submission be struck out if the authority considers—
(a) that the whole submission, or the part, is frivolous or vexatious; or
(b) that the whole submission, or the part, discloses no reasonable or relevant case; or
(c) that it would otherwise be an abuse of the hearing process to allow the whole submission, or the part, to be taken further.

(8) If the authority gives a direction under subsection (7), it must record its reasons for the direction.

(9) A person whose submission, or part of whose submission, is struck out has a right of objection under section 357.

(b) to avoid the disclosure of a trade secret or unreasonable prejudice to the commercial position of the person who supplied, or is the subject of, the information,—

and, in the circumstances of the particular case, the importance of avoiding such offence, disclosure, or prejudice outweighs the public interest in making that information available.

(2) A local authority may make an order for the purpose of subsection (1)—

(a) that the whole or part of any hearing or class of hearing at which the information is likely to be referred to, shall be held with the public excluded (which order shall, for the purposes of subsections (3) to (5) of section 48 of the Local Government Official Information and Meetings Act 1987, be deemed to be a resolution passed under that section):

(b) prohibiting or restricting the publication or communication of any information supplied to it, or obtained by it, in the course of any proceedings, whether or not the information may be material to any proposal, application, or requirement.

(3) An order made under subsection (2)(b) in relation to—

(a) any matter described in subsection (1)(a) may be expressed to have effect from the commencement of any proceedings to which it relates and for an indefinite period or until such date as the local authority considers appropriate in the circumstances:
(b) any matter described in subsection (1)(b) may be expressed to have effect from the commencement of any proceedings to which it relates but shall cease to have any effect at the conclusion of those proceedings—and upon the date that such order ceases to have effect, the provisions of the Local Government Official Information and Meetings Act 1987 shall apply accordingly in respect of any information that was the subject of any such order.

(4) Any party to any proceedings or class of proceedings before a local authority may apply to the Environment Court for an order under section 279(3)(a) cancelling or varying any order made by the local authority under this section.

(5) Where, on the application of any party to any proceedings or class of proceedings, a local authority has declined to make an order described in subsection (2), that party may apply to the Environment Court for an order under section 279(3)(b).

(a) information includes any document or evidence:
(b) local authority includes—

   (ii) a community board:
   (iii) a public body:
   (iv) a special tribunal:
   (v) a person given authority to conduct hearings under any of sections 33, 34, 34A, 117, and 202.

(2) Any report prepared under subsection (1) may be considered at any hearing conducted by the local authority.

(b) at least 5 working days before the hearing, if the authority does not give a direction under section 41B.

(4) If the report is in writing, the authority must—
(a) make the report available at its office to any person who made a submission and did not state a wish to be heard; and
(b) give written or electronic notice to those submitters that the report is available at the authority’s office.

(5) The local authority may waive compliance with—
(a) subsection (3) if it is satisfied that there is no material prejudice, or is not aware of any material prejudice, to any person who should have been provided with a copy of the report under that subsection; or
(b) subsection (4)(b) if it is satisfied that there is no material prejudice, or is not aware of any material prejudice, to
any person who should have been given notice of the report under that paragraph.

(3) If an activity has significant adverse effects on the environment, a national environmental standard must not, under subsections (1)(b) and (4),—
   (a) allow the activity, unless it states that a resource consent is required for the activity; or
   (b) state that the activity is a permitted activity.

(4) A national environmental standard that allows an activity—
   (a) may state that a resource consent is not required for the activity; or

(ii) require compliance with the rules in a plan or proposed plan as a term or condition.

(5) If a national environmental standard allows an activity and states that a resource consent is not required for the activity, or states that an activity is a permitted activity, the following provisions apply to plans and proposed plans:

(a) a plan or proposed plan may state that the activity is a permitted activity on the terms or conditions specified in the plan; and

(b) the terms or conditions specified in the plan may deal only with effects of the activity that are different from those dealt with in the terms or conditions specified in the standard; and

(2)  For the purposes of subsection (1),—
      (a)  a rule is more stringent than a standard if it prohibits or restricts an activity that the standard permits or authorises:

(3) A rule or resource consent may not be more lenient than a national environmental standard.

(4) For the purposes of subsection (3), a rule or resource consent is more lenient than a standard if it permits or authorises an activity that the standard prohibits or restricts.

(5) A land use consent or a subdivision consent granted before the date on which a national environmental standard is notified in the Gazette prevails over the standard.

(6) A coastal, water, or discharge permit granted before the date on which a national environmental standard is notified in the Gazette prevails over the standard until a review of the permit’s conditions under section 128(1)(ba) results in some or all of the standard prevailing over the permit.

(7) This subsection applies to a resource consent not covered by subsection (5) or (6). The consent prevails over a national environmental standard if the application giving rise to the consent was the subject of a decision on whether to notify it before the date on which the standard is notified in the Gazette. However, the consent does not prevail if the standard expressly provides otherwise.

(8) [Repealed]

(9) If a national environmental standard requires a resource consent to be obtained for an activity, sections 10, 10A, 10B, and 20A(2) apply to the activity as if the standard were a rule in a plan that had become operative.

43C Relationship between national environmental standards and water conservation orders

(2) A national environmental standard applying to water that is more stringent than a water conservation order prevails over the order.

(1) A designation that exists when a national environmental standard is made prevails over the standard until the earlier of the following:
   (a) the designation lapses;
   (b) the designation is altered under section 181 by the alteration of conditions in it to which the standard is relevant.

(2) If the conditions of a designation are altered as described in subsection (1)(b), the standard—
   (a) applies to the altered conditions; and
   (b) does not apply to the unaltered conditions.

(3) A national environmental standard prevails over a designation that requires an outline plan if, when the standard is made,—
   (a) the designation exists; and
   (b) no outline plan for the designation has completed the process described in section 176A.

(4) A national environmental standard that exists when a designation is made prevails over the designation.

(5) A use is not required to comply with a national environmental standard if—
   (a) the use was lawfully established by way of a designation that has lapsed; and

(2) For the purposes of subsection (1), a bylaw is more stringent than a standard if it prohibits or restricts an activity that the standard permits or authorises.

(3) A bylaw may not be more lenient than a national environmental standard.

(4) For the purposes of subsection (3), a bylaw is more lenient than a standard if it permits or authorises an activity that the standard prohibits or restricts.

   (ii) the Minister’s reasons for considering that the standard is consistent with the purpose of the Act; and
(b) to establish a process that—
   (i) the Minister considers gives the public and iwi authorities adequate time and opportunity to comment on the proposed subject matter of the standard; and
   (ii) requires a report and recommendation to be made to the Minister on those comments and the proposed subject matter of the standard; and
(c) to publicly notify the report and recommendation.

(3) The Minister need not follow the steps if the Minister is recommending the making of an amendment—
(a) that has no more than a minor effect; or
(b) that corrects errors or makes similar technical alterations.
44A  Local authority recognition of national environmental standards

(1) Subsections (3) to (5) apply if a local authority’s plan or proposed plan contains a rule that duplicates a provision in a national environmental standard.

(2) Subsections (3) to (5) apply if a local authority’s plan or proposed plan contains a rule that conflicts with a provision in a national environmental standard. A rule conflicts with a provision if—
   (a) both of the following apply:

       (ii) the standard does not expressly say that a rule may be more stringent than it; or
   (b) the rule is more lenient than the provision.

(3) If the duplication or conflict is dealt with in the national environmental standard in one of the ways described in section 43A(1)(e), the local authority must amend the plan or proposed plan to remove the duplication or conflict—

   (b) as soon as practicable after the date on which the standard comes into force.

(5) In every other case of duplication or conflict, the local authority must amend the plan or proposed plan to remove the duplication or conflict—
   (a) without using the process in Schedule 1; and
   (b) as soon as practicable after the date on which the standard comes into force.
(6) A local authority may amend a plan or proposed plan to include a reference to a national environmental standard—
   (a) without using the process in Schedule 1; and
   (b) after the date on which the standard comes into force.

(7) Every local authority and consent authority must observe national environmental standards.

(8) Every local authority and consent authority must enforce the observance of national environmental standards to the extent to which their powers enable them to do so.

(2) Where a regional council provides in a plan that certain waters are to be managed for any purpose for which the classes specified in Schedule 3 are not adequate or appropriate, the council may state in the plan new classes and standards about the quality of water in those waters.

(3) Subject to the need to allow for reasonable mixing of a discharged contaminant or water, a regional council shall not set standards in a plan which result, or may result, in a reduction of the quality of the water in any waters at the time of the public notification of the proposed plan unless it is consistent with the purpose of this Act to do so.
70  **Rules about discharges**

(1) Before a regional council includes in a regional plan a rule that allows as a permitted activity—
   (a) a discharge of a contaminant or water into water; or
   (b) a discharge of a contaminant onto or into land in circumstances which may result in that contaminant (or any other contaminant emanating as a result of natural processes from that contaminant) entering water,— the regional council shall be satisfied that none of the following effects are likely to arise in the receiving waters, after reasonable mixing, as a result of the discharge of the contaminant (either by itself or in combination with the same, similar, or other contaminants):
   (c) the production of conspicuous oil or grease films, scums or foams, or floatable or suspended materials:

   (a) the nature of the discharge and the receiving environment; and
   (b) other alternatives, including a rule requiring the observance of minimum standards of quality of the environment,— the inclusion of that rule in the plan is the most efficient and effective means of preventing or minimising those adverse effects on the environment.

*Rules relating to discharge of greenhouse gases*

70A Application to climate change of rules relating to discharge of greenhouse gases
Despite section 68(3), when making a rule to control the discharge into air of greenhouse gases under its functions under section 30(1)(d)(iv) or (f), a regional council must not have regard to the effects of such a discharge on climate change, except to the extent that the use and development of renewable energy enables a reduction in the discharge into air of greenhouse gases, either—
(a) in absolute terms; or
(b) relative to the use and development of non-renewable energy.

70B Implementation of national environmental standards
If a national environmental standard is made to control the effects on climate change of the discharge into air of greenhouse gases, a regional council may make rules that are necessary to implement the standard, provided the rules are no more or less restrictive than the standard.

(c) which local authority is responsible for observing, and enforcing the observance of, each provision of the document.

(9) A combined document prepared under this section—

(a) must be prepared in accordance with Schedule 1; and

(b) when approved by a local authority is deemed, for the purposes of this Act, to be a plan or regional policy statement separately prepared and approved by that authority for its region or district, as the case may be.

(10) Subsection (9)(b) applies whether or not the combined document is approved by any of the other local authorities concerned.

(11) Clause 30 of Schedule 7 of the Local Government Act 2002 applies to the appointment and conduct of any joint committee set up for the purposes of preparing, implementing, or administering a combined document under this section.

81 Boundary adjustments

(1) Where the boundaries of any region or district are altered, and any area comes within the jurisdiction of a different local authority,—

(a) the plan or proposed plan that applied to the area before the alteration of the boundaries shall continue to apply to that area and shall, in so far as it applies to the area, be deemed to be part of the plan or proposed plan of the different local authority:

(b) any activity that may, before the alteration of the boundaries, have been undertaken under section 19 may continue to be undertaken as if the alteration of the boundaries had not taken place.

(2) Where the boundaries of any district are altered so as to include within that district any area not previously within the boundaries of any other district, no person may use that land
unless expressly allowed by a resource consent, until a district plan provides otherwise.

(3) A territorial authority shall, as soon as practicable but within 2 years, make such changes to its district plans as it considers necessary to cover any area that comes within its jurisdiction, and, after the changes are made, this section shall cease to apply.

82 Disputes

(1) Subsection (2) applies if there is a dispute about—

(a) whether there is an inconsistency between a water conservation order and a regional policy statement or a plan; or

(b) whether there is an inconsistency between a regional policy statement or a regional plan and a district plan (including any rules of a plan) on a matter of regional significance; or

(c) whether a regional policy statement or a plan gives effect to a national policy statement or New Zealand coastal policy statement.

(2) A Minister or local authority responsible for a relevant national policy statement, New Zealand coastal policy statement, policy statement, plan, or order may refer a dispute to the Environment Court for a decision resolving the matter.

(3) If a dispute about whether there is an inconsistency described in subsection (1)(a) or (b) is referred to the court, and the court considers that there is an inconsistency, the court must order the authority responsible for the policy statement or plan to remove the inconsistency by initiating a change to the policy statement or plan using the process in Schedule 1.

(4) If a dispute about whether a regional policy statement or a plan gives effect to a national policy statement or New Zealand coastal policy statement is referred to the court, and the court considers that the policy statement or plan does not give effect
to the other policy statement, the court must order the authority responsible for the policy statement or plan to amend it in accordance with section 55.

(5) However, the court does not need to make an order under subsection (3) or (4) if it considers that the inconsistency, or failure to give effect to the other policy statement, is of minor significance that does not affect the general intent and purpose of the policy statement, plan, or water conservation order concerned.

(6) To avoid doubt, giving effect to a policy statement includes giving effect to it by complying with a direction described in section 55(2).

Section 82: substituted, on 1 August 2003, by section 36 of the Resource Management Amendment Act 2003 (2003 No 23).

82A Dispute relating to review under section 79A

(1) This section applies if there is a dispute between a local authority and the board of a foreshore and seabed reserve as to whether a policy statement or plan reviewed under section 79A(2) should be changed in order to recognise and provide for the management plan for the reserve.

(2) The board may refer a dispute to the Environment Court for a decision resolving the matter.

(3) If, after considering the matter referred to it under subsection (2), the Environment Court considers that there should be a change to the policy statement or plan to recognise and provide for the relevant management plan for the foreshore and seabed reserve,—

(a) the Environment Court must order the regional council responsible for the policy statement or plan to initiate a change to that policy statement or plan in the manner set out in Schedule 1; or
(b) if the Environment Court considers that the dispute relates to a matter of minor significance that does not affect the general intent and purpose of the policy statement or plan, the Environment Court may allow that policy statement or plan to remain unchanged.

83 Procedural requirements deemed to be observed
A policy statement or plan that is held out by a local authority as being operative shall be deemed to have been prepared and approved in accordance with Schedule 1 and shall not be challenged except by an application for an enforcement order under section 316(3).

84 Local authorities to observe their own policy statements and plans
(1) While a policy statement or a plan is operative, the regional council or territorial authority concerned, and every consent authority, shall observe and, to the extent of its authority, enforce the observance of the policy statement or plan.

(2) No purported grant of a resource consent, and no waiver or sufferance or departure from a policy statement or plan, whether written or otherwise, shall, unless authorised by this Act, have effect in so far as it is contrary to subsection (1).

85 Compensation not payable in respect of controls on land
(1) An interest in land shall be deemed not to be taken or injuriously affected by reason of any provision in a plan unless otherwise provided for in this Act.

(2) Notwithstanding subsection (1), any person having an interest in land to which any provision or proposed provision of a plan or proposed plan applies, and who considers that the provision or proposed provision would render that interest in land incapable of reasonable use, may challenge that provision or proposed provision on those grounds—
(a) in a submission made under Part 1 of Schedule 1 in respect of a proposed plan or change to a plan; or
(b) in an application to change a plan made under clause 21 of Schedule 1.

(3) Where, having regard to Part 3 (including the effect of section 9(3)) and the effect of subsection (1), the Environment Court determines that a provision or proposed provision of a plan or a proposed plan renders any land incapable of reasonable use, and places an unfair and unreasonable burden on any person having an interest in the land, the court, on application by any such person to change a plan made under clause 21 of Schedule 1, may—

(a) in the case of a plan or proposed plan (other than a regional coastal plan), direct the local authority to modify, delete, or replace the provision; and

(b) in the case of a regional coastal plan, report its findings to the applicant, the regional council concerned, and the Minister of Conservation, which report may include a direction to the regional council to modify, delete, or replace the provision.

(4) Any direction given or report made under subsection (3) shall have effect under this Act as if it were made or given under clause 15 of Schedule 1.

(5) In subsections (2) and (3), a provision of a plan or proposed plan does not include a designation or a heritage order or a requirement for a designation or heritage order.

(6) In subsections (2) and (3), the term reasonable use, in relation to any land, includes the use or potential use of the land for any activity whose actual or potential effects on any aspect of the environment or on any person other than the applicant would not be significant.

(7) Nothing in subsection (3) limits the powers of the Environment Court under clause 15 of Schedule 1 on an appeal under clause 14.

**Plan must not allow activity that prevents recognised customary activities**

**85A Plan or proposed plan must not include certain rules**

A plan or proposed plan must not include a rule that describes an activity as a permitted activity if that activity will, or is likely to, have a significant adverse effect on a recognised customary activity carried out under section 17A(2).

**85B Process to apply if plan or proposed plan does not comply with section 85A**

1) If the holder of a customary rights order considers that a rule in a plan or proposed plan does not comply with section 85A, the holder may—

(a) make a submission to the local authority concerned under clause 6 of Schedule 1; or

(b) request a change under clause 21 of Schedule 1; or

(c) apply to the Environment Court in accordance with section 293A(3) for a change to a rule in the plan or proposed plan.

2) A local authority or the Environment Court, as the case may be, in determining whether or not a rule in a plan or proposed plan complies with section 85A, must consider the following matters:

(a) the effects of the proposed activity on the recognised customary activity; and
(b) the area that the proposed activity would have in common with the recognised customary activity; and
(c) the degree to which the proposed activity must be carried out to the exclusion of other activities; and
(d) the degree to which the recognised customary activity must be carried out to the exclusion of other activities; and
(e) whether the recognised customary activity can be exercised only in a particular area.

86 Power to acquire land

(1) In addition to any power it may have to acquire land for any public work which it is authorised to undertake, a regional council or territorial authority may, while its plan is operative, acquire by agreement under the Public Works Act 1981 any land (including any interest in land) in its region or district, if, in accordance with the plan, the regional council or territorial authority considers it necessary or expedient to do so for any of the following purposes:
   (a) terminating or preventing any non-complying or prohibited activity in relation to that land;
   (b) facilitating activity in relation to that land that is in accordance with the objectives and policies of the plan.

(2) Except as provided in section 185 and section 198, nothing in any plan shall impose on any regional council or territorial authority any obligation to acquire any land.

(3) Every person having any interest in land taken for any purpose authorised by subsection (1) shall be entitled to all compensation which that person would be entitled to if the land had been acquired for a public work under the Public Works Act 1981.

Legal effect of rules

86A **Purpose of sections 86B to 86G**

(1) The purpose of sections 86B to 86G is to specify when a rule in a proposed plan or change described in section 86B(6) has legal effect.

(2) Except to the extent that subsection (1) applies, sections 86B to 86G do not limit or affect the weight that a consent authority gives to objectives, policies, and other issues, reasons, or methods in plans before the plan becomes operative.

86B **When rules in proposed plans and changes have legal effect**

(1) A rule in a proposed plan has legal effect only once a decision on submissions relating to the rule is made and publicly notified under clause 10(4) of Schedule 1, except if—

(a) subsection (3) applies; or

(b) the Environment Court, in accordance with section 86D, orders the rule to have legal effect from a different date (being the date specified in the court order); or

(c) the local authority concerned resolves that the rule has legal effect only once the proposed plan becomes operative in accordance with clause 20 of Schedule 1.

(2) However, subsection (1)(c) applies only if—

(a) the local authority makes the decision before publicly notifying the proposed plan under clause 5 of Schedule 1; and

(b) the public notification includes the decision; and

(c) the decision is not subsequently rescinded (in which case the rule has legal effect from a date determined in accordance with section 86C).

(3) A rule in a proposed plan has immediate legal effect if the rule—

(a) protects or relates to water, air, or soil (for soil conservation); or

(b) protects areas of significant indigenous vegetation; or

(c) protects areas of significant habitats of indigenous fauna; or

(d) protects historic heritage; or
(e) provides for or relates to an aquaculture management area.

(4) For the purposes of subsection (2)(c), a decision is rescinded if—
(a) the local authority publicly notifies that the decision is rescinded; and
(b) the public notice includes a statement of the decision to which it relates and the date on which the recision was made.

(5) For the purposes of subsection (3), immediate legal effect means legal effect on and from the date on which the proposed plan containing the rule is publicly notified under clause 5 of Schedule 1.

(6) A rule in a change to a plan proposed by a person under Part 2 of Schedule 1 that provides for or relates to an aquaculture management area and that has been accepted by the local authority under clause 25(2)(b) of Schedule 1 has legal effect on and from the date the change is publicly notified under clause 26(b) of that schedule.

Section 86B: inserted, on 1 October 2009, by section 68 of the Resource Management (Simplifying and Streamlining) Amendment Act 2009 (2009 No 31).

86C When rule has legal effect if decision to delay its effect is rescinded

(1) This section applies to a rule to which section 86B(1)(c) applies that is rescinded (within the meaning of subsection (4) of that section).

(2) The rule has legal effect from the later of—
(a) the day after the date on which the local authority concerned publicly notifies that the decision in relation to the rule is rescinded:
(b) the day that a decision on submissions relating to the rule is made and publicly notified under clause 10(4) of Schedule 1.

Section 86C: inserted, on 1 October 2009, by section 68 of the Resource Management (Simplifying and Streamlining) Amendment Act 2009 (2009 No 31).
86D Environment Court may order rule to have legal effect from date other than standard date

(1) In this section, rule means a rule—
   (a) in a proposed plan or change; and
   (b) that is not a rule of a type described in section 86B(3)(a) to (e) or (6).

(2) A local authority may apply before or after the proposed plan is publicly notified under clause 5 of Schedule 1 to the Environment Court for a rule to have legal effect from a date other than the date on which the decision on submissions relating to the rule is made and publicly notified under clause 10(4) of Schedule 1.

(3) If the court grants the application, the order must specify the date from which the rule is to have legal effect, being a date no earlier than the later of—
   (a) the date that the proposed plan is publicly notified; and
   (b) the date of the court order.

Section 86D: inserted, on 1 October 2009, by section 68 of the Resource Management (Simplifying and Streamlining) Amendment Act 2009 (2009 No 31).

86E Local authorities must identify rules having early or delayed legal effect

(1) A local authority must clearly identify any rule in a proposed plan that has legal effect from a date other than the date on which the decision on submissions relating to the rule is made and publicly notified under clause 10(4) of Schedule 1—
   (a) at the time the proposed plan is notified under clause 5 of the schedule; or
   (b) as soon as practicable after the date is determined, if the rule concerned is the subject of an application under section 86D and the application is not determined before the proposed plan is notified.

(2) A local authority must clearly identify any rule of a type described in section 86B(6) at the time the change containing the rule is publicly notified.

(3) The identification of a rule in a proposed plan or change under subsection (1) or (2)—
   (a) does not form part of the proposed plan or change; and
(b) may be removed, without any further authority than this subsection, by the local authority once the plan or change becomes operative in accordance with clause 20 of Schedule 1.

86F When rules in proposed plans must be treated as operative
A rule in a proposed plan must be treated as operative (and any previous rule as inoperative) if the time for making submissions or lodging appeals on the rule has expired and, in relation to the rule,—
(a) no submissions in opposition have been made or appeals have been lodged; or
(b) all submissions in opposition and appeals have been determined; or
(c) all submissions in opposition have been withdrawn and all appeals withdrawn or dismissed.

86G Rule that has not taken legal effect or become operative excluded from references to rule in this Act and regulations made under this Act
(1) A reference in this Act or in any regulations made under it to a rule in a proposed plan or a change does not include a reference to a rule in the proposed plan or change that—
(a) has not taken legal effect in accordance with section 86B; or
(b) has not become operative under section 86F.
(2) Subsection (1) applies subject to any express provision to the contrary in this Act.

Part 6
Resource consents

87AA This Part subject to Part 6A
This Part applies subject to Part 6A.
87 **Types of resource consents**
In this Act, the term *resource consent* means any of the following:

(a) a consent to do something that otherwise would contravene section 9 or section 13 (in this Act called a *land use consent*):

(b) a consent to do something that otherwise would contravene section 11 (in this Act called a *subdivision consent*):

(c) a consent to do something in a coastal marine area that otherwise would contravene any of sections 12, 14, 15, 15A, and 15B (in this Act called a *coastal permit*):

(d) a consent to do something (other than in a coastal marine area) that otherwise would contravene section 14 (in this Act called a *water permit*):

(e) a consent to do something (other than in a coastal marine area) that otherwise would contravene section 15 (in this Act called a *discharge permit*).

87A **Classes of activities**

(1) If an activity is described in this Act, regulations (including any national environmental standard), a plan, or a proposed plan as a permitted activity, a resource consent is not required for the activity if it complies with the requirements, conditions, and permissions, if any, specified in the Act, regulations, plan, or proposed plan.

(2) If an activity is described in this Act, regulations (including any national environmental standard), a plan, or a proposed plan as a controlled activity, a resource consent is required for the activity and—

(a) the consent authority must grant a resource consent (except if section 106 applies); and
(b) the consent authority’s power to impose conditions on
the resource consent is restricted to the matters over
which control is reserved (whether in its plan or pro-
posed plan, a national environmental standard, or other-
wise); and

(c) the activity must comply with the requirements, condi-
tions, and permissions, if any, specified in the Act, regu-
lations, plan, or proposed plan.

(3) If an activity is described in this Act, regulations (including
any national environmental standard), a plan, or a proposed
plan as a restricted discretionary activity, a resource consent is
required for the activity and—

(a) the consent authority’s power to decline a consent, or
to grant a consent and to impose conditions on the con-
sent, is restricted to the matters over which discretion
is restricted (whether in its plan or proposed plan, a na-
tional environmental standard, or otherwise); and

(b) if granted, the activity must comply with the require-
ments, conditions, and permissions, if any, specified in
the Act, regulations, plan, or proposed plan.

(4) If an activity is described in this Act, regulations (including
any national environmental standard), a plan, or a proposed
plan as a discretionary activity, a resource consent is required
for the activity and—

(a) the consent authority may decline the consent or grant
the consent with or without conditions; and

(b) if granted, the activity must comply with the require-
ments, conditions, and permissions, if any, specified in
the Act, regulations, plan, or proposed plan.

(5) If an activity is described in this Act, regulations (including a
national environmental standard), a plan, or a proposed plan
as a non-complying activity, a resource consent is required for
the activity and the consent authority may—

(a) decline the consent; or

(b) grant the consent, with or without conditions, but only
if the consent authority is satisfied that the requirements
of section 104D are met and the activity must comply
with the requirements, conditions, and permissions, if
any, specified in the Act, regulations, plan, or proposed plan.

(6) If an activity is described in this Act, regulations (including a national environmental standard), a plan, or a proposed plan as a prohibited activity,—

(a) no application for a resource consent may be made for the activity; and

(b) the consent authority must not grant a consent for it.

87B Certain activities to be treated as discretionary activities or prohibited activities

(1) An application for a resource consent for an activity must, with the necessary modifications, be treated as an application for a resource consent for a discretionary activity if—

(a) Part 3 requires a resource consent to be obtained for the activity and there is no plan or proposed plan, or no relevant rule in a plan or proposed plan; or

(b) a plan or proposed plan requires a resource consent to be obtained for the activity, but does not classify the activity as controlled, restricted discretionary, discretionary, or non-complying under section 77A; or

(c) a rule in a proposed plan describes the activity as a prohibited activity and the rule has not become operative.

(2) Prospecting, exploring, or mining for Crown owned minerals in the internal waters (as defined in section 4 of the Territorial Sea, Contiguous Zone, and Exclusive Economic Zone Act 1977) of the Coromandel Peninsula must be treated as a prohibited activity.

(3) Subsection (2) does not apply to prospecting, exploring, or mining activities set out in section 61(1A) of the Crown Minerals Act 1991.

(4) An activity prohibited by section 105(2)(b) of the Historic Places Act 1993 must be treated as a prohibited activity.

Section 87B: inserted, on 1 October 2009, by section 69 of the Resource Management (Simplifying and Streamlining) Amendment Act 2009 (2009 No 31).
Streamlining decision-making on resource consents

**87C Sections 87D to 87I apply to resource consent applications**

(1) Sections 87D to 87I apply when an applicant wants one of the following applications to be determined by the Environment Court instead of by a consent authority:
   (a) an application for a resource consent that has been notified:
   (b) an application to change or cancel a condition of a resource consent that has been notified.

(2) If the application is called in under section 142(2), sections 87D to 87I cease to apply to it.

Section 87C: inserted, on 1 October 2009, by section 69 of the Resource Management (Simplifying and Streamlining) Amendment Act 2009 (2009 No 31).

**87D Request for application to go directly to Environment Court**

(1) The applicant must request the relevant consent authority to allow the application to be determined by the Environment Court instead of by the consent authority.

(2) The applicant must make the request in the period—
   (a) starting on the day on which the application is made; and
   (b) ending 5 working days after the date on which the period for submissions on the application closes.

(3) The applicant must make the request electronically or in writing on the prescribed form.

Section 87D: inserted, on 1 October 2009, by section 69 of the Resource Management (Simplifying and Streamlining) Amendment Act 2009 (2009 No 31).

**87E Consent authority’s decision on request**

(1) If the consent authority determines under section 88(3) that the application is incomplete, it must return the request with the application without making a decision on the request. Section 88(4) and (5) apply to the application.
(2) If the consent authority receives the request after it has determined that the application will not be notified, it must return the request.

(3) If the consent authority receives the request before it has determined whether the application will be notified, it must defer its decision on the request until after it has decided whether to notify the application and then apply either subsection (4) or (5).

(4) If the consent authority decides not to notify the application, it must return the request.

(5) If the consent authority decides to notify the application, it must give the applicant its decision on the request within 15 working days after the date of the decision on notification.

(6) In any other case, the consent authority must give the applicant its decision on the request within 15 working days after receiving the request.

(7) No submitter has a right to be heard by the consent authority on a request.

(8) If the consent authority returns or declines the request, it must give the applicant its reasons, in writing or electronically, at the same time as it gives the applicant its decision.

(9) If the consent authority declines the request under subsection (5) or (6) the applicant may object to the consent authority under section 357A(1)(e).

87F Consent authority’s subsequent processing

(1) If the consent authority does not grant the applicant’s request under section 87D, the consent authority must continue to process the application.

(2) If the consent authority grants the applicant’s request under section 87D, the consent authority must continue to process the application and must comply with subsections (3) to (5).

(3) The consent authority must prepare a report on the application within the longer of the following periods:
(a) the period that ends 20 working days after the date on which the period for submissions on the application closes:
(b) the period that ends 20 working days after the date on which the authority decides to grant the request.

(4) In the report, the consent authority may—
(a) address issues that are set out in sections 104 to 112 to the extent that they are relevant to the application; and
(b) suggest conditions that it considers should be imposed if the Environment Court grants the application.

(5) As soon as is reasonably practicable after the report is prepared, the consent authority must provide a copy to—
(a) the applicant; and
(b) every person who made a submission on the application.

87G Environment Court determines application

(1) Subsection (2) applies to an applicant who—
(a) receives a report provided under section 87F(5); and
(b) continues to want the application to be determined by the Environment Court instead of by a consent authority.

(2) The applicant must,—
(a) within 10 working days after receiving the report, lodge with the Environment Court a notice of motion in the prescribed form specifying the orders sought and the grounds upon which the application is made, and a supporting affidavit as to the matters giving rise to the application; and
(b) as soon as is reasonably practicable after lodging the notice of motion, serve a copy of the notice of motion and affidavit on—
   (i) the consent authority that granted the applicant’s request under section 87D; and
   (ii) every person who made a submission to the authority on the application; and
(c) tell the Registrar of the Environment Court when the copies have been served.
(3) A consent authority served under subsection (2)(b)(i) must, without delay, provide the Environment Court with—
   
   (a) the application to which the notice of motion relates; and
   
   (b) the authority’s report on the application; and
   
   (c) all the submissions on the application that the authority received; and
   
   (d) all the information and reports on the application that the authority was supplied with.

(4) Section 274 applies to the notice of motion.

(5) Part 11 applies to proceedings under this section.

(6) If considering a matter that is an application for a resource consent, the court must apply sections 104 to 112 and 138A as if it were a consent authority.

(7) If considering a matter that is an application for a change to or cancellation of conditions of a resource consent, the court must apply sections 104 to 112 as if—
   
   (a) it were a consent authority and the application were an application for resource consent for a discretionary activity; and
   
   (b) every reference to a resource consent and to the effects of the activity were, respectively, a reference to the change or cancellation of a condition and the effects of the change or cancellation.

87H Residual powers of consent authority

The consent authority that would have determined the application had the Environment Court not done so under section 87G has all the functions, duties, and powers in relation to a resource consent granted by the court as if it had granted the consent itself.

87I When consent authority must determine application

(1) This section applies when—

   (a) an applicant receives a report under section 87F(5); and
(b) either—
   (i) the applicant advises the authority that the applicant does not intend to lodge a notice of motion with the Environment Court under section 87G(2); or
   (ii) the applicant does not lodge a notice of motion with the Environment Court under section 87G(2); and

(c) the applicant continues to want the application determined.

(2) The application must be determined by the consent authority.

Section 87I: inserted, on 1 October 2009, by section 69 of the Resource Management (Simplifying and Streamlining) Amendment Act 2009 (2009 No 31).

Application for resource consent

88 Making an application

(1) A person may apply to the relevant consent authority for a resource consent.

(2) An application must—
   (a) be made in the prescribed form and manner; and
   (b) include, in accordance with Schedule 4, an assessment of environmental effects in such detail as corresponds with the scale and significance of the effects that the activity may have on the environment.

(3) If an application does not include an adequate assessment of environmental effects or the information required by regulations, a consent authority may, within 5 working days after the application was first lodged, determine that the application is incomplete and return the application, with written reasons for the determination, to the applicant.

(4) If, after an application has been returned as incomplete, that application is lodged again with the consent authority, that application is to be treated as a new application.

(5) Sections 357 to 358 apply to a determination that an application is incomplete.

Section 88: substituted, on 1 August 2003, by section 37 of the Resource Management Amendment Act 2003 (2003 No 23).

88A Description of type of activity to remain the same

(1) Subsection (1A) applies if—
(a) an application for a resource consent has been made under section 88 or 145; and
(b) the type of activity (being controlled, restricted, discretionary, or non-complying) for which the application was made, or that the application was treated as being made under section 87B, is altered after the application was first lodged as a result of—
(i) a proposed plan being notified; or
(ii) a decision being made under clause 10(1) of Schedule 1; or
(iii) otherwise.

(1A) The application continues to be processed, considered, and decided as an application for the type of activity that it was for, or was treated as being for, at the time the application was first lodged.

(2) Notwithstanding subsection (1), any plan or proposed plan which exists when the application is considered must be had regard to in accordance with section 104(1)(b).

(3) [Repealed]

Section 88A(1A): inserted, on 1 August 2003, by section 38(1) of the Resource Management Amendment Act 2003 (2003 No 23).

Section 88A(3): repealed, on 1 October 2009, by section 70(3) of the Resource Management (Simplifying and Streamlining) Amendment Act 2009 (2009 No 31).

88B Time limits from which time periods are excluded

(1) Subsection (2) lists the time limits from which certain time periods must be excluded. Subsection (3) lists the time periods that must be excluded from the time limits.

(2) The time limits are those in the following provisions:

(a) section 95, which deals with the time limit for notification;

   (c) may object under section 357A against the decision to decline to consider the submission.

99A Mediation

(1) A consent authority may refer to mediation a person who has made an application for a resource consent and some or all of the persons who have made submissions on the application.

(2) The authority may exercise the power in subsection (1)—
   (a) either—
      (i) at the request of one of the persons; or
      (ii) on its own initiative; and
   (b) only with the consent of all the persons being referred; and
(c) only for the purpose of mediating between the persons on a matter or issue.

(3) Mediation under this section must be conducted by—
(a) a person to whom the authority delegates, under section 34A, the power to mediate; or
(b) a person whom the authority appoints to mediate, if the authority is the person who has made an application for a resource consent.

(4) The person who conducts the mediation must report the outcome of the mediation to the consent authority.

Hearings

100 Obligation to hold a hearing
A hearing need not be held in accordance with this Act in respect of an application for a resource consent unless—
(a) the consent authority considers that a hearing is necessary; or
(b) either the applicant or a person who made a submission in respect of that application has requested to be heard and has not subsequently advised that he or she does not wish to be heard.

Section 100: amended, on 1 August 2003, by section 95 of the Resource Management Amendment Act 2003 (2003 No 23).

100A Hearing by commissioner if requested by applicant or submitter
(1) This section applies in relation to an application for a resource consent if—
(a) the application is notified; and
(b) in accordance with section 100, a hearing of the application is to be held.

(2) The applicant, or a person who makes a submission on the application, may request in writing that a local authority delegate its functions, powers, and duties required to hear and decide the application in accordance with subsection (4).
(3) The request must be made no later than 5 working days after the closing date for submissions on the application.

(4) If the local authority receives a request under subsection (2), it must delegate, under section 34A(1), its functions, powers, and duties required to hear and decide the application to 1 or more hearings commissioners who are not members of the local authority.

Section 100A: inserted, on 1 October 2009, by section 78 of the Resource Management (Simplifying and Streamlining) Amendment Act 2009 (2009 No 31).

101 Hearing date and notice

(1) If a hearing of an application for a resource consent is to be held, the consent authority shall fix a commencement date and time, and the place, of the hearing.

(2) The date for the commencement of the hearing is as follows:

(a) if section 87I, 198G, or 198M applies, the date must be no more than 15 working days after the date on which the authority knows that the section applies;

(b) if none of sections 87I, 198G, and 198M applies and the application was not notified, the date must be within 25 working days after the date the application was first lodged with the authority;

(c) if none of sections 87I, 198G and 198M applies and the application was notified, the date must be within 25 working days after the closing date for submissions on the application.

(2A) [Repealed]

(3) The consent authority shall give at least 10 working days’ notice of the commencement date and time, and the place, of a hearing of an application for a resource consent to—

(a) the applicant; and

(b) every person who made a submission on the application stating his or her wish to be heard and who has not subsequently advised that he or she does not wish to be heard.

(4) Where a joint hearing is to be held under section 102 the consent authorities concerned shall ensure that every applicant and every person who made a submission is aware of the joint hearing.

102 Joint hearings by 2 or more consent authorities

(1) Where applications for resource consents in relation to the same proposal have been made to 2 or more consent authorities, and those consent authorities have decided to hear the applications, the consent authorities shall jointly hear and consider those applications unless—

(a) all the consent authorities agree that the applications are sufficiently unrelated that a joint hearing is unnecessary; and

(b) the applicant agrees that a joint hearing need not be held.

(2) When a joint hearing is to be held, the regional council for the area concerned shall be responsible for notifying the hearing, setting the procedure, and providing administrative services, unless the consent authorities involved in the hearing agree that another authority should be so responsible.

(3) Where 2 or more consent authorities jointly hear applications for resource consents, they shall jointly decide those applications unless—

(a) any application is for a restricted coastal activity; or

(b) any of the consent authorities consider on reasonable grounds that it is not appropriate to do so.

(4) Where 2 or more consent authorities jointly decide applications for a resource consent in accordance with subsection (3), they shall identify in their decision on those applications—

(a) their respective responsibilities for the administration of any consents granted, including monitoring and enforcement; and

(b) the manner in which administrative charges will be allocated between the consent authorities,—

and any consent shall be issued by the relevant consent authority accordingly.
(4A) Where 2 or more consent authorities separately decide applications, and all the consent authorities have agreed to grant a resource consent, they shall ensure any conditions to be imposed are not inconsistent with each other.

(5) In any appeal under section 120 against a joint decision under subsection (4), the respondent shall be the consent authority whose consent is the subject of the appeal.

(6) This section shall also apply to any other matter the consent authorities are empowered to decide or recommend on under this Act in relation to the same proposal.

(7) If a consent authority delegates its functions, powers, and duties in relation to a matter to 1 or more hearings commissioners in accordance with section 100A, and a joint hearing under this section includes the matter, then those commissioners must represent the consent authority in the joint hearing in relation to the matter.

103 Combined hearings in respect of 2 or more applications

(1) Where 2 or more applications for resource consents in relation to the same proposal have been made to a consent authority, and that consent authority has decided to hear the applications, the consent authority shall hear and decide those applications together unless—

(a) the consent authority is of the opinion that the applications are sufficiently unrelated so that it is unnecessary to hear and decide the applications together; and

(b) the applicant agrees that a combined hearing need not be held.

(2) This section shall also apply to any other matter the consent authority is empowered to decide or recommend on under this Act in relation to the same proposal.

(3) If a consent authority delegates its functions, powers, and duties in relation to a matter to 1 or more hearings commission-
ers in accordance with section 100A, and the matter is to be heard and decided together with other matters under this section, then all of the matters must be heard and decided by those commissioners.

103A Time limit for completion of adjourned hearing

(1) Subsection (2) applies to a hearing of an application for a resource consent if—
   
   (a) the hearing is adjourned; and
   
   (b) the adjournment takes effect after the applicant’s right of reply has been exercised.

(2) The hearing must be concluded no later than 10 working days after the right of reply has been exercised (whether exercised orally or in writing).

Section 103A: inserted, on 1 October 2009, by section 82 of the Resource Management (Simplifying and Streamlining) Amendment Act 2009 (2009 No 31).

Decisions

104 Consideration of applications

(1) When considering an application for a resource consent and any submissions received, the consent authority must, subject to Part 2, have regard to—

   (a) any actual and potential effects on the environment of allowing the activity; and

   (b) any relevant provisions of—

   (i) a national environmental standard;

   (ii) other regulations;

   (iii) a national policy statement;

   (iv) a New Zealand coastal policy statement;

   (v) a regional policy statement or proposed regional policy statement;

   (vi) a plan or proposed plan; and

   (c) any other matter the consent authority considers relevant and reasonably necessary to determine the application.
(2) When forming an opinion for the purposes of subsection (1)(a), a consent authority may disregard an adverse effect of the activity on the environment if a national environmental standard or the plan permits an activity with that effect.

(2A) When considering an application affected by section 124, the consent authority must have regard to the value of the investment of the existing consent holder.

(3) A consent authority must not,—
   (a) when considering an application, have regard to—
       (i) trade competition or the effects of trade competition; or
       (ii) any effect on a person who has given written approval to the application:
   (b) [Repealed]
   (c) grant a resource consent contrary to—
       (i) section 107, 107A, 107E, or 217:

       (iii) any regulations:
       (iv) a Gazette notice referred to in section 26(1), (2), and (5) of the Foreshore and Seabed Act 2004:
   (d) grant a resource consent if the application should have been notified and was not.

(4) A consent authority considering an application must ignore subsection (3)(a)(ii) if the person withdraws the approval in a written notice received by the consent authority before the date of the hearing, if there is one, or, if there is not, before the application is determined.

(5) A consent authority may grant a resource consent on the basis that the activity is a controlled activity, a restricted discretionary activity, a discretionary activity, or a non-complying activity, regardless of what type of activity the application was expressed to be for.

(6) A consent authority may decline an application for a resource consent on the grounds that it has inadequate information to determine the application.

(7) In making an assessment on the adequacy of the information, the consent authority must have regard to whether any request
made of the applicant for further information or reports resulted in further information or any report being available.

104A Determination of applications for controlled activities

After considering an application for a resource consent for a controlled activity, a consent authority—

(a) must grant the resource consent, unless it has insufficient information to determine whether or not the activity is a controlled activity; and
(b) may impose conditions on the consent under section 108 only for those matters—
   (i) over which control is reserved in national environmental standards or other regulations; or
   (ii) over which it has reserved its control in its plan or proposed plan.

Section 104A(b): substituted, on 1 October 2009, by section 84 of the Resource Management (Simplifying and Streamlining) Amendment Act 2009 (2009 No 31).

104B Determination of applications for discretionary or non-complying activities

After considering an application for a resource consent for a discretionary activity or non-complying activity, a consent authority—
   (a) may grant or refuse the application; and
   (b) if it grants the application, may impose conditions under section 108.

Section 104B: inserted, on 1 August 2003, by section 44 of the Resource Management Amendment Act 2003 (2003 No 23).

104C Determination of applications for restricted discretionary activities

(1) When considering an application for a resource consent for a restricted discretionary activity, a consent authority must consider only those matters over which—
   (a) a discretion is restricted in national environmental standards or other regulations:
   (b) it has restricted the exercise of its discretion in its plan or proposed plan.

(2) The consent authority may grant or refuse the application.

(3) However, if it grants the application, the consent authority may impose conditions under section 108 only for those matters over which—
   (a) a discretion is restricted in national environmental standards or other regulations:
(b) it has restricted the exercise of its discretion in its plan or proposed plan.

Section 104C: substituted, on 1 October 2009, by section 85 of the Resource Management (Simplifying and Streamlining) Amendment Act 2009 (2009 No 31).

104D Particular restrictions for non-complying activities

(1) Despite any decision made for the purpose of section 95A(2)(a) in relation to adverse effects, a consent authority may grant a resource consent for a non-complying activity only if it is satisfied that either—

(a) the adverse effects of the activity on the environment (other than any effect to which section 104(3)(a)(ii) applies) will be minor; or

(b) the application is for an activity that will not be contrary to the objectives and policies of—

(i) the relevant plan, if there is a plan but no proposed plan in respect of the activity; or

(ii) the relevant proposed plan, if there is a proposed plan but no relevant plan in respect of the activity; or

(iii) both the relevant plan and the relevant proposed plan, if there is both a plan and a proposed plan in respect of the activity.

(2) To avoid doubt, section 104(2) applies to the determination of an application for a non-complying activity.

Section 104D: inserted, on 1 August 2003, by section 44 of the Resource Management Amendment Act 2003 (2003 No 23).

Decisions on applications relating to discharge of greenhouse gases

104E Applications relating to discharge of greenhouse gases
When considering an application for a discharge permit or coastal permit to do something that would otherwise contravene section 15 or section 15B relating to the discharge into air of greenhouse gases, a consent authority must not have regard to the effects of such a discharge on climate change, except to the extent that the use and development of renewable energy enables a reduction in the discharge into air of greenhouse gases, either—
(a) in absolute terms; or
(b) relative to the use and development of non-renewable energy.

104F Implementation of national environmental standards
If a national environmental standard is made to control the effects on climate change of the discharge into air of greenhouse gases, a consent authority, when considering an application for a discharge permit or coastal permit to do something that would otherwise contravene section 15 or section 15B,—
(a) may grant the application, with or without conditions, or decline it, as necessary to implement the standard; but
(b) in making its determination, must be no more or less restrictive than is necessary to implement the standard.

105 Matters relevant to certain applications
(1) If an application is for a discharge permit or coastal permit to do something that would contravene section 15 or section 15B,
the consent authority must, in addition to the matters in section 104(1), have regard to—
(a) the nature of the discharge and the sensitivity of the receiving environment to adverse effects; and
(b) the applicant’s reasons for the proposed choice; and
(c) any possible alternative methods of discharge, including discharge into any other receiving environment.

(2) If an application is for a resource consent for a reclamation, the consent authority must, in addition to the matters in section 104(1), consider whether an esplanade reserve or esplanade strip is appropriate and, if so, impose a condition under section 108(2)(g) on the resource consent.

106 Consent authority may refuse subdivision consent in certain circumstances

(1) A consent authority may refuse to grant a subdivision consent, or may grant a subdivision consent subject to conditions, if it considers that—
(a) the land in respect of which a consent is sought, or any structure on the land, is or is likely to be subject to material damage by erosion, falling debris, subsidence, slippage, or inundation from any source; or
(b) any subsequent use that is likely to be made of the land is likely to accelerate, worsen, or result in material damage to the land, other land, or structure by erosion, falling debris, subsidence, slippage, or inundation from any source; or
(c) sufficient provision has not been made for legal and physical access to each allotment to be created by the subdivision.

(2) Conditions under subsection (1) must be—
(a) for the purposes of avoiding, remedying, or mitigating the effects referred to in subsection (1); and
(b) of a type that could be imposed under section 108.

Section 106: substituted, on 1 August 2003, by section 44 of the Resource Management Amendment Act 2003 (2003 No 23).

107 Restriction on grant of certain discharge permits

(1) Except as provided in subsection (2), a consent authority shall not grant a discharge permit or a coastal permit to do something that would otherwise contravene section 15 or section 15A allowing—
   (a) the discharge of a contaminant or water into water; or
   (b) a discharge of a contaminant onto or into land in circumstances which may result in that contaminant (or any other contaminant emanating as a result of natural processes from that contaminant) entering water; or
   (ba) the dumping in the coastal marine area from any ship, aircraft, or offshore installation of any waste or other matter that is a contaminant,—
   if, after reasonable mixing, the contaminant or water discharged (either by itself or in combination with the same, similar, or other contaminants or water), is likely to give rise to all or any of the following effects in the receiving waters:
   (c) the production of any conspicuous oil or grease films, scums or foams, or floatable or suspended materials:
   (d) any conspicuous change in the colour or visual clarity:
   (e) any emission of objectionable odour:
   (f) the rendering of fresh water unsuitable for consumption by farm animals:
   (g) any significant adverse effects on aquatic life.

(2) A consent authority may grant a discharge permit or a coastal permit to do something that would otherwise contravene section 15 or section 15A that may allow any of the effects described in subsection (1) if it is satisfied—
   (a) that exceptional circumstances justify the granting of the permit; or
   (b) that the discharge is of a temporary nature; or
   (c) that the discharge is associated with necessary maintenance work—
   and that it is consistent with the purpose of this Act to do so.
(3) In addition to any other conditions imposed under this Act, a discharge permit or coastal permit may include conditions requiring the holder of the permit to undertake such works in such stages throughout the term of the permit as will ensure that upon the expiry of the permit the holder can meet the requirements of subsection (1) and of any relevant regional rules.

107A Restrictions on grant of resource consents

(1) A consent authority must not grant an application for a resource consent to do something that will, or is likely to, have a significant adverse effect on a recognised customary activity carried out in accordance with section 17A(2), unless written approval is given for the proposed activity by the holder of the relevant customary rights order.

(2) In determining whether a proposed activity will, or is likely to, have a significant adverse effect on a recognised customary activity, a consent authority must consider the following matters:

(a) the effects of the proposed activity on the recognised customary activity; and

(b) the area that the proposed activity would have in common with the recognised customary activity; and

(c) the degree to which the proposed activity must be carried out to the exclusion of other activities; and

(d) the degree to which the recognised customary activity must be carried out to the exclusion of other activities; and

242
(e) whether the recognised customary activity can be exercised only in a particular area; and

(f) whether an alternative location or method would avoid, remedy, or mitigate any significant adverse effects of the proposed activity on the recognised customary activity; and

(g) whether any conditions could be included in a resource consent for the proposed activity that would avoid, remedy, or mitigate any significant adverse effects of the proposed activity on the recognised customary activity.

(3) Despite sections 87A(2)(a) and 104A, subsection (1) may prevent the grant of an application for a resource consent for a controlled activity.

107B Provision for certain infrastructure works and related operations

(1) Section 107A does not prevent the grant of a resource consent to carry out—

(a) an infrastructure work and its associated operations if—

(i) the infrastructure work and its associated operations were lawfully established before the commencement of Part 3 of the Foreshore and Seabed Act 2004; and

(ii) any significant adverse effects of the proposed activity on the recognised customary activity will be, or are likely to be, the same or similar in character, intensity, and scale to those that existed before the application for the resource consent was made:

(b) maintenance work on, to, or in respect of an infrastructure work and its associated operations that were lawfully established before the commencement of Part 3 of the Foreshore and Seabed Act 2004, so long as any significant adverse effects of the maintenance work on the recognised customary activity are temporary in nature.
(2) In this section, infrastructure work and its associated operations is limited to any infrastructure works and associated operations that are owned, operated, or carried out by 1 or more of the following:
   (a) the Crown, as defined in section 2(1) of the Public Finance Act 1989;
   (b) a local authority;
   (c) a network utility operator;
   (d) an electricity generator as defined in section 2(1) of the Electricity Act 1992;
   (e) a port company as defined in section 2(1) of the Port Companies Act 1988 or a port operator as defined in section 650J(6) of the Local Government Act 1974;
   (f) the Maritime Safety Authority of New Zealand.

107C Circumstances when written approval for resource consent required from holder of customary rights order

(1) This section applies if—
   (a) the holder of a customary rights order gives written approval under section 107A(1) for a resource consent for a proposed activity; and
   (b) the carrying out of the proposed activity under the resource consent would have the effect of suspending or cancelling, in whole or in part, the relevant customary rights order.

(2) The holder of the customary rights order must acknowledge in writing that the effect described in subsection (1)(b) will occur.

(3) Both the written approval given under section 107A(1) and the written acknowledgement given under subsection (2)—
   (a) form part of the application for a resource consent for the proposed activity; and
   (b) if a resource consent is granted, form part of the resource consent for that activity.

107D Process to apply if grant of resource consent has effect of cancelling customary rights order

(1) If the effect of carrying out the proposed activity under a resource consent granted in the circumstances contemplated by section 107C would be permanently to cancel the customary rights order, in whole or in part,—
   (a) the holder of the customary rights order must apply to cancel the order, in whole or in part, under section 60 or section 87 of the Foreshore and Seabed Act 2004; and
   (b) a decision by the consent authority to grant a resource consent for the proposed activity is of no effect until the application referred to in paragraph (a) has been determined in accordance with the Foreshore and Seabed Act 2004 and all appeal rights have been pursued.

(2) However, if an application to cancel a customary rights order is declined, the relevant resource consent must be treated as if it were declined by the consent authority.

Decisions on applications relating to non-aquaculture activities

107E Decision on application to undertake non-aquaculture activity in aquaculture management area

(1) This section applies when a person applies for a coastal permit to undertake an activity in an aquaculture management area and the activity is not an aquaculture activity.

(2) The consent authority may grant the permit only to the extent to which the activity is compatible with the aquaculture activities that may be undertaken in the aquaculture management area.

108 Conditions of resource consents

(1) Except as expressly provided in this section and subject to any regulations, a resource consent may be granted on any condition that the consent authority considers appropriate, including any condition of a kind referred to in subsection (2).

(2) A resource consent may include any 1 or more of the following conditions:

(a) subject to subsection (10), a condition requiring that a financial contribution be made;

(b) a condition requiring provision of a bond (and describing the terms of that bond) in accordance with section 108A;

(c) a condition requiring that services or works, including (but without limitation) the protection, planting, or replanting of any tree or other vegetation or the protection, restoration, or enhancement of any natural or physical resource, be provided:

(d) in respect of any resource consent (other than a subdivision consent), a condition requiring that a covenant be entered into, in favour of the consent authority, in respect of the performance of any condition of the resource consent (being a condition which relates to the use of land to which the consent relates):

(e) subject to subsection (8), in respect of a discharge permit or a coastal permit to do something that would otherwise contravene section 15 (relating to the discharge of contaminants) or section 15B, a condition requiring the holder to adopt the best practicable option to prevent or minimise any actual or likely adverse effect on the environment of the discharge and other discharges (if any) made by the person from the same site or source:

(f) in respect of a subdivision consent, any condition described in section 220 (notwithstanding any limitation on the imposition of conditions provided for by section 87A(2)(b) or (3)(a)):

(g) in respect of any resource consent for reclamation granted by the relevant consent authority, a condition requiring an esplanade reserve or esplanade strip of any specified width to be set aside or created under Part 10:
(h) in respect of any coastal permit to occupy any part of the coastal marine area (relating to land of the Crown in the coastal marine area or land in the coastal marine area vested in the regional council), a condition—
   (i) detailing the extent of the exclusion of other persons;
   (ii) specifying any coastal occupation charge.

(3) A consent authority may include as a condition of a resource consent a requirement that the holder of a resource consent supply to the consent authority information relating to the exercise of the resource consent.

(4) Without limiting subsection (3), a condition made under that subsection may require the holder of the resource consent to do 1 or more of the following:
   (a) to make and record measurements:
   (b) to take and supply samples:
   (c) to carry out analyses, surveys, investigations, inspections, or other specified tests:
   (d) to carry out measurements, samples, analyses, surveys, investigations, inspections, or other specified tests in a specified manner:
   (e) to provide information to the consent authority at a specified time or times:
   (f) to provide information to the consent authority in a specified manner:
   (g) to comply with the condition at the holder of the resource consent’s expense.

(5) Any conditions of a kind referred to in subsection (3) that were made before the commencement of this subsection, and any action taken or decision made as a result of such a condition, are hereby declared to be, and to have always been, as valid as they would have been if subsections (3) and (4) had been included in this Act when the conditions were made, or the action was taken, or the decision was made.

(6) [Repealed]

(7) Any condition under subsection (2)(d) may, among other things, provide that the covenant may be varied or cancelled or renewed at any time by agreement between the consent holder and the consent authority.
(8) Before deciding to grant a discharge permit or a coastal permit to do something that would otherwise contravene section 15 (relating to the discharge of contaminants) or 15B subject to a condition described in subsection (2)(e), the consent authority shall be satisfied that, in the particular circumstances and having regard to—
(a) the nature of the discharge and the receiving environment; and
(b) other alternatives, including any condition requiring the observance of minimum standards of quality of the receiving environment—
the inclusion of that condition is the most efficient and effective means of preventing or minimising any actual or likely adverse effect on the environment.

(9) In this section, financial contribution means a contribution of—
(a) money; or
(b) land, including an esplanade reserve or esplanade strip (other than in relation to a subdivision consent), but excluding Maori land within the meaning of Te Ture Whenua Maori Act 1993 unless that Act provides otherwise; or
(c) a combination of money and land.

(10) A consent authority must not include a condition in a resource consent requiring a financial contribution unless—
(a) the condition is imposed in accordance with the purposes specified in the plan or proposed plan (including the purpose of ensuring positive effects on the environment to offset any adverse effect); and
(b) the level of contribution is determined in the manner described in the plan or proposed plan.

108A Bonds

(1) A bond required under section 108(2)(b) may be given for the performance of any 1 or more conditions the consent authority considers appropriate and may continue after the expiry of the resource consent to secure the ongoing performance of conditions relating to long-term effects, including—

(a) a condition relating to the alteration or removal of structures:

(b) a condition relating to remedial, restoration, or maintenance work:

(c) a condition providing for ongoing monitoring of long-term effects.

(2) A condition describing the terms of the bond to be entered into under section 108(2)(b) may—

(a) require that the bond be given before the resource consent is exercised or at any other time:

(b) require that section 109(1) apply to the bond:

(c) provide that the liability of the holder of the resource consent be not limited to the amount of the bond:
(d) require the bond to be given to secure performance of conditions of the consent including conditions relating to any adverse effects on the environment that become apparent during or after the expiry of the consent:

(e) require the holder of the resource consent to provide such security as the consent authority thinks fit for the performance of any condition of the bond:

(f) require the holder of the resource consent to provide a guarantor (acceptable to the consent authority) to bind itself to pay for the carrying out of a condition in the event of a default by the holder or the occurrence of an adverse environmental effect requiring remedy:

(g) provide that the bond may be varied or cancelled or renewed at any time by agreement between the holder and the consent authority.

(3) If a consent authority considers that an adverse effect may continue or arise at any time after the expiration of a resource consent granted by it, the consent authority may require that a bond continue for a specified period that the consent authority thinks fit.

109 Special provisions in respect of bonds or covenants

(1) Every bond given under section 108A in respect of a land use consent or subdivision consent, and any other bond to which this subsection is applied as a condition of the consent, and every covenant given under section 108(2)(d),—

(a) shall be deemed to be an instrument creating an interest in the land within the meaning of section 62 of the Land Transfer Act 1952, and may be registered accordingly; and

(b) when registered under the Land Transfer Act 1952, shall be a covenant running with the land and shall, notwithstanding anything to the contrary in section 105 of the Land Transfer Act 1952, bind all subsequent owners of the land.

(3) Where an activity specified in subsection (1) or subsection (2) is a permitted activity in a plan, there shall be implied as a condition in the plan that the person undertaking the activity shall at all times throughout the period during which the activity is undertaken pay to the relevant regional council, on behalf of the Crown, any sum of money required to be paid by regulations made under section 360(1)(c).

(c) a consent shall be treated as property for the purposes of the Protection of Personal and Property Rights Act 1988.

(3) The holder of a resource consent may grant a charge over that consent as if it were personal property, but the consent may only be transferred to the chargee, or by or on behalf of the chargee, to the same extent as it could be so transferred by the holder.

(b) that is reasonably necessary to achieve the purpose of the coastal permit,—
no coastal permit shall be regarded as—
(c) an authority for the holder to occupy a coastal marine area which is land of the Crown or land vested in a regional council to the exclusion of all or any class of persons; or
(d) conferring on the holder the same rights in relation to the use and occupation of the area against those persons as if he or she were a tenant or licensee of the land.

(6) Except to the extent—
(a) that the consent expressly provides otherwise; and
(b) that is reasonably necessary to achieve the purpose of the consent,—
no coastal permit shall be regarded as an authority for the holder to remove sand, shingle, shell, or other natural material as if it were a licence or profit à prendre.

**Duration of consent**

123 **Duration of consent**

Except as provided in section 125,—

(a) the period for which a coastal permit for a reclamation, or a land use consent in respect of a reclamation that would otherwise contravene section 13, is granted is unlimited, unless otherwise specified in the consent:

(b) subject to paragraph (c), the period for which any other land use consent, or a subdivision consent, is granted is unlimited, unless otherwise specified in the consent:

(3) The holder may continue to operate under the existing consent until—
   (a) a new consent is granted and all appeals are determined; or
   (b) a new consent is declined and all appeals are determined.

124A When sections 124B and 124C apply and when they do not apply

(1) Sections 124B and 124C apply to an application affected by section 124 if, when the application is made, the relevant plan has not allocated any of the natural resources used for the activity.

(2) Sections 124B and 124C also apply to an application affected by section 124 as follows:
   (a) they apply if, when the application is made,—
      (i) the relevant plan has allocated some or all of the natural resources used for the activity to the same type of activity; and
      (ii) the relevant plan does not expressly say that sections 124A to 124C do not apply; and
   (b) they apply to the extent to which the amount of the resource sought by a person described in section 124B(1)(a) and (b) is equal to or smaller than the amount of the resource that—
      (i) is allocated to the same type of activity; and
      (ii) is left after the deduction of every amount allocated to every other existing resource consent.
Sections 124B and 124C do not apply to an application affected by section 124 if, when the application is made, the relevant plan expressly says that sections 124A to 124C do not apply.

124B Applications by existing holders of resource consents

      (ii) could not be fully exercised until the expiry of the existing consent.

(2) The application described in subsection (1)(b) is entitled to priority over every application described in subsection (1)(c).

(3) The consent authority must determine the application described in subsection (1)(b) before it determines any application described in subsection (1)(c).

(4) The consent authority must determine an application described in subsection (1)(b) by applying all the relevant provisions of this Act and the following criteria:
   (a) the efficiency of the person’s use of the resource; and
   (b) the use of industry good practice by the person; and
   (c) if the person has been served with an enforcement order not later cancelled under section 321, or has been convicted of an offence under section 338,—
      (i) how many enforcement orders were served or convictions entered; and
      (ii) how serious the enforcement orders or convictions were; and

(d) the person makes the application more than 3 months before the expiry of the consent described in section 124B(1)(a).

(2) The consent authority must—
(a) hold the application without processing it; and
(b) notify the holder of the existing consent—
   (i) that the application has been received; and
   (ii) that the holder may make an application affected by section 124.

(3) If the holder of the existing consent notifies the consent authority in writing that the holder does not propose to make an application affected by section 124, the consent authority must process and determine the application described in subsection (1)(a).

(4) If the holder of the existing consent does not make an application affected by section 124 more than 3 months before the expiry of the consent, the consent authority must process and determine the application described in subsection (1)(a).

(5) If the holder of the existing consent makes an application affected by section 124 more than 3 months before the expiry of the consent, the consent authority must hold the application
described in subsection (1)(a) until the determination of the holder’s application and any appeal.

(6) If the result of the determination of the holder’s application and any appeal is that the holder’s application affected by section 124 is granted, the application described in subsection (1)(a) lapses to the extent to which the use of the resource has been granted to the holder.

125 Lapsing of consents

(1) A resource consent lapses on the date specified in the consent or, if no date is specified, 5 years after the date of commencement of the consent unless, before the consent lapses,—
(a) the consent is given effect to; or
(b) an application is made to the consent authority to extend the period after which the consent lapses, and the consent authority decides to grant an extension after taking into account—
(i) whether substantial progress or effort has been, and continues to be, made towards giving effect to the consent; and
(ii) whether the applicant has obtained approval from persons who may be adversely affected by the granting of an extension; and
(iii) the effect of the extension on the policies and objectives of any plan or proposed plan.

(1A) Sections 357A and 357C to 358 apply to subsection (1)(b).

(2) For the purposes of this section, a subdivision consent is given effect to when a survey plan in respect of the subdivision has been submitted to the territorial authority under section 223, but shall thereafter lapse if the survey plan is not deposited in accordance with section 224.

Section 125(1A): inserted, on 1 August 2003, by section 51 of the Resource Management Amendment Act 2003 (2003 No 23).

126 Cancellation of consent
(1) A consent authority may cancel a resource consent by written notice served on the consent holder if the resource consent has been exercised in the past but has not been exercised during the preceding 5 years.

(2) Subsection (1) does not apply if—
(a) the resource consent expressly provides otherwise; or
(b) within 3 months after service of the notice, an application is made to the consent authority to revoke the notice and the consent authority decides to revoke the notice and state a period after which a new notice may be served under subsection (1), after taking into account—
(i) whether the applicant has obtained approval from persons who may be adversely affected by the revocation of the notice; and
(ii) the effect of the revocation of the notice on the policies and objectives of any plan or proposed plan.

(3) Sections 357A and 357C to 358 apply to this section.

(i) to deal with any adverse effect on the environment which may arise from the exercise of the consent and which it is appropriate to deal with at a later stage; or

(ii) to require a holder of a discharge permit or a coastal permit to do something that would otherwise contravene section 15 or 15B to adopt the best practicable option to remove or reduce any adverse effect on the environment; or

(iii) for any other purpose specified in the consent; or

(b) in the case of a coastal, water, or discharge permit, when a regional plan has been made operative which sets rules relating to maximum or minimum levels or flows or rates of use of water, or minimum standards of water quality or air quality, or ranges of temperature or pressure of geothermal water, and in the regional council’s opinion it is appropriate to review the conditions of the permit in order to enable the levels, flows, rates, or standards set by the rule to be met; or

(ba) in the case of a coastal, water, or discharge permit, when relevant national environmental standards have been made; or

(c) if the information made available to the consent authority by the applicant for the consent for the purposes of the application contained inaccuracies which materially influenced the decision made on the application and the effects of the exercise of the consent are such that it is necessary to apply more appropriate conditions.

(2) A consent authority must, in accordance with section 129, serve notice on a consent holder of its intention to review the conditions of a resource consent if required by an order made under section 339(5)(b).

(b) 10 working days after the service of the notice (if the consent holder is not invited to propose new conditions).

130 **Public notification, submissions, and hearing, etc**

(1) Sections 96 to 102 shall, with all necessary modifications, apply in respect of a review of any resource consent (other than a coastal permit granted in respect of a restricted coastal activity) as if—
   (a) the notice of review under section 129 were an application for a resource consent; and
   (b) the consent holder were the applicant for the resource consent.

(2) Sections 96 to 102 and section 117(4), (6), (7), and (8), with all necessary modifications, apply to the review of a coastal permit granted in respect of a restricted coastal activity as if—

(4) *[Repealed]*

(5) If a regional plan or regional coastal plan states that a rule will affect the exercise of existing resource consents under section 68(7), a consent authority—
   (a) is not required to comply with sections 95 to 95F; but
   (b) must hear submissions only from the consent holder if the consent holder requests (within 20 working days of service of the notice under section 129) to be heard.
(6) Where a consent which would otherwise be heard under subsection (5) is a consent granted for a restricted coastal activity, the provisions of subsection (2) shall apply except that the only persons who may be heard in relation to the matter are the consent holder and the Minister of Conservation.

(7) Notwithstanding subsections (5) and (6), if a consent authority considers special circumstances exist, it may require that a review be notified and a hearing be held even if a plan expressly states that a rule shall affect the exercise of existing consents under section 68(7).

(8) When reviewing the conditions of a resource consent under section 128(1)(ba), the consent authority must serve on the Minister notice of the review, and the Minister may—
(a) make a submission to the consent authority; and
(b) request to be heard.
131 **Matters to be considered in review**

(1) When reviewing the conditions of a resource consent, the consent authority—

(a) shall have regard to the matters in section 104 and to whether the activity allowed by the consent will continue to be viable after the change; and

(aa) in the case of a review under section 128(2), must have regard to any reasons that the court provided for making the order requiring the review; and

(b) may have regard to the manner in which the consent has been used.

(2) Before changing the conditions of a discharge permit or a coastal permit to do something that would otherwise contravene section 15 (relating to the discharge of contaminants) or 15B to include a condition requiring the holder to adopt the best practicable option to remove or reduce any adverse effect on the environment, the consent authority shall be satisfied, in the particular circumstances and having regard to—

(a) the nature of the discharge and the receiving environment; and

(b) the financial implications for the applicant of including that condition; and

(c) other alternatives, including a condition requiring the observance of minimum standards of quality of the receiving environment—that including that condition is the most efficient and effective means of removing or reducing that adverse effect.

132 **Decisions on review of consent conditions**

(1) A consent authority may change the conditions of a resource consent (other than any condition as to the duration of the con-
sent) on a review under section 128 if, and only if, 1 or more of the circumstances specified in that section applies.

(2) Sections 106 to 116 (which relate to conditions, decisions, and notification) and sections 120 and 121 (which relate to appeals) apply, with all necessary modifications, to a review under section 128 as if—
(a) the review were an application for a resource consent; and
(b) the consent holder were an applicant for a resource consent.

(3) A consent authority may cancel a resource consent if—
(a) it reviews the consent under section 128(1)(c); and
(b) the application for the consent contained inaccuracies that the consent authority considers materially influenced the decision made on the application; and
(c) there are significant adverse effects on the environment resulting from the exercise of the consent.

(4) A consent authority may also cancel a resource consent if—
(a) it reviews the consent under section 128(2); and
(b) there are significant adverse effects on the environment resulting from the exercise of the consent.

Section 132(3): substituted, on 1 October 2009, by section 98(2) of the Resource Management (Simplifying and Streamlining) Amendment Act 2009 (2009 No 31).

133 Powers under Part 12 not affected
Nothing in sections 127 to 132 limits the power of the Environment Court to change or cancel a resource consent by an enforcement order under Part 12.

133A Minor corrections of resource consents
A consent authority that grants a resource consent may, within 15 working days of the grant, issue an amended consent that corrects minor mistakes or defects in the consent.

Transfer of consents

134 Land use and subdivision consents attach to land
(1) Except as provided in subsection (2), a land use consent and a subdivision consent shall attach to the land to which each relates and accordingly may be enjoyed by the owners and occupiers of the land for the time being, unless the consent expressly provides otherwise.

(2) Subsection (1) does not apply to any land use consent to do something that would otherwise contravene section 13.

(3) The holder of a land use consent described in subsection (2) may transfer the whole or any part of the holder’s interest in the consent to any other person unless the consent expressly provides otherwise.

(4) The transfer of the holder’s interest in a consent described in subsection (2) has no effect until written notice of the transfer is given to the consent authority that granted the consent.

135 Transferability of coastal permits
(1) A holder of a coastal permit—
(a) may transfer the whole or any part of the holder’s interest in the permit to any other person:
(b) may not transfer the whole or any part of the holder’s interest in the permit to another site—unless the consent or a rule in a regional coastal plan expressly provides otherwise.

(2) The transfer of the holder’s interest in a coastal permit under subsection (1) has no effect until written notice of the transfer is given to the consent authority that granted the permit.

136 Transferability of water permits

(1) A holder of a water permit granted for damming or diverting water may transfer the whole of the holder’s interest in the permit to any owner or occupier of the site in respect of which the permit is granted, but may not transfer the permit to any other person or from site to site.

(2) A holder of a water permit granted other than for damming or diverting water may transfer the whole or any part of the holder’s interest in the permit—
   (a) to any owner or occupier of the site in respect of which the permit is granted; or
   (b) to another person on another site, or to another site, if both sites are in the same catchment (either upstream or downstream), aquifer, or geothermal field, and the transfer—
      (i) is expressly allowed by a regional plan; or
      (ii) has been approved by the consent authority that granted the permit on an application under subsection (4).

(2A) A transfer under subsection (1) or subsection (2) may be for a limited period.

(3) A transfer under any of subsections (1), (2)(a), and (2)(b)(i) shall have no effect until written notice of the transfer is received by the consent authority that granted the permit.

(4) An application under subsection (2)(b)(ii)—
   (a) shall be in the prescribed form and be lodged jointly by the holder of the water permit and the person to whom the interest in the water permit will transfer; and
   (b) shall be considered in accordance with sections 39 to 42A, 88 to 115, 120, and 121 as if—
      (i) the application for a transfer were an application for a resource consent; and
      (ii) the consent holder were an applicant for a resource consent,—
except that, and in addition to the matters set out in section 104, the consent authority shall have regard to the effects of the proposed transfer, including the effect of ceasing or changing the exercise of the permit under
its current conditions, and the effects of allowing the transfer.

(5) Where the transfer of the whole or part of the holder’s interest in a water permit is notified under subsection (3), or approved under subsection (2)(b)(ii), and is not for a limited period, the original permit, or that part of the permit transferred, shall be deemed to be cancelled and the interest or part transferred shall be deemed to be a new permit—

(a) on the same conditions as the original permit (where subsection (3) applies); or

(b) on such conditions as the consent authority determines under subsection (4) (where that subsection applies).

137 Transferability of discharge permits

(1) The holder of a discharge permit may—

(a) transfer part or all of the holder’s interest in the permit; and

(b) make the transfer for part or all of the remaining period of the permit.

(2) The holder may make the transfer if it—

(a) is for the site for which the permit is granted; and

(b) is to—

(i) another owner or occupier of the site for which the permit is granted; or

(ii) a local authority.

(3) The holder may make the transfer if it is for another site and is to any person, if a regional plan—

(a) allows the transfer; or

(b) allows the holder to apply to the consent authority that granted the permit to be allowed to make the transfer.

(4) A regional plan may allow a transfer or a consent authority may allow a transfer if—
(a) the transfer does not worsen the actual or potential effect of any discharges on the environment; and
(b) the transfer does not result in any discharges that contravene a national environmental standard; and
(c) if the discharge is to water, both sites are in the same catchment; and
(d) if the discharge is to air and a national environmental standard applies to a discharge to air, both sites are in the same air-shed as defined in the standard; and
(e) if the discharge is to air and paragraph (d) does not apply, both sites are in the same region.

(5) An application under subsection (3)(b)—
(a) must be in the prescribed form; and
(b) must be lodged jointly by the holder of the permit and the person to whom it is proposed to transfer the interest in the permit; and
(c) must be considered under sections 39 to 42A, 88 to 115, 120, and 121 as if—
   (i) the application for a transfer were an application for a resource consent; and
   (ii) the holder were an applicant for a resource consent.

(6) The transfer has no effect until the consent authority that granted the permit receives written notice of it.

(7) When a consent authority receives written notice of a transfer that is made for all of the remaining period of the permit,—
(a) the original permit, or the part of it that relates to the part of the interest transferred, is cancelled; and
(b) the interest, or the part of it transferred, is a new permit on the same conditions as the original permit.

138 **Surrender of consent**

(1) The holder of a resource consent may surrender the consent, either in whole or part, by giving written notice to the consent authority.

(2) A consent authority may refuse to accept the surrender of part of a resource consent where it considers that surrender of that part would—
   (a) affect the integrity of the consent; or
   (b) affect the ability of the consent holder to meet other conditions of the consent; or
   (c) lead to an adverse effect on the environment.

(3) A person who surrenders a resource consent remains liable under this Act—
   (a) for any breach of conditions of the consent which occurred before the surrender of the consent; and
   (b) to complete any work to give effect to the consent unless the consent authority directs otherwise in its notice of acceptance of the surrender under subsection (4).

(4) A surrender of a resource consent takes effect on receipt by the holder of a notice of acceptance of the surrender from the consent authority.

138A **Special provisions relating to coastal permits for dumping and incineration**

(1) Without limiting section 104, when considering an application for a coastal permit to do something that would otherwise contravene section 15A(1), the consent authority shall, in having regard to the actual and potential effects of allowing the activity, have regard to—
   (a) the nature of any discharge of any contaminant which the dumping or incineration may involve and the sensitivity of the receiving environment to adverse effects and the applicant’s reasons for making the proposed choice; and
   (b) any possible alternative methods of disposal or combustion including any involving discharge into any other receiving environment,—

and, without limiting the powers of the consent authority under section 92, it may, at any reasonable time before the hearing
(or, if there is no hearing, the determination) of the application, by written notice to the applicant, require the applicant to provide, by way of further information, an explanation of those matters.

(2) Without limiting section 108, but subject to subsection (5), a coastal permit to which subsection (1) applies may include a condition requiring the holder to adopt the best practicable option to prevent or minimise any actual or likely adverse effect on the environment of any discharge of any contaminant which may occur in the exercise of the permit; provided that before a consent authority decides to grant a coastal permit subject to such a condition, it shall be satisfied that, in the particular circumstances, and having regard to—
(a) the nature of any discharge of a contaminant and the receiving environment; and
(b) other alternatives, including any condition requiring the observance of minimum standards of quality of the receiving environment,—
the inclusion of the condition is the most efficient and effective means of preventing or minimising any actual or likely adverse effect on the environment.

(3) In respect of a coastal permit to do something that would otherwise contravene section 15A(1), a consent authority may, at any time specified for that purpose in the permit, in accordance with section 129, serve notice on the holder of the permit of its intention to review the conditions of the permit for the purpose of requiring the holder to adopt the best practicable option to remove or reduce any adverse effect on the environment.

(4) Subject to subsection (5), sections 129 to 133 shall apply to any review of a coastal permit under subsection (3) and the powers conferred on a consent authority by that subsection are in addition to the powers conferred by section 128.

(5) Before deciding to grant a coastal permit subject to a condition described in subsection (2) and before deciding to change the conditions of a coastal permit pursuant to subsections (3) and (4), the consent authority shall be satisfied, in the particular circumstances, and having regard to—
(a) the nature of any discharge of a contaminant and the receiving environment; and
(b) the financial implications for the holder of including that condition; and
(c) other alternatives, including a condition requiring the observance of minimum standards of quality of the receiving environment—
that including a condition in the permit requiring the holder to adopt the best practicable option to remove or reduce any adverse effect on the environment is the most efficient and effective means of removing or reducing that adverse effect.

(6) In every coastal permit to do something that would otherwise contravene section 15A(1), there shall be implied a condition that the holder shall, in the prescribed form and at the cost of the holder in all respects, keep such records and furnish to the Director of Maritime New Zealand such information and returns as may from time to time be required by regulations.

Certificates of compliance or existing use

139 Consent authorities and Environmental Protection Authority to issue certificates of compliance

(1) This section applies if an activity could be done lawfully in a particular location without a resource consent.

(2) A person may request the consent authority to issue a certificate of compliance.

(3) A certificate states that the activity can be done lawfully in a particular location without a resource consent.

(4) The authority may require the person to provide further information if the authority considers that the information is necessary for the purpose of applying subsection (5).

(5) The authority must issue the certificate if—
(a) the activity can be done lawfully in the particular location without a resource consent; and
(b) the person pays the appropriate administrative charge.

(6) The authority must issue the certificate within 20 working days of the later of the following:
(a) the date on which it received the request;
(b) the date on which it received the further information under subsection (4).

(7) The certificate issued to the person must—
(a) describe the activity and the location; and
(b) state that the activity can be done lawfully in the particular location without a resource consent as at the date on which the authority received the request.

(8) The authority must not issue a certificate if—
(a) the request for a certificate is made after a proposed plan is notified; and
(b) the activity could not be done lawfully in the particular location without a resource consent under the proposed plan.

(9) Sections 357A and 357C to 358 apply to a request for a certificate.

(10) A certificate is treated as if it were an appropriate resource consent that—
(a) contains the conditions specified in an applicable national environmental standard; and
(b) contains the conditions specified in an applicable plan.

(11) A certificate treated as a resource consent is subject to sections 10, 10A, and 20A(2).

(12) A certificate treated as a resource consent is subject to this Act as if it were a resource consent, except that the only sections in this Part that apply to it are sections 120, 121, 122, 125, 134, 135, 136, and 137.

(13) If an activity relates to a matter that is or is part of a proposal of national significance for which a direction has been made under section 142(2) or 147(1)(a) or (b), a person may request a certificate from the Environmental Protection Authority and this section applies with the following modifications:
(a) a reference to a consent authority is to be treated as a reference to the EPA; and
(b) subsection (5)(b) does not apply; and
(c) the EPA may recover its actual and reasonable costs of dealing with the request from the person making the request.

(14) In this section, activity includes a particular proposal.

139A Consent authorities to issue existing use certificates

(1) A person may request the consent authority to issue a certificate that—
(a) describes a use of land in a particular location; and
(b) states that the use of the land was a use of land allowed by section 10 on the date on which the authority issues the certificate; and
(c) specifies the character, intensity, and scale of the use on the date on which the authority issues the certificate.

(2) A person may request the consent authority to issue a certificate that—
(a) describes an activity to which section 10A or section 20A applies; and
(b) states that the activity was an activity allowed by section 10A or section 20A on the date on which the authority issues the certificate; and
(c) specifies the character, intensity, and scale of the activity on the date on which the authority issues the certificate; and
(d) describes the period for which the activity is allowed under section 10A or section 20A.

(3) The consent authority may require the person to provide any further information that the authority considers it needs to determine whether it must issue the certificate.

(4) The consent authority must issue a certificate under subsection (1) if it—
(a) is satisfied that the use of the land is a use of land allowed by section 10 on the date on which the authority issues the certificate; and
(b) receives payment of the appropriate administrative charge.

(5) The consent authority must issue a certificate under subsection (2) if it—

(a) is satisfied that the activity is an activity allowed by section 10A or section 20A on the date on which the authority issues the certificate; and

(b) receives payment of the appropriate administrative charge.

(6) A consent authority that must issue a certificate must do so within 20 working days after the latest of the following dates:

(a) the date on which the authority receives the request; and

(b) the date on which the authority receives all the information required under subsection (3); and

(c) the date on which the authority receives the payment of the appropriate administrative charge.

(7) Subsection (8) applies if a consent authority that issued a certificate becomes aware that the information that a person provided in order to obtain the certificate contained inaccuracies.

(8) The authority must revoke the certificate, if it is satisfied that the inaccuracies were material in satisfying the authority that it must issue the certificate.

(9) An existing use certificate is treated as an appropriate resource consent. The provisions of this Act apply to the certificate, except for sections 87AA to 119 and 123 to 150.

(10) Sections 357A and 357C to 358 apply in relation to the issue or revocation of an existing use certificate.

Decisions on proposals of national significance

[Repealed]

Heading: repealed, on 1 October 2009, by section 100 of the Resource Management (Simplifying and Streamlining) Amendment Act 2009 (2009 No 31).

Part 6AA

Proposals of national significance

140 Outline of this Part

(1) This section sets out the general scheme and effect of this Part. This section is by way of explanation only and does not limit or affect the other provisions of this Part or this Act.

(2) This Part provides the Minister with specific powers in relation to applications for resource consents, applications for changes to or cancellation of resource consent conditions, local authority plan changes or variations, requests for plan changes, requests for the preparation of regional plans, and notices of requirement that are or are part of a proposal of national significance.

(3) If exercised by the Minister, these powers set in motion one of 2 procedures by which the application, change, variation, request, or notice (the matter) is decided. Instead of the normal procedures set out in the Act, either a board of inquiry or the Environment Court decides the matter. A decision by a board of inquiry or the Environment Court may be challenged only by an appeal to the High Court on a question of law. If that decision is challenged, a further appeal may be taken to the Supreme Court or the Court of Appeal on a question of law, but only with the leave of the Supreme Court.

(4) There are 3 ways in which a matter may come to the Minister for his or her decision on whether to make a direction to refer a matter to a board of inquiry or the Environment Court for decision. If the matter has been lodged with a local authority, the Minister may decide to make a direction on his or her own initiative or in response to a request from the local authority or the applicant. If the matter has been lodged with the Environmental Protection Authority, the Minister may decide to make a direction after receiving a recommendation from the EPA.

(5) If the Minister decides not to make a direction to refer a matter to a board of inquiry or the Environment Court for decision, the matter will be processed by the local authority that, in the normal course of the Act, would be responsible for dealing with it. However, the Minister may still intervene in the process, for example, by making a submission on the matter for the Crown, appointing a project co-ordinator to advise the local authority on any thing relating to the matter, or appointing an additional hearings commissioner.
Section 140: substituted, on 1 October 2009, by section 100 of the Resource Management (Simplifying and Streamlining) Amendment Act 2009 (2009 No 31).

Subpart 1: inserted, on 1 October 2009, by section 100 of the Resource Management (Simplifying and Streamlining) Amendment Act 2009 (2009 No 31).

Matter lodged with local authority

142 Minister may call in matter that is or is part of proposal of national significance

(1) This section applies if a matter has been lodged with a local authority and—

(a) the Minister, at his or her own initiative, decides to apply this section; or
(b) the Minister receives a request from an applicant or a local authority to make a direction for the matter under subsection (2).

(2) If the Minister considers that a matter is or is part of a proposal of national significance, the Minister may call in the matter by making a direction to—

(a) refer the matter to a board of inquiry for decision; or
(b) refer the matter to the Environment Court for decision.

(3) In deciding whether a matter is or is part of a proposal of national significance, the Minister may have regard to any relevant factor, including whether the matter—

(a) has aroused widespread public concern or interest regarding its actual or likely effect on the environment (including the global environment); or
(b) involves or is likely to involve significant use of natural and physical resources; or
(c) affects or is likely to affect a structure, feature, place, or area of national significance; or
(d) affects or is likely to affect or is relevant to New Zealand’s international obligations to the global environment; or
(e) results or is likely to result in or contribute to significant or irreversible changes to the environment (including the global environment); or

143 Restriction on when local authority may request call in

   (a) an application for a resource consent;
   (b) a request for the preparation of a regional plan (other than a regional coastal plan);
   (c) a request for a change to a plan.

(2) The holder of a resource consent may lodge an application for a change to or cancellation of the conditions of the resource consent with the EPA.

(3) A requiring authority may lodge a notice of requirement for a designation or to alter a designation with the EPA.

(4) A heritage protection authority may lodge a notice of requirement for a heritage order or to alter a heritage order with the EPA.

(5) If the matter is an application for a resource consent, section 88 applies, except that—
   (a) every reference in that section to a consent authority must be read as a reference to the EPA; and

(9) Despite any enactment to the contrary,—
(a) an application for leave for the purposes of subsection (6) must be filed no later than 10 working days after the determination of the High Court; and

(1) A regional council may, by public notice, identify areas in the coastal marine area in its region as excluded areas.

(2) Before identifying an excluded area, the regional council must comply with the consultative requirements in clauses 3 to 3B of Schedule 1, and those clauses apply, with all necessary modifications, as if a proposal to identify an excluded area were a proposed plan.

165X Aquaculture management areas may not be established in excluded areas as result of requests for changes
A regional council must not seek nor accept, under this subpart, a request for a change to a regional coastal plan or proposed regional coastal plan from a person wishing to undertake aquaculture activities in any part of the coastal marine area that is an excluded area.
Section 165X: inserted, on 1 January 2005, by section 20 of the Resource Management Amendment Act (No 2) 2004 (2004 No 103).

(b) to address more effectively the cumulative effects of aquaculture activities in the areas the requests relate to; or

(c) in planning more effectively for aquaculture activities.

(2) A regional council may amend a request adopted under subsection (1) by increasing the amount of available space provided for in the part of the region the request relates to.

(3) If the regional council adopts a request and combines it with any other request or amends the request under subsection (2),—

(a) the council must specify that part of the available space in the aquaculture management area out of which a per-
son who requested a change is to receive an authorisation under section 165ZF, being 80% of the available space requested by the person; and

(b) the council may fix a charge under section 36(1)(a) payable by each person who requested a change recognising the proportion of the available space to which the person’s request relates.

(1) When considering an application to which section 165ZH(2) or section 165ZI(7) or (8) applies, a consent authority must not only consider the relevant matters under this Act, but also consider the applicant’s conduct in relation to—

(1A) The territorial authority must decide whether to notify the notice of requirement under sections 95A to 95F (but without the time limit specified by section 95), which apply with all necessary modifications and as if—

Sections 173, 174, and 175 apply, with all necessary modifications, in respect of a decision made under subsection (4).

If a territorial authority is given a notice of requirement under section 168, the territorial authority must decide whether to notify the notice under sections 95 to 95F, which apply with all necessary modifications and as if—

(a) a reference to a resource consent were a reference to the requirement; and

(b) as if a reference to a decision on the application for a resource consent were a reference to a recommendation by the territorial authority under section 171.

170 Discretion to include requirement in proposed plan

If a territorial authority is given notice of a requirement under section 168, and proposes to publicly notify a proposed plan under clause 5 of Schedule 1 within 40 working days of receipt of that requirement, the territorial authority may, with the consent of the requiring authority, include the requirement in its proposed plan instead of complying with section 169.

171 Recommendation by territorial authority

(1A) When considering a requirement and any submissions received, a territorial authority must not have regard to trade competition or the effects of trade competition.

(1) When considering a requirement and any submissions received, a territorial authority must, subject to Part 2, consider the effects on the environment of allowing the requirement, having particular regard to—

(a) any relevant provisions of—

(i) a national policy statement:
(ii) a New Zealand coastal policy statement:
(iii) a regional policy statement or proposed regional policy statement:
(iv) a plan or proposed plan; and

(2) A requiring authority may modify a requirement if, and only if, that modification is recommended by the territorial authority or is not inconsistent with the requirement as notified.

(3) Where a requiring authority rejects the recommendation in whole or in part, or modifies the requirement, the authority shall give reasons for its decision.

173 Notification of decision on designation
(1) A territorial authority must ensure that, within 15 working days after a decision is made by a requiring authority under section 172, a notice of decision and a statement of the time

(3) The appellant shall ensure that a copy of the notice of appeal is served on every person referred to in subsection (1) (other than the appellant), within 5 working days after the notice is lodged with the court.
(4) In determining an appeal, the Environment Court must have regard to the matters set out in section 171(1) and comply with section 171(1A) as if it were a territorial authority, and may—
(a) cancel a requirement; or
(b) confirm a requirement; or
(c) confirm a requirement, but modify it or impose conditions on it as the court thinks fit.

175 Designation to be provided for in district plan
(1) Subsection (2) applies to a territorial authority if—

with the requirement as issued or modified in accordance with this Act; and
(b) state in its district plan and in any proposed district plan the name of the requiring authority that has the benefit of the designation.

176 Effect of designation

(1) If a designation is included in a district plan, then—
(a) section 9(3) does not apply to a public work or project or work undertaken by a requiring authority under the designation; and
(b) no person may, without the prior written consent of that requiring authority, do anything in relation to the land that is subject to the designation that would prevent or hinder a public work or project or work to which the designation relates, including—
(i) undertaking any use of the land; and
(ii) subdividing the land; and
(iii) changing the character, intensity, or scale of the use of the land.

(2) The provisions of a district plan or proposed district plan shall apply in relation to any land that is subject to a designation only to the extent that the land is used for a purpose other than the designated purpose.

(3) This section is subject to section 177.

176A Outline plan
(1) Subject to subsection (2), an outline plan of the public work, project, or work to be constructed on designated land must be submitted by the requiring authority to the territorial authority to allow the territorial authority to request changes before construction is commenced.

(2) An outline plan need not be submitted to the territorial authority if—
   (a) the proposed public work, project, or work has been otherwise approved under this Act; or
   (b) the details of the proposed public work, project, or work, as referred to in subsection (3), are incorporated into the designation; or
   (c) the territorial authority waives the requirement for an outline plan.

   (e) the landscaping proposed; and
   (f) any other matters to avoid, remedy, or mitigate any adverse effects on the environment.

(4) Within 20 working days after receiving the outline plan, the territorial authority may request the requiring authority to make changes to the outline plan.

(5) If the requiring authority decides not to make the changes requested under subsection (4), the territorial authority may, within 15 working days after being notified of the requiring authority’s decision, appeal against the decision to the Environment Court.

(6) In determining any such appeal, the Environment Court must consider whether the changes requested by the territorial authority will give effect to the purpose of this Act.
(7) This section applies, with all necessary modifications, to public works, projects, or works to be constructed on designated land by a territorial authority.

177 Land subject to existing designation or heritage order

(1) Subject to sections 9(2) and 11 to 15, where a designation is included in a district plan, and the land that is the subject of the designation is already the subject of an earlier designation or heritage order,—

(a) the requiring authority responsible for the later designation may do anything that is in accordance with that designation only if that authority has first obtained the written consent of the authority responsible for the earlier designation or order; and

(b) the authority responsible for the earlier designation or order may, notwithstanding section 176(1)(b) and without obtaining the prior written consent of the later requiring authority, do anything that is in accordance with the earlier designation or order.

(2) The authority responsible for the earlier designation or order may withhold its consent under subsection (1) only if that authority is satisfied—

(a) that, in the case of an earlier designation, the thing to be done would prevent or hinder the public work or project or work to which the designation relates; or

(b) that in the case of an earlier heritage order, the thing to be done would wholly or partly nullify the effect of the order.

Section 177(1)(a): amended, on 7 July 1993, by section 91(c) of the Resource Management Amendment Act 1993 (1993 No 65).

Section 177(1)(b): amended, on 7 July 1993, by section 91(c) of the Resource Management Amendment Act 1993 (1993 No 65).

(c) the extent to which the decision may be modified without wholly or partly nullifying the effect of the requirement or designation—
and may confirm or reverse the decision appealed against or modify the decision in such manner as the court thinks fit.

(b) written notice of the proposed alteration has been given to every owner or occupier of the land directly affected and those owners or occupiers agree with the alteration; and

(c) the designation specified a different period when incorporated in the plan.

(2) Where paragraph (b) or paragraph (c) of subsection (1) applies in respect of a designation, the designation shall lapse on the expiry of the period referred to in that paragraph unless—

(2) An application under subsection (1) shall be in the prescribed form and a copy of the application shall be served upon the requiring authority and the relevant territorial authority by the applicant.

(3) The Environment Court may make an order applied for under subsection (1) if it is satisfied that—

(a) the owner has tried but been unable to enter into an agreement for the sale of the estate or interest in the land subject to the designation or requirement at a price not less than the market value that the land would have had if it had not been subject to the designation or requirement; and

(b) either—

(i) the designation or requirement prevents reasonable use of the owner’s estate or interest in the land; or
(ii) the applicant was the owner, or the spouse, civil union partner, or de facto partner of the owner, of the estate or interest in the land when the designation or requirement was created.

(4) Before making an order under subsection (1) the court may direct the owner to take further action to try to sell the estate or interest in the land.

(5) If the Environment Court makes an order to take an estate or interest in land under the Public Works Act 1981, the owner of that estate or interest shall be deemed to have entered into an agreement with the requiring authority responsible for the designation or requirement for the purposes of section 17 of the Public Works Act 1981.

(6) Where subsection (5) applies in respect of a requiring authority which is a network utility operator approved under section 167—

(a) any agreement shall be deemed to have been entered into with the Minister of Lands on behalf of the network utility operator as if the land were required for a government work; and

(b) all costs and expenses incurred by the Minister of Lands in respect of the acquisition of the land shall be recoverable from the network utility operator as a debt due to the Crown.

(7) The amount of compensation payable for an estate or interest in land ordered to be taken under this section shall be assessed as if the designation or requirement had not been created.

186 Compulsory acquisition powers

(1) A network utility operator that is a requiring authority may apply to the Minister of Lands to have land required for a project or work acquired or taken under Part 2 of the Public Works Act 1981 as if the project or work were a government work within the meaning of that Act and, if the Minister of Lands agrees, that land may be taken or acquired.

(2) The effect of any Proclamation taking land for the purposes of subsection (1) shall be to vest the land in the network utility operator instead of the Crown.

(3) Land which is subject to a heritage order shall not be taken without the consent of the heritage protection authority.

(4) Any land held under any enactment or in any other manner by the Crown or a local authority may, with the consent of the Crown or that authority and on such terms and conditions (including price) as may be agreed, be set apart for a project or work of a network utility operator in the manner provided in sections 50 and 52 of the Public Works Act 1981 (with the necessary modifications), but the setting apart shall not be subject to sections 40 and 41 of that Act. Any land so set apart shall vest in the network utility operator.

(5) Any claim for compensation under the Public Works Act 1981 in respect of land acquired or taken in accordance with this section shall be made against the Minister of Lands.

191 Recommendation by territorial authority

(1) Subject to Part 2, when considering a requirement made under section 189, a territorial authority shall have regard to the matters set out in the notice given under section 189 (together with any further information and reports with which the authority is supplied), and all submissions, and shall also have particular regard to—
(a) whether the place merits protection; and
(b) whether the requirement is reasonably necessary for protecting the place to which the requirement relates; and
(c) whether the inclusion in the requirement of any area of land surrounding the place is necessary for the purpose of ensuring the protection and reasonable enjoyment of the place; and
(d) all relevant provisions of any national policy statement, New Zealand coastal policy statement, regional policy statement, regional plan, or district plan; and
(e) section 189(1); and
(f) as appropriate, management plans or strategies approved under any other Act which relate to the place.

(b) such other conditions as the territorial authority considers appropriate.

(4) The territorial authority shall give reasons for a recommendation made under subsection (2).

192 Application of other sections

The following sections shall, with all necessary modifications, apply in respect of a requirement under section 189 or section 189A as if the heritage protection authority was a requiring authority, the heritage order was a designation, and references to section 171 were references to section 191:

(a) section 172, which relates to decisions of requiring authorities:

(aa) section 170, which relates to the discretion to include requirements in proposed plans:

(b) section 173, which relates to public notification of such decisions:

(c) section 174, which relates to appeals against such decisions:

(d) section 175, which relates to the provision of designations in district plans:

(e) section 180, which relates to the transferability of designations.

(f) [Repealed]

193 **Effect of heritage order**

Where a heritage order is included in a district plan then, regardless of the provisions of any plan or resource consent, no person may, without the prior written consent of the relevant heritage protection authority named in the plan in respect of the order, do anything including—

(a) undertaking any use of land; and
(b) subdividing any land; and
(c) changing the character, intensity, or scale of the use of any land—

that would wholly or partly nullify the effect of the heritage order.

193A **Land subject to existing heritage order or designation**

(1) Subject to sections 9(2) and 11 to 15, where a heritage order is included in a district plan, and the land that is the subject of the heritage order is already the subject of an earlier heritage order or a designation,—

(a) the heritage protection authority responsible for the later heritage order may do anything that is in accordance with that heritage order only if that authority has first obtained the written consent of the authority responsible for the earlier order or designation; and

(b) the authority responsible for the earlier order or designation may, notwithstanding section 193 and without obtaining the prior written consent of the later heritage protection authority, do anything that is in accordance with the earlier order or designation.

(2) The authority responsible for the earlier designation or order may withhold its consent under subsection (1) only if that authority is satisfied—
(a) that, in the case of an earlier designation, the thing to be done would prevent or hinder the public work or project or work to which the designation relates; or
(b) that in the case of an earlier heritage order, the thing to be done would wholly or partly nullify the effect of the order.

194 Interim effect of requirement

(1) This section applies when—
(a) a heritage protection authority gives notice of a requirement for a heritage order to the EPA under section 145:
(b) a heritage protection authority gives notice of a requirement for a heritage order to a territorial authority under section 189:
(c) a territorial authority decides to issue a notice of requirement for a heritage order within its own district under section 189A:
(d) a territorial authority decides to include a requirement for a heritage order in its proposed district plan under clause 4 of Schedule 1.

(2) In the period that starts as described in subsection (3) and ends as described in subsection (4), no person may do anything that would wholly or partly nullify the effect of the heritage order unless the person has the prior written consent of the heritage protection authority.

(3) The period starts,—
(a) for the purposes of subsection (1)(a), on the day on which the heritage protection authority gives notice under section 145:
(b) for the purposes of subsection (1)(b), on the day on which the heritage protection authority gives notice of the requirement under section 189:
(c) for the purposes of subsection (1)(c), on the day on which the territorial authority decides whether to notify the notice of requirement under section 189A:
(d) for the purposes of subsection (1)(d), on the day on which the territorial authority decides to include a requirement for a heritage order in its proposed district plan under clause 4 of Schedule 1.

(4) The period ends on the earliest of the following days:
(a) the day on which the requirement is withdrawn;
(b) the day on which the requirement is cancelled;
(c) the day on which the heritage order is included in the district plan.

(5) A person who contravenes subsection (2) does not commit an offence against this Act unless the person knew, or could reasonably be expected to have known, of the existence of the requirement.

195 Appeals relating to sections 193 and 194
(1) Any person who—
(a) proposes to do anything in relation to land that is subject to a heritage order or requirement for a purpose which, but for the heritage order or requirement, would be lawful; and
(b) has been refused consent to undertake that use by a heritage protection authority under section 193 or section 194, or has been granted such consent subject to conditions—
may appeal to the Environment Court against the refusal or the conditions.

(2) Notice of an appeal under this section shall—
(a) state the reasons for the appeal and the relief sought; and
(b) state any matters required to be stated by regulations; and
(c) be lodged with the Environment Court and served on the heritage protection authority whose decision is appealed against, within 15 working days of receiving the heritage protection authority’s decision under section 193 or section 194.
(3) In considering an appeal under this section, the court shall have regard to—
(a) whether the decision appealed against has caused or is likely to cause serious hardship to the appellant; and
(b) whether the decision appealed against would render the land which is subject to the heritage order or requirement incapable of reasonable use; and
(c) the extent to which the decision may be modified without wholly or partly nullifying the effect of the requirement or heritage order—
and may confirm or reverse the decision appealed against or modify the decision in such manner as the court thinks fit.

195A Alteration of heritage order
(1) A heritage protection authority that is responsible for a heritage order may at any time give notice to the territorial authority of its requirement to alter the heritage order.
(2) Sections 189 to 195 apply, with all necessary modifications, to a requirement to alter a heritage order as if it were a requirement for a new heritage order.
(3) However, a territorial authority may at any time alter a heritage order in its district plan or a requirement in its proposed district plan if—
(a) the alteration—
   (i) involves no more than a minor change to the effects on the environment associated with the heritage order concerned; or
   (ii) involves only minor changes or adjustments to the boundaries of the heritage order or requirement; and
(b) written notice of the proposed alteration has been given to every owner or occupier of the land directly affected and those owners or occupiers agree with the alteration; and

397
Part 8 s 196 Resource Management Act 1991

Reprinted as at 16 December 2010

(c) the territorial authority and the heritage protection authority agree with the alteration.

(4) Sections 189 to 195 do not apply to an alteration under subsection (3).

(5) This section applies, with all necessary modifications, to a requirement by a territorial authority to alter its own heritage order or requirement within its own district.

196 Removal of heritage order

Section 182 shall apply, with all necessary modifications, in respect of the removal of heritage orders as if—

(a) a heritage protection authority was a requiring authority; and

(b) a heritage order was a designation, except that the removal of a heritage order from a district plan shall not take effect until 10 working days after notice of removal is received by the territorial authority or after the territorial authority gives notice of the removal of its heritage order in its own district.

197 Compulsory acquisition powers

(1) The acquisition of land by a heritage protection authority for the purposes of giving effect to a heritage order shall be deemed to be an acquisition of land, or an interest in land, for a public work for the purposes of the Public Works Act 1981.

(2) Where a heritage protection authority is neither the Crown nor a local authority, section 186 shall apply, with all necessary modifications, as if every reference to a network utility operator were a reference to a heritage protection authority.

198 Environment Court may order land taken, etc

(1) Upon application made to the Environment Court by the owner of an estate or interest in land (including a leasehold estate or interest) that is subject to a heritage order, or requirement
under section 189 or section 189A, if the court is satisfied that—

(a) the applicant was the owner or spouse, civil union partner, or de facto partner of the owner on the date when the heritage order was included in the district plan or the requirement was made; and

(b) the applicant has tried but been unable to enter into an agreement for the sale of the estate or interest in the land subject to the heritage order or requirement at a price not less than the market value the land would have had if it were not subject to the heritage order or requirement; and

(c) the heritage order or requirement renders or will render the land in respect of which it applies, incapable of reasonable use,—

the Environment Court may make an order giving the heritage protection authority the option of either withdrawing the requirement or causing the heritage order to be removed, as the case may be, or taking the land under the Public Works Act 1981.

(2) Before making an order under subsection (1), the court may direct the owner to take further action to try to sell the estate or interest in the land.

(3) If the court makes an order to take an estate or interest in land under the Public Works Act 1981, the owner of the land shall be deemed to have entered into an agreement with the heritage protection authority responsible for the heritage order or requirement for the purposes of section 17 of the Public Works Act 1981.

(4) Where subsection (3) applies in respect of a heritage protection authority that is neither the Crown nor a local authority—

(a) any agreement shall be deemed to have been entered into with the Minister for Land Information on behalf of the heritage protection authority as if the land were required for a government work; and

(b) all costs and expenses incurred by the Minister for Land Information in respect of the acquisition of the land shall be recoverable from the heritage protection authority as a debt due to the Crown.
(5) The amount of compensation payable for an estate or interest in land ordered to be taken under this section shall be assessed as if the heritage order or requirement had not been made.

Streamlining decision-making on designations and heritage orders

198A Sections 198B to 198G apply to requirements under section 168 or 189

(1) Sections 198B to 198G apply when a requiring authority or heritage protection authority wants one of the following requirements to be the subject of a decision by the Environment Court instead of a recommendation by a territorial authority and a decision by the requiring authority or heritage protection authority:

(a) a requirement for a designation under section 168 that has been notified:

(b) a requirement for a heritage order under section 189 that has been notified:

(2) If the notice of requirement is called in under section 142(2), sections 198B to 198G cease to apply to it.

198B Requiring authority or heritage protection authority’s request

(1) The requiring authority or heritage protection authority must request the relevant territorial authority to allow the requirement to be the subject of a decision by the Environment Court instead of a recommendation by the territorial authority and a decision by the requiring authority or heritage protection authority.

(2) The requiring authority or heritage protection authority must make the request in the period—

(a) starting on the date on which the requiring authority or heritage protection authority gives notice under section 168 or 189; and

(3) The requiring authority or heritage protection authority must make the request electronically or in writing on the prescribed form.

198C Territorial authority’s decision on request

(1) If the territorial authority receives the request after it has determined that the requirement will not be notified, it must return the request.

(2) If the territorial authority receives the request before it has determined whether the requirement will be notified, it must defer its decision on the request until after it has decided whether to notify the requirement and then apply either subsection (3) or (4).
(3) If the territorial authority decides not to notify the requirement, it must return the request.

(4) If the territorial authority decides to notify the requirement, it must give the requiring authority or heritage protection authority its decision on the request within 15 working days after the date of the decision on notification.

(5) In any other case, the territorial authority must give the requiring authority or heritage protection authority its decision on the request within 15 working days after receiving the request.

(6) No submitter has a right to be heard by the territorial authority on a request.

(7) If the territorial authority returns or declines the request, it must give the requiring authority or heritage protection authority its reasons, in writing or electronically, at the same time as it gives the authority its decision.

(8) If the territorial authority declines the request under subsection (4) or (5), the requiring authority or heritage protection authority may object to the territorial authority under section 357.

(2) If the territorial authority decides to grant the request under section 198B, it must continue to process the requirement and must comply with subsections (3) to (5).

(3) The territorial authority must prepare a report on the requirement within the longer of the following periods:
   (a) the period that ends 20 working days after the date on which the period for submissions on the requirement closes:

(4) In the report, the territorial authority may—
(a) address issues that are set out in section 171 or 191 to
the extent that they are relevant to the requirement; and
(b) suggest conditions that it considers should be imposed if
the Environment Court confirms the requirement (with
or without modifications).

prepared, the territorial authority must provide a copy to—
(a) the requiring authority or heritage protection authority;
and

   (b) may—
      (i) cancel the requirement; or
      (ii) confirm the requirement; or

      (ii) confirm the requirement; or
      (iii) confirm the requirement, but modify it or impose conditions on it as the court thinks fit (including a condition that the heritage protection authority reimburse the owner of the place concerned for any additional costs of upkeep of the place resulting from the making or the modifying of the order).

198F Residual powers of territorial authority
The territorial authority that would have dealt with the requirement had the Environment Court not done so under section 198E has all the functions, duties, and powers in relation to the designation or heritage order resulting from the requirement as if it had dealt with the requirement itself.

216 Revocation or variation of order

(1) Until the expiration of 2 years after the date a water conservation order is made under section 214 (or under the corresponding provision of any former enactment),—
(a) no application shall be made to the Minister to revoke any such order; and
(b) the Minister shall reject any application made under subsection (2) to amend any such order unless, after having regard to the purposes of the order and the restrictions and prohibitions imposed by the order, the
Minister is satisfied that the amendment to which the application relates—
(i) will have no more than a minor effect; or
(ii) is of a technical nature and would enable the order to better achieve any purpose for which it was made; and
(c) no recommendation shall be made to the Governor-General—
(i) to revoke any such order; or
(ii) to amend any such order unless the Minister is satisfied that the amendment is of a minor nature or of a technical nature which would enable the order to better achieve any purpose for which it was made.

(2) Except as provided in subsection (1), any person may at any time apply to the Minister for the revocation or amendment of any water conservation order, and every such application shall state the reasons for the application.

(3) Upon receipt of an application made under subsection (2), if—

   (b) shall not grant a water permit, a coastal permit, or a discharge permit to discharge water or contaminants into water, unless the grant of any such permit or the combined effect of the grant of any such permit and of existing water permits and discharge permits and existing lawful discharges into the water or taking, use, damming, or diversion of the water is such that the provisions of the water conservation order can remain without change or variation:
   (c) shall, in granting any water permit, coastal permit, or discharge permit to discharge water or contaminants into water, impose such conditions as are necessary to ensure that the provisions of the water conservation order are maintained.

Part 10

(b) not subject to that Act and was acquired by its owner under 1 instrument of conveyance—
shall be deemed to be a continuous area of land notwithstanding that part of it is physically separated from any other part by a road or in any other manner whatsoever, unless the division of the allotment into such parts has been allowed by a subdivision consent granted under this Act or by a subdivisional approval under any former enactment relating to the subdivision of land.

(4) For the purposes of subsection (2), the balance of any land from which any allotment is being or has been subdivided is deemed to be an allotment.

[Repealed]

220 Condition of subdivision consents

(1) Without limiting section 108 or any provision in this Part, the conditions on which a subdivision consent may be granted may include any 1 or more of the following:

(a) where an esplanade strip is required under section 230, a condition specifying the provisions to be included in
the instrument creating the esplanade strip under section 232:

(a) a condition requiring an esplanade reserve to be set aside in accordance with section 236:

(b) subject to subsection (2), a condition that any specified part or parts of the land being subdivided or any other adjoining land of the subdividing owner be—

(i) transferred to the owner of any other adjoining land and amalgamated with that land or any part thereof; or

(ii) amalgamated, where the specified parts are adjoining; or

(iii) amalgamated, whether the specified parts are adjoining or not, for any purpose specified in a district plan or necessary to comply with any requirement of the district plan; or

(c) a condition that any allotment be subject to a requirement as to the bulk, height, location, foundations, or height of floor levels of any structure on the allotments:

(d) a condition that provision be made to the satisfaction of the territorial authority for the protection of the land or any part thereof, or of any land not forming part of the subdivision, against erosion, subsidence, slippage, or inundation from any source (being, in the case of land not forming part of the subdivision, subsidence, slippage, erosion, or inundation arising or likely to arise as a result of the subdividing of the land the subject of the subdivision consent):

(f) a condition requiring that any easements be duly granted or reserved:

(g) a condition requiring that any existing easements in respect of which the land is the dominant tenement and which the territorial authority considers to be redundant, be extinguished, or be extinguished in relation to any specified allotment or allotments.

(2) For the purposes of subsection (1)(b)—

(a) where any condition requires land to be amalgamated, the territorial authority shall, subject to subsection (3), specify (as part of that condition) that such land be held in 1 certificate of title or be subject to a covenant entered into between the owner of the land and the territorial authority that any specified part or parts of the land shall not, without the consent of the territorial authority, be transferred, leased, or otherwise disposed of except in conjunction with other land; and

(b) land shall be regarded as adjoining other land notwithstanding that it is separated from the other land only by a road, railway, drain, water race, river, or stream.

(3) Before deciding to grant a subdivision consent on a condition described in subsection (1)(b), the territorial authority shall consult with the Registrar-General of Land as to the practicality of that condition. If the Registrar-General of Land advises the territorial authority that it is not practical to impose a particular condition, the territorial authority shall not grant a subdivision consent subject to that condition, but may if it thinks fit grant a subdivision consent subject to such other conditions under subsection (1)(b) which the Registrar-General of Land advises are practical in the circumstances.

221 Territorial authority to issue a consent notice

(1) Where a subdivision consent is granted subject to a condition to be complied with on a continuing basis by the subdividing owner and subsequent owners after the deposit of a survey plan (not being a condition in respect of which a bond is required to be entered into by the subdividing owner, or a completion certificate is capable of being or has been issued), the territorial authority shall, for the purposes of section 224, issue a consent notice specifying any such condition.

(2) Every consent notice must be signed by a person authorised by the territorial authority to sign consent notices.

(3) At any time after the deposit of the survey plan,—

(b) to be a covenant running with the land when registered under the Land Transfer Act 1952, and shall, notwithstanding anything to the contrary in section 105 of the Land Transfer Act 1952, bind all subsequent owners of the land.

(5) Where a consent notice has been registered under the Land Transfer Act 1952 and any condition in that notice has been varied or cancelled after an application or review under subsection (3) or has expired, the Registrar-General of Land shall, if he or she is satisfied that any condition in that notice has
been so varied or cancelled or has expired, make an entry in the register and on any relevant instrument of title noting that the consent notice has been varied or cancelled or has expired, and the condition in the consent notice shall take effect as so varied or cease to have any effect, as the case may be.

222 Completion certificates

(1) Where under this Part, compliance with a condition of a subdivision consent is dependent on the completion by the owner of any work required by the territorial authority or on the making of a financial contribution (as defined in section 108(9)), the territorial authority may, for the purposes of section 224, issue a certificate to the effect that the owner has entered into a bond binding the owner to carry out and complete the work or make the financial contribution (as the case may be) to the satisfaction of the territorial authority within such period as the territorial authority may specify.

(2) The territorial authority may from time to time extend any period specified by it under subsection (1), but any such extension shall not affect any security given for the performance of the bond.

(3) The territorial authority may exercise all of the powers conferred upon a consent authority by section 108A as if the bond entered into under this section had been required as a condition of a subdivision consent.

(4) The provisions of section 109 shall apply as if the bond entered into under this section had been required as a condition of a subdivision consent.
(5) In this section, the term work includes anything, whether in the nature of works or otherwise, required by the territorial authority to be done by the owner as a condition of a subdivision consent; but does not include contributions of money or land (including esplanade reserves and esplanade strips) as a condition of a subdivision consent.

      (ii) is as reliable as is appropriate to the purposes of this section.

(5) A certificate under subsection (3) is conclusive evidence that all roads, private roads, reserves, land vested in the authority in lieu of reserves, and private ways shown on the survey plan have been authorised and accepted by the territorial authority under this Act and under the Local Government Act 1974.

(6) Nothing in subsection (3) affects any obligation of the subdividing owner under any condition of a subdivision consent or bond entered into relating to the subdivision.

**Esplanade reserves**

**229 Purposes of esplanade reserves and esplanade strips**

An esplanade reserve or an esplanade strip has 1 or more of the following purposes:
(a) to contribute to the protection of conservation values by, in particular,—
   (i) maintaining or enhancing the natural functioning of the adjacent sea, river, or lake; or
   (ii) maintaining or enhancing water quality; or
   (iii) maintaining or enhancing aquatic habitats; or
   (iv) protecting the natural values associated with the esplanade reserve or esplanade strip; or
   (v) mitigating natural hazards; or
(b) to enable public access to or along any sea, river, or lake; or
(c) to enable public recreational use of the esplanade reserve or esplanade strip and adjacent sea, river, or lake, where the use is compatible with conservation values.

230 Requirement for esplanade reserves or esplanade strips

(1) For the purposes of sections 77, 229 to 237H, and 405A, the size of any allotment shall be determined before any esplanade reserve or esplanade strip is set aside or created, as the case may be.

(2) The provisions of sections 229 to 237H shall only apply where section 11(1)(a) applies to the subdivision.

(3) Except as provided by any rule in a district plan made under section 77(1), or a resource consent which waives, or reduces the width of, the esplanade reserve, where any allotment of less than 4 hectares is created when land is subdivided, an esplanade reserve 20 metres in width shall be set aside from that allotment along the mark of mean high water springs of the sea, and along the bank of any river or along the margin of any lake, as the case may be, and shall vest in accordance with section 231.

(4) For the purposes of subsection (3), a river means a river whose bed has an average width of 3 metres or more where the river flows through or adjoins an allotment; and a lake means a lake whose bed has an area of 8 hectares or more.

(5) If any rule made under section 77(2) so requires, but subject to any resource consent which waives, or reduces the width of,
the esplanade reserve or esplanade strip, where any allotment of 4 hectares or more is created when land is subdivided, an esplanade reserve or esplanade strip shall be set aside or created from that allotment along the mark of mean high water springs of the sea and along the bank of any river and along the margin of any lake, and shall vest in accordance with section 231 or be created in accordance with section 232, as the case may be.

231 Esplanade reserves to vest on subdivision

(1) An esplanade reserve required under section 230 or section 236—
   (a) shall be set aside as a local purpose reserve for esplanade purposes under the Reserves Act 1977; and
   (b) shall vest in and be administered by the territorial authority.

(2) Nothing in this Part shall prevent the change of classification or purpose of an esplanade reserve in accordance with the Reserves Act 1977 or the exercise of any other power under that Act.

(3) Every survey plan submitted to the territorial authority under section 223 shall show the area of land to be so set aside.

232 Creation of esplanade strips

(1) An esplanade strip of the width specified in a rule in a district plan made under section 77 may be created for any purpose specified in section 229 by the registration of an instrument between the territorial authority, and the subdividing owner, prepared in accordance with this section.

(2) Every such instrument shall—
   (a) be in accordance with Schedule 10; and
   (b) be in the prescribed form; and

(c) be created in favour of the territorial authority; and
(d) create an interest in land, and may be registered under the Land Transfer Act 1952; and
(e) when registered with the Registrar-General of Land, run with and bind the land that is subject to the instrument; and
(f) bind every mortgagee or other person having an interest in the land, without that person's consent.

(3) Where an esplanade strip is created, that strip may be closed to public entry under section 237C.

(4) When deciding under section 220(1)(a) which matters shall be provided for in the instrument, the territorial authority shall consider—

(a) which provisions in clauses 2, 3, and 7 of Schedule 10 (if any) to modify (including the imposition of conditions) or to exclude from the instrument; and
(b) any other matters that the territorial authority considers appropriate to include in the instrument.

(5) When deciding under subsection (4) which provisions (if any) to modify or exclude or what other matters to include, the territorial authority shall consider—

(a) any relevant rules in the district plan; and
(b) the provisions and other matters included in any existing instrument for an esplanade strip, or easement for an access strip, in the vicinity; and
(c) the purpose or purposes of the strip, including the needs of potential users of the strip; and
(d) the use of the strip and adjoining land by the owner and occupier; and
(e) the use of the river, lake, or coastal marine area within or adjacent to the strip; and
(f) the management of any reserve in the vicinity.
233 Effect of change to boundary of esplanade strip

(1) Where, for any reason, the mark of any mean high water springs or the bank of any river or the margin of any lake alters, and the alteration affects an existing esplanade strip within an allotment, a new esplanade strip coinciding with such alteration shall be deemed to have been created simultaneously with each and every such alteration within the allotment.

(2) Any instrument creating any existing esplanade strip shall continue in existence and shall apply to a new esplanade strip created under subsection (1) without alteration, except as to location of the strip.

(3) Every esplanade strip created by subsection (1) shall be of such dimensions and be situated and subject to the same conditions as if it had been created by an instrument continued under subsection (2) and shall extinguish in whole or in part, as the case may require, the existing esplanade strip which would have continued but for the alterations referred to in subsection (1).

(4) Subject to this section, the provisions of this Act shall apply to every esplanade strip created by subsection (1).

(5) Any person having an interest in land affected by the new esplanade strip created under subsection (1) shall be bound by the instrument applying to that strip.

234 Variation or cancellation of esplanade strips

(1) The registered proprietor of any land subject to an esplanade strip may apply to the territorial authority to vary or cancel the instrument creating the strip.

(2) The application shall include—
(a) a description of the strip and its location; and
(b) an assessment of the effects of varying or cancelling the strip.

(3) The territorial authority may at any time initiate a proposal to vary or cancel the instrument creating an esplanade strip by preparing a statement covering the matters specified in subsection (2); and references to an application in this section shall include a statement made under this subsection.
(4) Upon receipt of an application under subsection (1) by the territorial authority, or after the preparation of a statement by the territorial authority under subsection (3), the provisions of sections 127 to 132 shall apply as appropriate, with all necessary modifications.

(5) The territorial authority, when considering an application to vary or cancel any instrument creating an esplanade strip shall have regard to—
   (a) those matters set out in section 104(1), with all necessary modifications; and
   (b) the purpose or purposes, as set out in section 229, for which the strip was created; and
   (c) any change in circumstances which has made the strip or any of the conditions in the instrument creating the strip inappropriate or unnecessary.

(6) After considering the application for variation or cancellation of an instrument creating an esplanade strip, the territorial authority—
   (a) may grant the application, with or without modifications; or
   (b) may decline the application.

(7) When all the appeals (if any) are finally determined, the territorial authority shall lodge for registration with the Registrar-General of Land a certificate, signed by the chief executive or other authorised officer of the territorial authority, specifying the variations to the instrument or that the instrument is cancelled, as the case may be.

(8) The Registrar-General of Land shall make an appropriate entry in the register and on the instrument noting that the instrument has been varied or cancelled, and the instrument shall take effect as so varied or cease to have any effect, as the case may be.

235 Creation of esplanade strips by agreement

(1) An esplanade strip may at any time be created for any of the purposes specified in section 229 by agreement between the registered proprietor of any land and the local authority, and the provisions of sections 229, 232, 233, 234, 237(2), and 237C shall apply, with all necessary modifications.

(2) No instrument for an esplanade strip by agreement may be registered with the Registrar-General of Land unless every person having a registered interest in the land has endorsed his or her consent on the instrument.

236 Where land previously set aside or reserved

Where—

(a) land along the mean high water mark or the mark of mean high water springs of the sea, or along the bank of any river, or along the margin of any lake, has—

(i) been set aside as an esplanade reserve under this Part, or has been reserved for the purpose specified in section 289 of the Local Government Act 1974, or for public purposes pursuant to section 29(1) of the Counties Amendment Act 1961 or section 11 of the Land Subdivision in Counties Act 1946; or

(ii) been set aside or reserved for public recreation purposes pursuant to any other enactment (whether passed before or after the commencement of this Act and whether or not in force at the commencement of this Act); or
(iii) been reserved from sale or other disposition pursuant to section 24 of the Conservation Act 1987, or section 58 of the Land Act 1948, or the corresponding provisions of any former Act; and

(b) a survey plan of land adjoining that land previously set aside or reserved is submitted to the territorial authority under section 223—

then, notwithstanding that any land of the kind referred to in paragraph (a) has been previously reserved or set aside but subject to any rule in a district plan or any resource consent, there may, as a condition of consent under section 220(1)(aa), be set aside on the survey plan an esplanade reserve adjoining the land previously set aside or reserved, which shall—

(c) be of a width that is the difference between the width of the land previously set aside or reserved and—

(i) the width required by a rule in a district plan under section 77 for an esplanade reserve, if any, where any allotment 4 hectares or more is created when land is subdivided; or

(ii) the width required by a rule in a district plan under section 77 for an esplanade reserve, if any, where any allotment less than 4 hectares is created when land is subdivided; or

(iii) where any allotment less than 4 hectares is created when land is subdivided, and there is no rule in a district plan under section 77, then 20 metres as required under section 230.

237 Approval of survey plans where esplanade reserve or esplanade strips required

(1) Subject to subsection (3), the territorial authority shall not approve a survey plan unless any esplanade reserve or esplanade strip required under this Part is shown on the survey plan.

(2) Notwithstanding anything in the Land Transfer Act 1952, an esplanade strip shall not be required to be surveyed, but where
an esplanade strip is shown on the survey plan, it shall be clearly identified in such manner as the Chief Surveyor considers appropriate.

(3) Where—

(a) an esplanade reserve or esplanade strip is required under this Part in respect of a subdivision which is to be effected by the grant of a cross lease or company lease or by the deposit of a unit plan; and

(b) it is not practical to show the esplanade reserve or esplanade strip on the survey plan submitted for approval under section 223 (in this section referred to as the primary survey plan)—

the territorial authority, after consultation with the Registrar-General of Land, shall not approve the primary survey plan until a separate survey plan showing the esplanade reserve or esplanade strip has been prepared and submitted to the territorial authority for approval under this section.

(4) Where the territorial authority approves a separate survey plan under subsection (3)—

(a) a memorandum to that effect shall be endorsed on the primary survey plan and the separate survey plan; and

(b) the Registrar-General of Land shall not deposit the primary survey plan and (in respect of a subdivision by the Crown) the Registrar-General of Land shall not issue a certificate of title for any separate allotment on the primary survey plan approved by the Chief Surveyor for the purposes of section 228, unless the separate survey plan on which the esplanade reserve or esplanade strip is shown is deposited prior to, or at the same time as, the primary survey plan.

(5) Subject to this section, nothing in section 11 or this Part applies to a separate survey plan approved by a territorial authority under this section.

237A Vesting of ownership of land in coastal marine area or bed of lake or river in the Crown or territorial authority

(1) Where a survey plan is submitted to a territorial authority in accordance with section 223, and any part of the allotment being subdivided is the bed of a river or lake or is within the coastal marine area, the survey plan shall—
   (a) show as vesting in the territorial authority—
      (i) such part of the allotment as forms part of the bed of a river or lake and adjoins an esplanade reserve shown as vesting in the territorial authority; or
      (ii) such part of the allotment as forms part of the bed of a river or lake and is required to be so vested as a condition of a resource consent:
   (b) show as vesting in the Crown any part of the allotment that is in the coastal marine area.

(2) Any requirement to vest the bed under subsection (1)(a)(i) or subsection (1)(b) shall be subject to any rule in a district plan or any resource consent which provides otherwise.

(2) Any such easement shall—
   (a) be executed by the local authority and the registered proprietor; and
   (b) be in the prescribed form; and
(c) contain the relevant provisions in accordance with Schedule 10.

(3) When deciding which matters shall be provided for in the easement, the parties shall consider—
(a) which provisions in clauses 2, 3, and 7 of Schedule 10 (if any) to modify (including by the imposition of conditions) or to exclude from the easement; and
(b) any other matters that the local authority and registered proprietor consider appropriate to include in the easement.

(4) When deciding under subsection (3) which provisions (if any) to modify or exclude or what other matters to include, the parties shall consider—
(a) any relevant rules in the district plan; and

(e) where appropriate, the use of the river, lake, or coastal marine area within or adjacent to the access strip; and
(f) the management of any reserve in the vicinity.

(5) Any such easement shall take effect when registered at the office of the Registrar-General of Land.

(6) An access strip may be closed to public entry under section 237C.

(7) No easement for an access strip may be registered with the Registrar-General of Land unless every person having a registered interest in the land has endorsed his or her consent on the easement.

(8) The registered proprietor and the local authority may, by agreement, vary or cancel the easement if the matters in subsection (4) and any change in circumstances have been taken into account; and in any such case the provisions of section 234(7) and (8) shall apply, with all necessary modifications.

237C Closure of strips to public
(1) An esplanade strip or access strip may be closed to the public for the times and periods specified in the instrument or easement under Schedule 10, or by the local authority during periods of emergency or public risk likely to cause loss of life, injury, or serious damage to property.

(2) The local authority shall ensure, where practicable, that any closure specified in the instrument or easement, or any closure for safety or emergency reasons, is adequately notified (including notification that it is an offence to enter the strip during the period of closure) to the public by signs erected at all entry points to the strip, unless the instrument or easement provides that another person is responsible for such notification.

237D Transfers to the Crown or regional council
(1) Notwithstanding the provisions of the Reserves Act 1977, the Minister of Conservation or a regional council may, with the prior written agreement of the territorial authority, declare by notice in the Gazette that an esplanade reserve, or any part of an esplanade reserve,—

(a) shall cease to be vested in and administered by the territorial authority but instead shall vest in the Crown or the regional council; and

(b) shall have such classification under the Reserves Act 1977 as may be specified in the Gazette notice, or shall be included in any existing reserve under that Act,—

and, subject to the provisions of the Reserves Act 1977, the reserve shall be administered in accordance with that classification.

(2) The Minister of Conservation or a regional council may, with the prior written agreement of the territorial authority, declare

   (a) the court considers it appropriate after having regard to the time that has elapsed and any change in circumstances since the approval or granting, as the case may be; or

(2) Where any person is under a duty not to contravene a rule in a proposed plan under sections 9, 12(3), 14(2), or 15(2), an abatement notice may be issued to require a person—

323 Compliance with abatement notice
   (1) Subject to the rights of appeal in section 325, a person on whom an abatement notice is served shall—

(3) Every direction under subsection (1) shall prohibit the person to whom it is given, and every other person bound by the direction, from causing or contributing to the emission of excessive noise from or within the vicinity of the place at any time during the period of 72 hours or such shorter period as the enforcement officer or constable specifies, commencing at the time the direction is given.

enter the place without notice and—
(a) seize and remove from the place; or  
(b) render inoperable by the removal of any part from; or  
(c) lock or seal so as to make unusable—
any instrument, appliance, vehicle, aircraft, train, or machine
that is producing or contributing to the excessive noise.

(5) Where any enforcement officer or constable enters any place

(c) section 261 of the Coal Mines Act 1979,—

shall not affect any right, interest, or title, to any land or water acquired, accrued, established by, or vested in, the Crown before the date on which this Act comes into force, and every such right, interest, and title shall continue after that date as if those enactments had not been repealed.

(2) Any person may take, use, dam, divert, or discharge into, any water in which the Crown has an interest, without obtaining the consent of the Crown, if the taking, use, damming, diversion, or discharge by that person does not contravene this Act or regulations.

(3) Any person may use or occupy any land and any related part of the coastal marine area in which the Crown has a right, interest, or title, without obtaining the consent of the Crown under the Land Act 1948 or the Foreshore and Seabed Endowment Revesting Act 1991 or the Foreshore and Seabed Act 2004, if the use or occupation by that person does not contravene this Act or regulations.

355 Vesting of reclaimed land

(1) Any person or local authority may apply to the Minister of Conservation for any right, title, or interest in any land in the coastal marine area which is land of the Crown and which has been reclaimed or is proposed to be reclaimed to be vested in that person.

(2) Any person may apply to the Minister of Lands for any right, title, or interest in any land—

(a) which forms part of a riverbed or lakebed which is land of the Crown; and

(b) which has been reclaimed or is proposed to be reclaimed—

to be vested in that person.

(3) Without limiting section 355AA, the relevant Minister may, if he or she thinks fit, by notice in the Gazette, vest in the applicant any right, title, or interest in any area of reclaimed land which is land of the Crown after—

**355AA Effect of Foreshore and Seabed Act 2004 on vesting of reclamation**

(1) If an application is made under section 355(1) that relates to land reclaimed from the public foreshore and seabed, the Minister of Conservation may vest in the applicant a right, title, or interest in the relevant land under section 355(3).

(2) However, subsection (1) applies only if, before the commencement of section 13(1) of the Foreshore and Seabed Act 2004,—

(a) a coastal permit has been granted to carry out the reclamation; or

(b) the Minister of Conservation has entered into a written agreement with the applicant to vest a right, title, or interest in the relevant land; or

(c) an enactment has provided for a right, title, or interest in the relevant land to be vested in the applicant.
(3) If subsection (1) does not apply, the Minister of Conservation—
   (a) must not vest an estate in fee simple in the relevant land; but
   (b) may vest in the applicant a lesser right, title, or interest in the reclaimed land.

(4) Subsection (3)(b) applies,—
   (a) in the case of a port company or port operator referred to in section 107B(2)(e),—
      (i) for a leasehold interest granted to it, so long as that interest does not exceed 50 years (though it may include a perpetual right of renewal on the same terms as the original lease, to the extent that the land continues to be used for port facilities):
      (ii) for any other interest granted to it, so long as that interest, together with any rights of renewal, does not exceed 50 years; and
   (b) in the case of any other entity, so long as the interest granted to it, together with any rights of renewal, does not exceed 50 years.

(5) In vesting an interest in reclaimed land under subsection (4), the Minister of Conservation may impose encumbrances or restrictions on the right, title, or interest in order to—
   (a) control the use to which the land may be put:
   (b) protect access rights in the coastal marine area, subject to any limits imposed by or under any enactment.

355AB Application for renewals
(1) The holder of a right, title, or interest granted under section 355AA(3)(b)—
   (a) may apply to the Minister of Conservation, not later than 3 months before the expiry of the existing right, title, or interest, for a renewal of the right, title, or interest in the same, or part of the same, relevant land; and
   (b) has the right to have the application considered and determined before any other application may be considered for a right, title, or interest in the same land.
(2) If an application is made under subsection (1), the holder may continue to operate under the existing right, title, or interest until the application is determined.

355A Application for consent to unlawful reclamation
(1) Where land has at any time (whether before or after the date of commencement of this Act) been reclaimed from the coastal marine area unlawfully, any person may apply under section 88 to the relevant consent authority for, and the consent authority may grant to that person, a coastal permit consenting to that reclamation, as if the land were still situated within the coastal marine area.

(2) The provisions of Part 6 apply in respect of any application made under subsection (1).

355B Enforcement powers against unlawful reclamations
(1) Where, since the date of commencement of this Act, any land has been unlawfully reclaimed from the coastal marine area, the powers of the Minister of Conservation and a regional council under Part 12 apply to that reclaimed land as if the land were still situated within the coastal marine area.

(2) Where any land has been unlawfully reclaimed from the coastal marine area before the commencement of this Act, the Minister of Conservation or a regional council may seek an enforcement order against the person who reclaimed the land, or the occupier of the reclaimed land, requiring that person to take such action as, in the opinion of the Environment Court, is necessary in order to avoid, remedy, or mitigate any actual or likely adverse effect on the environment caused by the carrying out of the reclamation or by the reclaimed land; and in any such case Part 12 applies with all necessary modifications.

(3) Whether or not an enforcement order has been sought or granted under subsection (2), the Minister of Conservation or a regional council, either jointly or severally, may take any
necessary action to remove the unlawfully reclaimed land from the coastal marine area.

(4) For the avoidance of doubt, any action taken under subsection (3) to remove any reclaimed land requires a resource consent unless expressly allowed by a rule in a regional coastal plan and any relevant proposed regional coastal plan.

356 Matters may be determined by arbitration
(1) Except as provided in subsection (2), where—
(a) any persons are unable to agree about any matter in respect of which any of those persons has a right of appeal under this Act; and
(b) every person who has such a right of appeal agrees—any of those persons may apply to the Environment Court for an order authorising the matter to be determined by arbitration, under the Arbitration Act 1908, on such terms and conditions as the court considers appropriate.

(2) No person may apply to the Environment Court for an order under subsection (1) in relation to any of the following matters:
(a) any matter relating to a requirement, designation, or heritage order:
(b) any matter relating to an application for a resource consent in respect of which the Minister has made a direction under section 141C:
(c) any matter relating to a proposed regional policy statement or proposed regional coastal plan.

(3) Where an order under subsection (1) is made no person may, in relation to the matter to which the order relates, lodge or proceed with any appeal without the leave of the court.

(4) Subject to the terms of any order made under subsection (1), the arbitrator has the same powers, duties, and discretions in respect of any decision to which the order relates as the consent authority who made that decision; and may, in his or her award, confirm, amend, or cancel any such decision accordingly.

(5) Except as otherwise expressly provided, nothing in this section shall limit the right of any persons to refer to arbitration any disputed matter arising under this Act.

   (a) it had, on 30 September 1991, a right to occupy the coastal marine area adjacent to any port related commercial undertaking; and
   (b) such occupation is required for any purpose associated with the operation and management of that undertaking—
may, in consultation with the appropriate regional council, prepare a draft coastal permit to authorise that occupation.

(2) Every such draft coastal permit shall state that it is to expire on the 30 September 2026 or such earlier date as the port company specifies.

(3) Every such draft coastal permit shall identify the location to which it relates; and may identify the location by a plan attached to the draft permit.

(4) The draft permit and any plan shall be forwarded to the Minister of Transport, along with written notice of any disagreements between the port company and regional council, and submissions by the port company and regional council on the disagreements, before 30 November 1993.

   (a) the draft permit; and
   (b) any disagreements; and
   (c) the port company plan approved or determined under section 22 of the Port Companies Act 1988; and

(8) The Minister of Transport’s decision, which shall be a coastal permit, shall be sent to the Minister of Conservation, the appropriate regional council, territorial authority, and port company before 31 March 1994; and that decision shall be final unless an application for review under Part 1 of the Judicature Amendment Act 1972, or proceedings seeking a writ of, or in the nature of, mandamus, prohibition, or certiorari, or a declaration or injunction in relation to that decision, is made.

(9) The appropriate regional council shall ensure that a record of the coastal permit, as decided by the Minister of Transport, is available to the public as required under section 35.

(10) Where—

(a) a regional council receives an application from any person, except a port company; and

(b) that application is for a coastal permit to occupy part of the coastal marine area which may be all or part of any area which a port company may have a right to occupy; and

(c) the written consent of the port company to the granting of the permit has not been obtained; and

(d) the Minister of Transport has not sent the regional council a decision on a coastal permit under subsection (8) relating to all or part of the area to which the application relates—

the consent authority shall, notwithstanding any other provision, adjourn any consideration or hearing of the application until the Minister of Transport has sent his or her decision:

provided that, where the application is made by a person who owns or has an interest in land immediately adjacent to the
coastal marine area sought to be occupied, the application shall not be adjourned but shall in all cases be publicly notified.

(i) is also authorised by a discharge permit deemed to be granted by subsection (1)(b) or by virtue of the operation of section 391 or section 391A; or
(ii) immediately before the date of commencement of this Act could lawfully have been carried out without being authorised by a permission referred to in subsection (1)(b):

(5) The date of expiry of any discharge permit deemed to be granted by subsection (1) shall be 1 year after the date on which the permission would have expired if this Act had not been passed.

(2) Where the effect of any determination under this section is that the permission, licence, or permit is granted, the grant shall constitute the grant of a resource consent of the appropriate kind under this Act; and this Act shall apply accordingly.

390A Appeals

(1) All appeals to the Environment Court arising out of applications for permissions covered by section 389(1)(a)(i), that were lodged with the Environment Court before the date of commencement of this Act and were not completed at that date shall be continued and completed in all respects (whether or not any hearing has commenced) as if the enactments repealed by this Act continued in force.

(2) Where any applicant or other person had a right of appeal to the Environment Court—
   (a) in any case where a determination of an application for a permission of a kind described in section 389(1)(a)(i) had been made before the date of commencement of this Act, and the right of appeal had not expired on the date of commencement of the Act; or
   (b) in respect of a determination made under section 390 on an application for a permission of a kind described in section 389(1)(a)(i)—
      the applicant or other person may, notwithstanding the repeal or amendment of any enactment by this Act, continue to exercise that right; and any such appeal shall be continued and completed as if the relevant enactment so repealed or amended continued in force or continued in force without amendment, as the case may be.

(3) Any person who, if this Act had not been enacted, had—
   (a) a right of appeal on any question of law; or
   (b) a right to make an application for review—
      in respect of any determination of any application or of the determination of any appeal, to which this section or section 389(1)(a)(i) applies, may continue to exercise that right.
(4) Where the effect of any determination made under this section is that the permission is granted, the grant shall constitute the grant of a resource consent of the appropriate kind under this Act; and this Act shall apply accordingly.

(5) For the purposes of this section, the term right of appeal includes the hearing and determination of the appeal (including an appeal where the notice of appeal was lodged and the date for the lodging of the appeal expired before 1 October 1991).

390B Date on which application deemed to be made

(1) Except as provided in section 390, every application to which section 389 applies (unless dealt with under section 390A) shall be deemed to be made—

(a) on the date of commencement of this Act, where the person who is empowered to decide the application by the enactment under which the application was made remains the relevant consent authority; or

(b) without limiting section 399, on the date it is received by the relevant consent authority if subsection (2) applies.

(2) Where, in respect of any application to which section 389(1) applies, the person who was empowered to decide the application by the enactment under which the application was made is no longer the relevant consent authority, that person shall, as soon as practicable, endorse on the application the date on which it was made and refer the application, and all information relevant to it, to the relevant consent authority.

390C Dealing with applications for permissions

(1) Where an application to which section 389(1) applies has, before the commencement of this Act, been publicly notified or advertised in accordance with the enactment under which the application was made—
(a) the application shall not be notified under sections 95 to 95F; and
(b) any objection or submission in respect of the application that has been or is made in accordance with that public notification or advertisement, and which has not been withdrawn, shall be deemed to be a submission made under section 96—
but otherwise the provisions of this Act shall apply in respect of the application.

(2) Where the enactment under which the application to which section 389(1) applies did not require the application to be publicly notified or advertised, the application shall not be notified under sections 95 to 95F; but otherwise the provisions of this Act shall apply in respect of the application.

(3) The granting or declining of an application to which section 389(1) applies—
(a) constitutes the granting or declining of a resource consent of the appropriate kind under this Act, notwithstanding that all the requirements of this Act in relation to the application for, and determination of, resource consents may not have been complied with; and
(b) may be appealed against in accordance with this Act.

390D Timing for renewals
(1) Where the holder of a permission, licence, permit, or order referred to in either section 389(1) or section 389(2) (in this section called an approval), before the expiry of the approval and before 1 January 1992, made an application for a new approval or resource consent for the same activity, that application shall be deemed to have been made at least 6 months before the expiry of the original approval; and the provisions of section 124 shall apply accordingly.
(2) Notwithstanding any other provision of this Act, for the purposes of subsection (1) the date of application shall be the date on which the application was lodged with the then appropriate consent authority, and not the date on which it was received by the relevant consent authority under this Act.

391 Applications for licences and approvals under Clean Air Act 1972

(1) Where, before the date of commencement of this Act, an application has been made for—
(a) a licence within the meaning of the Clean Air Act 1972; or
(b) an approval under section 31 of that Act in respect of any scheduled premises within the meaning of that Act—
and the application has not been granted, declined, or withdrawn before that date, the licensing authority shall, as soon as reasonably practicable, decide whether the application is to be dealt with after that date—
(c) by the licensing authority, in accordance with the Clean Air Act 1972 as if this Act had not been enacted; or
(d) by the licensing authority, in accordance with the Clean Air Act 1972 as if this Act had not been enacted, but having regard to the matters set out in section 104 (which deals with matters to be considered on an application for a resource consent); or
(e) by the appropriate consent authority, in accordance with this Act, as if the application had been made under this Act—
and any such decision shall be final and not subject to appeal to, or review by, any court or the Environment Court.

(2) When making a decision for the purposes of subsection (1), the licensing authority shall have regard to—
(a) the progress made in consideration of the application; and
(b) any representations (whether written or not) made to the authority by the applicant and any other person as to the appropriate manner of dealing with the application—and shall also ensure that written notice of the decision and anything that the applicant is required to do as a result of the decision is served, as soon as reasonably practicable after the decision is made, on every person (including the applicant) whom the licensing authority considers should receive notice.

(3) Where the licensing authority decides that the application should be dealt with in accordance with subsection (1)(e), the licensing authority shall as soon as reasonably practicable refer the application, and all information relevant to it, to the relevant consent authority and, for the purposes of section 88, the application shall be deemed to be an application for a discharge permit made by the applicant on the date that it is received by the relevant consent authority.

(4) The granting of an application to which subsection (1) applies in accordance with this section—

(a) constitutes the granting of a discharge permit under this Act, notwithstanding that all requirements of this Act in relation to applications for, and granting of, discharge permits may not have been complied with; and

(b) may be appealed against in accordance with this Act accordingly.

(5) A person who, if this Act had not been enacted, had—

(a) a right of appeal; or

(b) a right to make any application for review—in respect of any application to which subsection (1) applies or any decision thereon may continue to exercise that right.

(6) In this section, licensing authority has the same meaning as in section 2(1) of the Clean Air Act 1972 before its repeal by this Act.

(b) that person makes an application for a resource consent to discharge any contaminant into air from those premises—

then the consent authority may grant a discharge permit to the approval holder under the provisions of subsection (2) if the consent authority is satisfied that—

(c) the plant and equipment has been installed within the scheduled premises in accordance with the approval; and

(d) the conditions proposed in the approval as to the construction of the plant and equipment have all been met by the applicant; and

(e) the approval is subject to conditions of operation; and

(f) every local authority affected by an application to which subsection (2) applies has received at least 10 working days’ opportunity to comment on or seek variation to any of those conditions, and that such local authorities have not sought any variation to the conditions of approval within that time; and

(g) the conditions of operation contained in the approval are appropriate and adequate.

(2) Where the provisions of subsection (1) are satisfied, the consent authority shall determine the application in accordance with the following provisions:

(a) for an Order in Council under section 175(2) or section 175(3) of that Act to authorise reclamation of land, and a recommendation to the Governor-General in respect of the application has not been made under section 175 of that Act by the Minister of Transport or the Minister of Conservation or both; or

(b) for approval under section 178(1)(b) or (2) of that Act to carry out harbour works, and approval of the application has not been given by the Minister of Transport or the Minister of Conservation or both—

then the application shall be deemed to be an application for a coastal permit for such reclamation or harbour works and—

(c) the Minister or Ministers shall as soon as practicable—

(i) endorse on every such application the date on which it was made; and

(ii) refer every such application and all information relevant to it to the relevant regional council; and

the application shall not be notified under sections 95 to 95F; and

(f) notwithstanding paragraph (e), where the harbour works the subject of any such application are a restricted coastal activity (including a restricted coastal activity the subject of a direction in accordance with section 372), the provisions of sections 117 to 119A shall apply except that the application shall not be notified and the Minister of Conservation shall be the only person who may make a submission on the application.

(2) The granting of an application to which subsection (1) applies in accordance with this section—

(a) constitutes the granting of a resource consent of the appropriate kind under this Act notwithstanding that all requirements of this Act in relation to applications for, and the granting of, resource consents may not have been complied with; and

(b) may be appealed against in accordance with this Act accordingly.

(3) A person who, if this Act had not been enacted, had—
(a) a right of appeal; or
(b) a right to make any application for review—

[Repealed]

399 Applications received on same day
Where—
(a) in accordance with section 390B(2) or section 393(1)(c)(ii) or section 397(2)(b), a consent authority receives, on the same date, 2 or more applications; and
(b) those applications do not relate to the same proposal and were not made by the same person; and
(c) the granting of one of those applications would mean that it would be likely that any other of those applications would not be granted or, if granted, would be granted on conditions that would not otherwise be imposed and which would be less favourable to the interests of the relevant applicant—
the consent authority shall process and determine those applications under this Act in a sequence commencing with the application which, in accordance with any of those provisions, is endorsed with the earliest date, and ending with the application so endorsed with the latest date, and this Act shall apply accordingly.

400 Applications under Marine Farming Act 1971 for prohibited anchorages, etc

(1) Where, immediately before the date of commencement of this Act, an application has been made under section 28(1) of the Marine Farming Act 1971 for permission to declare any specified part of a licensed area to be a prohibited anchorage or a prohibited navigation area and that application had not been determined—

(a) the application shall be determined under the Marine Farming Act 1971 as if this Act had not been enacted; and

(b) if the controlling authority grants the application, then notwithstanding the repeal of section 28 of that Act, but subject to subsection (3), such prohibition shall remain in force and the provisions of subsections (4) to (8) of the said section 28 shall continue to apply to that prohibition as if this Act had not been enacted.

(2) Where, immediately before the date of commencement of this Act, any part of a lease or licence under the Marine Farming Act 1971 has been declared to be a prohibited anchorage or a prohibited navigation area under section 28(4) of that Act and such prohibition remains in force, then notwithstanding the repeal of section 28 of that Act, but subject to subsection (3), such prohibition shall remain in force and the provisions of subsections (4) to (8) of the said section 28 shall continue to apply to that prohibition as if this Act had not been enacted.

(3) After the date of commencement of this Act, those functions that were exercisable by a controlling authority under section 28(5) of the Marine Farming Act 1971 before the repeal of that subsection by this Act may continue to be exercised by any
regional council in accordance with that subsection as if that subsection remained in force, but the regional council shall not make any declaration under that subsection without the prior consent of the Minister of Fisheries given with the concurrence of the Minister of Transport.

401 Conditions of deemed resource consents
Where the conditions of any permission that is deemed to be a resource consent by virtue of any of sections 383 to 387, or of any mining privilege that is a deemed permit under section 413, provide that a Minister of the Crown, a local authority, or any other person may exercise any powers or discretions in relation to the permission (other than as the holder thereof), from the date of commencement of this Act those powers or discretions shall be exercised by the appropriate consent authority and not by the Minister, local authority, or person.

401A Transitional coastal occupation charges
(1) Where a person is occupying the coastal marine area, either as a holder of a resource consent or as a result of permitted activity in a plan, there is implied a condition that that person must, from the commencement of this section until a regional coastal plan or plan change is operative which contains either a charging regime or a statement to the effect that no regime may be introduced or 30 June 2007 (whichever is earlier), pay to the relevant regional council, if requested by that regional council, any sum required to be paid for the occupation of the coastal marine area by any regulations made under section 360(1)(c).

(2) Any money received by the regional council under subsection (1) may be used only for the purpose of promoting the sustainable management of the coastal marine area.

(3) Where a regional council prepares or changes a regional coastal plan or proposed regional coastal plan in the period from the commencement of this section until 1 July 2007, that plan is not required to comply with section 64A.

(4) Where no provision for coastal occupation charges has been made in a regional coastal plan or proposed regional coastal plan by 1 July 2007, the regional council must, in the first proposed regional coastal plan or change to a regional coastal
plan notified after 30 June 2007, include a statement or regime on coastal occupation charges in accordance with section 64A.

401B Obligation to pay coastal occupation charge deemed condition of consent
In every coastal permit that—
(a) authorises the holder to occupy any land of the Crown in the coastal marine area; and
(b) was granted in the period commencing on 1 October 1991 and ending on the date a regional coastal plan containing provisions in accordance with section 64A is operative in relation to the part of the coastal marine area that the permit relates to,—
there is implied a condition that the holder must at all times throughout the period of the permit pay to the relevant regional council any sum of money required to be paid (if any) by that regional coastal plan.

(b) an approval under section 305 of that Act of a survey plan.

(2) Parts 20 and 21 of the Local Government Act 1974 shall continue to apply to any subdivision referred to in subsection (1) as if this Act had not been enacted.

(3) For the purposes of subsection (1), an approval under section 279 of the Local Government Act 1974 shall be deemed to be in force notwithstanding—
   (a) that there exists a right of objection under section 299 of that Act or a right of appeal under section 300 or section 301 of that Act; or
   (b) that any such right of objection or that any such right of appeal has been exercised by any person.

403 Existing objections and appeals in relation to subdivisions

(1) Nothing in section 11 or Part 10 shall apply to any subdivision in respect of which, before the date of commencement of this Act,—
   (a) the territorial authority has refused to approve a scheme plan of subdivision under sections 274 and 279(1)(f) of the Local Government Act 1974; and
   (b) a right of objection under section 299 of that Act, or a right of appeal under section 300 of that Act, has been exercised by any person in respect of that refusal.

404 Existing applications for approval

Where an application for approval of a scheme plan of subdivision has been made under section 275 of the Local Government Act 1974 before the commencement of this Act, and the territorial authority has not exercised its powers under section 279 of that Act in relation to the scheme plan, the application shall be deemed—
   (a) to be an application for a subdivision consent under this Act and shall be dealt with accordingly; and
   (b) to have been received by the territorial authority on the date of commencement of this Act.
405 Transitional provisions for subdivisions

(1) For the purpose of subsections (2) and (3), the term district plan means a district plan or a proposed plan constituted under section 373 that has been publicly notified under the Town and Country Planning Act 1977 before the commencement of this Part.

(2) Notwithstanding anything in section 374(3) or (4), in respect of any district plan—
   (a) every subdivision of land that is contrary to the provisions of the district plan shall be deemed to be a non-complying activity in respect of that plan; and
   (b) every subdivision of land which is subject to a discretion contained in the provisions of that district plan relating to the approval or refusal of a subdivision of land is deemed to be a discretionary activity in respect of that plan; and
   (c) every other subdivision of land shall be deemed to be a controlled activity in respect of that plan.

(3) Notwithstanding the provisions of subsection (2) or any provisions in a district plan, a subdivision of land to be effected by a grant of a cross lease or a company lease, or by the deposit of a unit plan, is deemed—
   (a) to be a controlled activity in respect of a district plan—
      (i) if the building or part of a building in respect of which the cross lease or company lease is to be granted; or
      (ii) if the units on the unit plan to be deposited—
           is or are intended to be used solely or principally for residential or commercial or industrial purposes, or any 2 or more such purposes; and
   (b) to be a non-complying activity in respect of a district plan in every other case.

(4) The application of this section may be excluded or modified at any time in accordance with Schedule 1.

(5) This section shall cease to have effect in a district on the date that the proposed district plan for the district becomes operative, not being a proposed district plan constituted under section 373.

Reprinted as at 16 December 2010

405A Transitional provisions for esplanade reserves where land subdivided or road stopped

(1) Subject to subsections (3) and (4) and with the consent of the Minister of Conservation, on any road stopped under the Local Government Act 1974, and on every application for subdivision consent in respect of any allotment of less than 4 hectares, a territorial authority may impose a condition, that—
(a) the esplanade reserve required to be set aside under section 230 of this Act or section 345(3) of the Local Government Act 1974 along the mark of mean high water springs of the sea, or along the margin of any lake, or along the bank of any river, may be reduced or increased from 20 metres to any width; or
(b) section 230 of this Act and section 345(3) of the Local Government Act 1974 shall not apply in respect of land along the mark of mean high water springs of the sea, or along the margin of any lake, or along the bank of any river, to which the application relates; or
(c) that, instead of an esplanade reserve, an esplanade strip of any width specified may be created under section 232.

(2) On every application for a subdivision consent, a territorial authority shall consider the purposes of esplanade reserves and esplanade strips in section 229 and may impose, where it considers it appropriate, in respect of an allotment of 4 hectares or more, in terms of section 230, a condition that an esplanade reserve or esplanade strip of any specified width be set aside or created on those allotments.

(3) Before including a condition described in subsection (1)(a) for a reduction in width in a subdivision consent, the territorial authority shall be satisfied that the value of the esplanade reserve, in terms of the purposes specified in section 229, will not be significantly diminished.

(4) Before including a condition described in subsection (1)(b) in a subdivision consent, the territorial authority shall be satisfied that—
(a) notwithstanding section 229, it would not be appropriate in the circumstances including (but not limited to) reasons of security, public safety, or minor boundary adjustments, for an esplanade reserve or esplanade strip to be required; or
(b) the land has little or no value in terms of the purposes specified in section 229; or
(c) any value the land has in terms of the purposes specified in section 229 can be adequately provided by other means.

(5) The provisions of Part 10 shall apply to any esplanade reserve or esplanade strip required under this section.

(6) Any declaration or decision under section 289(7) of the Local Government Act 1974, or under any corresponding earlier enactment, to exclude the bank of any river from the requirement of an esplanade reserve shall be deemed to be a district rule for the purposes of section 77, where that direction had effect on 30 September 1991.

(7) Where any action taken pursuant to a declaration or decision which is deemed to be a district rule under subsection (6) was taken before the commencement of this subsection, that action is hereby validated and declared to have been lawfully carried out.

(8) The application of this section may be excluded or modified at any time in accordance with Schedule 1.

(9) This section shall cease to have effect in a district on the date that the proposed district plan for the district becomes operative, not being a proposed district plan constituted under section 373.

406 Grounds of refusal of subdivision consent

(1) Notwithstanding anything to the contrary in Parts 6 or 10, a territorial authority—
(a) may refuse to grant a subdivision consent if it considers that either—
(i) the land in respect of which the subdivision is proposed is not suitable; or
(ii) the proposed subdivision would not be in the public interest:

(b) may refuse to grant a subdivision consent if in the case of any allotment in respect of which a subdivision consent is sought, adequate provision has not been made or is not practicable—
(i) for stormwater drainage; or
(ii) for the disposal of sewage; or
(iii) except in the case of any allotment to be used solely or principally for rural purposes, for the supply of water or electricity.

(2) This section shall cease to have effect in a district on the date that the proposed district plan for the district becomes operative, not being a proposed district plan constituted under section 373.

407 Subdivision consent conditions

(1) Where an application for a subdivision consent is made in respect of land for which there is no district plan, or where the district plan does not include relevant provisions of the kind contemplated by section 108(2)(a) or 220(1)(a), the territorial authority may impose, as a condition of the subdivision consent, any condition that could have been imposed under sections 283, 285, 286, 291, 321A, or 322, as the case may be, of the Local Government Act 1974 if those sections had not been repealed by this Act.

(2) For the purposes of subsection (1), every reference in sections 283, 285, 286, 291, 321A, and 322 of the Local Government Act 1974—
(a) to an application for the approval of a scheme plan, shall be deemed to be a reference to an application for a resource consent; and
(b) to an allotment on a scheme plan, shall be deemed to be a reference to the allotments in respect of which a subdivision consent is sought.

(3) Notwithstanding the limitation on the imposition of conditions in section 105(1), where an application is made for a subdivision consent and the subdivision is deemed to be a controlled activity under section 405, conditions may be imposed under sections 108 and 220.

(4) This section applies to applications for subdivision consent in respect of every kind of subdivision of land within the meaning of section 218(1), including (but not by way of limitation) any subdivision to be effected by the grant of a company lease or cross lease or by deposit of a unit title.

(5) This section shall cease to have effect in a district on the date that the proposed district plan for the district becomes operative, not being a proposed district plan constituted under section 373.

408 Existing approvals for unit plans, cross lease plans, and company lease plans

(1) Nothing in section 11 or Part 10 shall apply—

(a) to the deposit of a unit plan, or to the issue of a certificate of title for any unit on such a plan, where, before the date of commencement of this Act, a certificate has been given in respect of the plan under section 5(1)(g) of the Unit Titles Act 1972 or section 5(3)(c) of the Unit Titles Amendment Act 1979:

(b) to the deposit of a plan to give effect to the registration of a cross lease, or to the issue of a certificate of title for a cross lease in respect of a building or part of a building shown on a plan, where, before the date of commencement of this Act, a certificate has been given
in respect of the plan under section 314 of the Local Government Act 1974:

(c) to the deposit of a plan to give effect to the grant of a company lease, or to the registration or issue of a certificate of title for a company lease in respect of a building or part of a building shown on a plan, where the plan is approved by the Chief Surveyor before the date of commencement of this Act.

(2) Nothing in section 224(f) shall apply to any subdivision of land for which a subdivision consent was granted on or after 1 October 1991 and on or before 30 June 1992.

409 Financial contributions for developments

(1) Subject to section 410, where an application for a resource consent for a development is made in respect of land for which there is no district plan, or where the district plan does not include provisions of the kind contemplated by section 108(2)(a), the territorial authority may impose, as a condition of the consent,—

(a) any condition described in any of sections 283, 289, 291, 292, 321A, or 322 of the Local Government Act 1974 that, by virtue of section 281 or section 294B of that Act, could have been imposed in respect of a development if those sections had not been repealed by this Act:

(b) any requirement that could have been imposed in respect of a development under section 294 of the Local Government Act 1974 (if that section had not been repealed by this Act) to pay a reserves contribution or to set aside, as public reserve, any area of land.

(2) For the purposes of subsection (1)—

(a) every reference in sections 283, 289, 291, 292, 321A, and 322 of the Local Government Act 1974—

(i) to an application for the approval of a scheme plan, shall be deemed to be a reference to an application for a resource consent; and
(ii) to the approval of a scheme plan, shall be deemed to be a reference to a grant of a resource consent; and

(b) every reference in section 294 of the Local Government Act 1974 to a requirement under section 293 of that Act to notify the Council of a proposed development, shall be deemed to be a reference to an application for a resource consent.

(2A) For the purposes of subsection (1)(b), section 294 of the Local Government Act 1974 shall be read as if that section had not been repealed by this Act and as if section 294(1) of that Act did not contain the words “and the assessed value of the development is not in excess of $50 million”.

(3) For the purposes of this section and sections 410 and 411, development has the same meaning as in section 271A of the Local Government Act 1974 before its repeal by this Act.

(4) Where a district plan or proposed district plan has been deemed to be constituted by section 373 and a provision, expressly or by implication and whether or not subject to conditions, of that plan or proposed plan authorised a development without further consent or approval from the former consent authority being required, then, notwithstanding section 374(3)(a), such a development is deemed to be a controlled activity only for the purposes of subsections (1) and (2), and any application for a land use consent to which this subsection applies shall not be notified under sections 95 to 95F.

(5) This section shall cease to have effect in a district on the date that the proposed district plan for the district becomes operative, not being a proposed district plan constituted under section 373.

**410 Existing developments**
Parts 20 and 21 of the Local Government Act 1974 shall continue to apply to any development that, before the commencement of this Act, is notified to a territorial authority under section 293(1) of the Local Government Act 1974 as if this Act had not been enacted.

**411 Restriction on imposition of conditions as to financial contributions**

(1) A consent authority shall not impose a condition of the type contemplated by section 108(2)(a) on any resource consent where a development levy within the meaning of section 270 of the Local Government Act 1974 (before its repeal by this Act) has been fixed and is paid or payable in respect of the activity in respect of which the application for the resource consent is made.

(2) Where financial contributions under Part 20 and 21 of the Local Government Act 1974 (including reserves contributions and development levies) have been fixed and have been paid, or are paid or payable in respect of an activity, the consent authority shall deal with the money in accordance with the requirement of section 223F of the Local Government Act 1974 and in reasonable accordance with the purposes for which the money was received.

Current mining privileges relating to water

413 Current mining privileges to become deemed permits

(1) Except as provided in subsections (2) to (10), every—
    (a) current mining privilege within the meaning of section 2 of the Water and Soil Conservation Amendment Act 1971; and
    (b) right granted or authorised under the Water and Soil Conservation Act 1967 in substitution for a current mining privilege, on an application made by the holder of that privilege—
that is in force immediately before the date of commencement of this Act (in this section and in sections 414 to 417 called a mining privilege) shall be deemed to be—
    (c) a water permit, if it authorises something that would otherwise contravene section 14; or
    (d) a discharge permit, if it authorises something that would otherwise contravene section 15; or
    (e) a permit that confers on its holder rights over land in respect of which the holder is not the owner,—
granted by the appropriate consent authority under this Act on the same conditions (including those set out in any enactment whether or not repealed or revoked by this Act) and the provisions of this Act (other than sections 128 to 133) shall apply accordingly. Every such permit is called a deemed permit in this section and in sections 414 to 417.

(2) Without limiting subsection (1), every deemed permit resulting from a mining privilege shall be deemed to include, as conditions of the permit, such of the provisions of sections 4 to 11, 13, 14, 16, 19(1) and (5), and 23(1)(a) and (2) of the Water and Soil Conservation Amendment Act 1971 as applied to the mining privilege immediately before the date of commencement of this Act.

(3) Every deemed permit resulting from a mining privilege under subsection (1)(c) or (d) shall be deemed to include a condition to the effect that it finally expires on the 30th anniversary of the date of commencement of this Act.

(3A) Subject to subsection (3), sections 19(4) and 23(1)(b) of the Water and Soil Conservation Amendment Act 1971 shall con-
continue to apply to those deemed permits to which they applied immediately before the date of commencement of this Act.

(4) Sections 12 and 30 to 32 of the Water and Soil Conservation Amendment Act 1971 shall apply to deemed permits as if—
(a) that Act had not been repealed; and
(b) those permits were still current mining privileges under that Act; and
(c) every reference to the Board were a reference to the appropriate regional council.

(5) Notwithstanding section 122, every deemed permit shall be deemed to be a chattel interest in land and—
(a) subject to sections 136 and 137, may be sold, encumbered, transmitted, seized under writ of execution or warrant, or otherwise disposed of, as fully as a chattel interest in land; but
(b) no dealing or disposition of a kind referred to in paragraph (a) shall have effect until written notice of the dealing or disposition is received by the appropriate regional council.

(6) No enforcement order may be made under section 319 against the holder of any deemed permit in respect of any activity to which the permit relates except upon an application under section 316 made by—
(a) the relevant regional council; or
(b) a Minister of the Crown.

(7) The holder of a deemed permit may, in order to replace that permit, apply at any time under Part 6 for another permit in respect of the activity to which the deemed permit relates.

(8) Subject to subsection (9), the holder of a deemed permit may transfer the holder’s interest in the permit in accordance with sections 136 and 137.

(9) The following provisions apply to a permit that is deemed by subsection (1)(c) to be a water permit:
(a) notwithstanding section 136(2)(b)(i), no transfer of the whole or any part of a deemed permit may take place except upon an application made under section 136(4); and
(b) notwithstanding anything to the contrary in section 136(5), the interest or part transferred shall be deemed to be a new permit granted under this Act, and—

(i) shall be subject to section 122 (which describes the nature of a resource consent) and shall not be a chattel interest in land and shall not confer on its holder any rights over land; and

(ii) shall be subject to sections 128 to 132 (which relate to the review of consent conditions); and

(iii) shall only be transferable in accordance with section 136; and

(c) in addition to the matters set out in section 136(4)(b), in considering an application to transfer the whole or part of a deemed permit to another site, the regional council shall have regard to the effect such a transfer would have on the relative priority and entitlement to water in the catchment and may modify the priority or other conditions of the transferred deemed permit; and

(d) for the purposes of this subsection, the term transfer, in relation to the whole or part of a deemed permit, means transfer in accordance with section 136 to another person on another site, or to another site, and the terms transferred and transferable, where they appear in this subsection, have a corresponding meaning.

(10) Section 18 of the Water and Soil Conservation Amendment Act 1971 shall continue to apply in respect of those deemed permits to which it applied before the date of commencement of this Act as if this Act had not been enacted.

Section 413(1)(e): added, on 7 July 1993, by section 197(2) of the Resource Management Amendment Act 1993 (1993 No 65).

414 Deemed permits to be subject to regional rules

(1) A regional council may, in accordance with section 65, include a rule in a regional plan for the purpose of securing minimum instream flow which has the effect of—

(a) restricting the amount of water which the holder of a particular deemed permit may—
   (i) take, use, dam, or divert; or
   (ii) discharge, or discharge a contaminant into; or

(b) prohibiting the holder of a particular deemed permit from—
   (i) taking, using, damming, or diverting water; or
   (ii) discharging water, or a contaminant into water,—

if—

(c) the holder of that deemed permit is—
   (i) the relevant regional council; or
   (ii) a person who requests the regional council to include such a rule in a plan; and

(d) that deemed permit is to be surrendered when the plan including the rule becomes operative; and

(e) the regional council is satisfied that the effect of the rule on the exercise of the rights given by every other deemed permit will not exceed the effect that exercising to the full the rights given by the particular deemed permit that is to be surrendered would otherwise have had.

(2) Subsection (1) applies—

(a) notwithstanding any other provisions of this Act; and

(b) notwithstanding the conditions of the deemed permit which will be surrendered once the plan including the rule becomes operative.

(3) If a rule of the kind referred to in subsection (1) is included in a plan, the deemed permit shall be deemed to have been surrendered on the day on which the rule becomes operative, notwithstanding any other enactment or rule of law.
(4) Notwithstanding sections 65(5) and 79(3) (which deal with the change and review of regional plans), once a regional plan including a rule of the kind referred to in subsection (1) becomes operative, then during the period described in subsection (5) the plan shall remain operative and no change may be made to the plan that has the effect of diminishing or removing any prohibition or restriction imposed by the rule.

(5) For the purposes of subsection (4), the period commences on the date on which the plan including the rule becomes operative and ends with the date on which the deemed permit would have expired if it were not surrendered, which end date shall be specified in the plan.

(6) Every regional council shall—
(a) when giving public notice, in accordance with Schedule 1, of a proposed plan including a rule of the kind referred to in subsection (1), identify the deemed permit which will be surrendered once the plan including the rule becomes operative; and
(b) serve on each holder of a deemed permit which will be affected by the rule if it becomes operative, a notice—
(i) identifying the deemed permit which will be surrendered once the plan including the rule becomes operative; and
(ii) stating the proposed rule and the effect of the rule and this section on the holder’s permit; and
(iii) stating the effect of section 416 (which relates to compensation).

(7) In this section, deemed permit includes part of a deemed permit.

415 Acquisition of deemed permits

(1) Notwithstanding sections 136 and 137, a regional council may take, purchase, or acquire the whole or part of any deemed permit—
(a) as a public work under the Public Works Act 1981; or
(b) by agreement or otherwise.

(2) Notwithstanding section 413(9)(b)(i), for the purposes only of the Public Works Act 1981, this section, and section 416(4), a deemed permit that has been transferred to a new site shall
be deemed to continue to be a chattel interest in land, and it shall be sufficient identification of the interest in land created or deemed to be so created by the deemed permit to describe it as the whole of the interest created by the permit, or to use the description set out in the permit.

416 Compensation

(1) No compensation may be claimed for any loss, damage, or injurious affection resulting from the operation of any of subsections (1) to (7) of section 413.

(2) Notwithstanding section 85 but except as provided in subsection (3), the holder of a deemed permit—

(a) taken or acquired in whole or in part under section 415; or

(b) whose estate or interest in land is injuriously affected by, or who suffers any damage resulting from, a regional rule of the kind referred to in section 414—shall be entitled to compensation from the regional council for such taking, acquisition, injurious affection, or damage.

(3) When determining for the purposes of subsection (2)(b) the amount of any loss, damage, or injurious affection suffered by a holder of a deemed permit, the entitlement of a holder of any other deemed permit that is surrendered at the time the rule becomes operative shall be regarded as being used in full throughout the remainder of the duration of the first-mentioned permit.

(4) Except as provided in subsection (3),—

(a) claims for compensation under this section or under section 415 shall be made and determined in accordance with the Public Works Act 1981; and

(b) when determining the amount of compensation payable under the Public Works Act 1981 for any loss, damage, or injurious affection suffered, or for the taking or acquisition of the deemed permit,—

(i) for the purposes of section 62 of that Act in the case of a claim for injurious affection or damage resulting from a regional rule of the kind referred to in section 414, the specified date shall be the date the regional rule becomes operative; and
(ii) for the purposes of that Act, the deemed permit shall be deemed to be due to expire on the 30th anniversary of the specified date.

417 Permits over land other than that of holders to be produced in Land Transfer Office

(1) Where, immediately before the date of commencement of this Act, a mining privilege that is deemed to be a permit under section 413(1)(e) conferred on its holder rights over land in respect of which the holder is not the owner, then the holder of the deemed permit—
(a) may continue to exercise those rights, and the provisions of this section shall apply accordingly; and
(b) may, at any time, obtain from the relevant regional council, for the purpose of registration against any certificate of title, lease, licence to occupy, or provisional register registered under the Land Transfer Act 1952, a certificate specifying the rights which the holder of that permit has in respect of that land by virtue of paragraph (a).

(2) Every such certificate shall be in writing and—
(a) have affixed to it the common seal of the consent authority; and
(b) specify the rights which the holder of the permit has by virtue of subsection (1)(a) and the parcel or parcels of land affected (including the file reference); and
(c) have endorsed on the certificate or refer to a diagram or plan attached to the certificate (which need not be a survey plan), showing the course of any race and, as the case may be, the site of any dam and the boundaries of any part of the land which the permit specifies as being affected except that, where it is not practicable to show the true course or site or part of the land, it shall be indicated as nearly as possible, and, until the contrary is proved, the course or site or part of the land so indicated shall be deemed to be the true course, site, or boundaries, as the case may be.

(3) No action shall lie against the Crown under Part 11 of the Land Transfer Act 1952 by reason of any certificate registered under
this section not indicating the true course of any race, the site of any dam, or boundary of any part of the land.

(4) Every such certificate shall be deemed—
   (a) to be an instrument capable of registration under the Land Transfer Act 1952 and, when so registered, to create in favour of the permit holder an interest in the land in respect of which it is registered, within the meaning of section 62 of that Act; and
   (b) when so registered, to be binding on any registered proprietor of an estate in fee simple or leasehold or on any registered licensee, and on any subsequent mortgagee of any land, or of any interest in any land, affected by the certificate notwithstanding the expiration, lapsing, cancellation, surrender, suspension, or transfer of the deemed permit to which it relates.

(5) Without limiting subsection (1), any certificate registered under this section may be transferred by the holder of the deemed permit, or any permit issued in substitution for it, to the person to whom such permit is transferred, by means of a memorandum of transfer to be registered under the provisions of the Land Transfer Act 1952.

(6) Where any certificate is produced to the Registrar-General of Land under this section, the Registrar-General of Land shall enter on every certificate of title, lease, licence to occupy, provisional register, or other instrument of title registered or filed in the Registrar-General of Land’s office and relating to that land, the particulars of the deemed permit, including the file reference.

(7) Nothing in the Land Transfer Act 1952 shall limit or affect any right, title, or interest held under a deemed permit over land of which the holder of the permit is not the owner before the certificate has been registered and particulars have been entered by the Registrar-General of Land on the instrument of title affected in accordance with subsection (6).

(8) If the land affected by subsection (1) or any part of it is not subject to the Land Transfer Act 1952, and dealings with the land or part not so subject are not registrable under the Deeds Registration Act 1908, the person in whose favour the right continues may at any time obtain from the relevant regional
council a certificate in terms of subsections (1) and (2), and may lodge a true copy of the certificate in the office of the Chief Surveyor; and the Chief Surveyor shall note the existence of the certificate on the proper plans and records of the land district.

(1) Notwithstanding section 374(4), for the purposes of this Act, section 9(3) and (4) do not apply in respect of any activity carried out on the surface of water in any lake or river—
(a) unless the activity is specifically referred to, and is controlled or restricted or prohibited by a rule, in a district plan or proposed district plan deemed to be constituted under section 373; or
(b) until a district plan or proposed district plan prepared under Schedule 1 provides otherwise.

(1A) Nothing in subsection (1) shall apply to any commercial activity (being an activity that has, or has the potential to have, as its sole purpose or a related purpose the production of assessable income) carried out in the district of the Queenstown-Lakes District Council.

made before 1 October 1991 under any Act, regulation, or by-law, including an Act, regulation, or by-law amended, repealed, or revoked by this Act, section 9(3) and (4) shall not apply in respect of that activity to the extent that that activity is permitted by that licence or other authorisation and so long as that licence or other authorisation remains in force.

(3) Where any activity undertaken in any lake or river or on the surface of any lake or river—
   (a) is authorised by a licence, permit, or authorisation granted pursuant to an application made under any by-law continued in force by any provision of subsections (1) to (9) of section 424; or
   (b) is, by virtue of section 424(10), exempt from any provision of any by-law continued in force by subsections (1) to (9) of section 424,—
   section 9(3) and (4) shall not, unless a district plan or a proposed district plan otherwise provides, apply in respect of any such activity to the extent that the activity is permitted by the licence, permit, or authorisation or exempted from the by-law.

418 Certain existing permitted uses may continue

(1) For the purposes of this Act, section 15(1)(c) shall not apply in respect of any discharge from any industrial or trade premises which would not have required any licence or other author-
isation under the Clean Air Act 1972, unless a regional plan provides otherwise.

(1A) Notwithstanding subsection (1), for the purposes of this Act, section 15(1)(c) shall apply to any discharges from industrial or trade premises used for the storage, transfer, treatment, or disposal of waste materials or other waste-management purposes, or for composting organic material, commenced after 1 October 1991.

(1B) For the purposes of this Act, section 15(1)(d) does not apply in respect of any discharge of a contaminant from any industrial or trade premises which would not have required any licence or other authorisation to discharge contaminants onto or into land under any of the Acts, regulations, or bylaws, or parts thereof, amended, repealed, or revoked by this Act, unless a regional plan provides otherwise.

(1C) Notwithstanding subsection (1B), for the purposes of this Act, section 15(1)(d) shall apply in respect of any discharges from industrial or trade premises used for the storage, transfer, treatment, or disposal of waste materials or other waste-management purposes, or for composting organic material, where that use of premises is in the nature of a waste-transfer station, landfill, rubbish dump or tip, unless—
(a) the discharge is expressly allowed by a rule in a proposed regional plan; or
(b) an application for a permit to discharge the contaminant has been lodged with the regional council.

(2) For the purposes of this Act, section 14(2)(b) and (c) do not apply in respect of any use or taking of geothermal energy for any purpose authorised under section 6 or section 9(1)(b) or section 9(1)(c) of the Geothermal Energy Act 1953 within a region until the third anniversary of the date of commencement of this Act, unless a regional plan for that region sooner provides otherwise.

(3) For the purposes of this Act, section 13(1) shall not apply in respect of any activity lawfully being carried out in relation to the bed of any river or lake before 1 October 1991 which did not require any licence or other authorisation relating to such activity under any of the Acts, regulations, or bylaws, or
parts thereof, amended, repealed, or revoked by this Act, until a regional plan provides otherwise.

(3A) For the purposes of this Act (except where section 383A applies), section 13(1) shall not apply in respect of any activity lawfully being carried out in relation to the bed of any river or lake while any licence or other authorisation, granted pursuant to an application made before 1 October 1991, relating to such activity under any of the Acts, regulations, or bylaws, or parts thereof, amended, repealed, or revoked by this Act, may be continued or commenced at any time after the date of commencement of this Act until a regional plan provides otherwise.

(3B) Notwithstanding section 13(1)(a), any use, erection, reconstruction, placement, alteration, extension, removal, or demolition of any structure or part of any structure in, on, under, or over the bed of any river or lake (whether or not commenced or being carried out) which, before 1 October 1991, could have been lawfully commenced and continued without any licence or other authorisation relating to such activity under any of the Acts, regulations, or bylaws, or parts thereof, amended, repealed, or revoked by this Act, may be continued or commenced at any time after the date of commencement of this Act until a regional plan provides otherwise.

(3C) For the purposes of this Act, each regional plan under section 368 shall be deemed to include a rule to the effect that every activity described in section 13(1)(a) or (b), in respect of any line defined in section 2(1A) of the Telecommunications Act 1987, is a permitted activity in every case where that activity—

(a) will not cause or contribute to the occurrence of—

(i) any significant change to the movement of water or sediment in the river or lake; or

(ii) any erosion or natural hazard; or

(iii) any adverse effect to the bed of the river or lake; and

(b) will not adversely affect the carrying out of any other lawful activity in respect of the river or lake.

(3D) Every rule deemed to be included in a regional plan by subsection (3C) shall apply until a regional plan provides otherwise.

(4) Without limiting subsection (2), where, immediately before the date of commencement of this Act,—

(a) heat or energy from geothermal water; or
(b) heat or energy from the material surrounding any
geothermal water—
was being lawfully taken or used, and such taking or use did
not require any licence, permit, or other authorisation under
the Geothermal Energy Act 1953, then, notwithstanding sec-
tion 14(2)(b) and (c), such taking or use may be continued until
a regional plan provides otherwise.

(5) For the purposes of this Act, where, immediately before the
date of commencement of this Act, any person holds any per-

courses) or section 150 of that Act (relating to land util-
isation); or

(b) a bylaw made under section 34A of the Water and Soil
Conservation Act 1967 (relating to dam construction); or

(c) a bylaw made under section 4 of the Water and Soil
Conservation Amendment Act 1973 (relating to bores
and underground water)—
that permit or authorisation shall not be deemed to be a re-
source consent but that person may, subject to its conditions,
continue to undertake the activity authorised by that permit
or authorisation within a region until whichever is the sooner
of—

(d) the date on which a regional plan for that region pro-
vides otherwise; or

(e) the date on which the permit or authorisation expires.

(6) Notwithstanding section 12 where, immediately before the
date of commencement of this Act,—

(b) any activity was or was proposed to be carried out by
or on behalf of the holder of that coastal permit, lease,
or licence and such activity could have been lawfully
commenced and continued in the coastal marine area
under section 90 or section 102A(1) or section 108 of the Town and Country Planning Act 1977—
such activity may be continued or commenced at any time after
the date of commencement of this Act and continued until—
(c) the expiry of the coastal permit, lease, or licence; or
(d) where section 124 applies, the determination of any applic-

such coastal permit, lease, or licence and the determin-

(e) a rule is included in a regional coastal plan prepared
under this Act which provides that the activity is a con-
trolled activity, a restricted discretionary activity, a dis-
cretionary activity, a non-complying activity, or a pro-
hibited activity—
whichever occurs last.

(6A) For the purposes of this Act, where, in respect of any mooring
existing before 1 October 1991, no licence or permit was held
which could be deemed to be a coastal permit under section
384(1), then section 12(2)(a) shall not apply to that mooring
until 1 year after a regional coastal plan provides otherwise.

(6B) For the purposes of this Act, section 12(1) and (2) shall not
apply in respect of any activity lawfully being carried out in
the coastal marine area, before 1 October 1991, which did not
require any licence or other authorisation relating to such ac-

thereof, amended, repealed, or revoked by this Act, until a re-
regional coastal plan provides otherwise.

(6C) For the purposes of this Act, section 12(2)(a) shall not apply in
respect of the occupation of any warehouse, building, wharf,
or other structure in or partly within the coastal marine area
under any lease, licence, permit, or other authorisation in force

(7) Except as provided in subsection (6), section 12 shall not apply
to any activity being carried out on the date of commence-
ment of this Act in the coastal marine area under section 90
or section 102A(1) or section 108 of the Town and Country
Planning Act 1977 until the third anniversary of the date of
commencement of this Act, unless a rule in a regional coastal plan prepared under this Act sooner provides that the activity is a controlled activity, a restricted discretionary activity, a discretionary activity, a non-complying activity, or a prohibited activity.

(8) For the purposes of this Act, section 14(2)(a) shall not apply to the activities of ships, boats, and vessels in respect of the operational needs of those craft where, before 1 October 1991, no licence or authorisation was required for those activities under any Act repealed by this Act, until a regional plan provides otherwise.

(9) For the purposes of this Act, section 14(2)(a) shall not apply in respect of any activity lawfully being carried out in relation to the taking of water from a reservoir for water supply purposes, before 1 October 1991, which did not require any licence or other authorisation relating to such activity under any of the Acts, regulations, or bylaws, or parts thereof, amended, repealed, or revoked by this Act, until the tenth anniversary of the date of commencement of this Act, unless a regional plan sooner provides otherwise.

may extend it under section 37.
(3) Where no time limit is set, section 21 (obligation to avoid un-
reasonable delay) applies.
(4) Where, under this schedule, a request for a plan change is to
be heard and an application for a resource consent or a require-
ment for a designation or heritage order has been made in re-
lation to the same proposal, section 102 (joint hearings) and
section 103 (combined hearings) may apply.

Schedule 1 clause 1 heading: amended, on 1 October 2009, by section 149(2)
of the Resource Management (Simplifying and Streamlining) Amendment Act

(2009 No 31).
Schedule 1 clause 1(4): added, on 7 July 1993, by section 209 of the Resource

2 Preparation of proposed policy statement or plan
(1) The preparation of a policy statement or plan shall be com-
mened by the preparation by the local authority concerned,
of a proposed policy statement or plan.
(2) A proposed regional coastal plan must be prepared by the re-
gional council concerned in consultation with—
(a) the Minister of Conservation; and
(b) iwi authorities of the region; and
(c) the board of any foreshore and seabed reserve in the
region.

Schedule 1 clause 2(2): substituted, on 17 January 2005, by section 36(1) of the
Resource Management (Foreshore and Seabed) Amendment Act 2004 (2004
No 94).
3 Consultation

(1) During the preparation of a proposed policy statement or plan, the local authority concerned shall consult—
   (a) the Minister for the Environment; and
   (b) those other Ministers of the Crown who may be affected by the policy statement or plan; and
   (c) local authorities who may be so affected; and
   (d) the tangata whenua of the area who may be so affected, through iwi authorities; and
   (e) the board of any foreshore and seabed reserve in the area.

(2) A local authority may consult anyone else during the preparation of a proposed policy statement or plan.

(3) Without limiting subclauses (1) and (2), a regional council which is preparing a regional coastal plan shall consult—
   (a) the Minister of Conservation generally as to the content of the plan, and with particular respect to those activities to be described as restricted coastal activities in the proposed plan; and
   (b) the Minister of Transport in relation to matters to do with navigation and the Minister’s functions under Parts 18 to 27 of the Maritime Transport Act 1994; and
   (c) the Minister of Fisheries in relation to fisheries management, and the management of aquaculture activities.

(4) In consulting persons for the purposes of subclause (2), a local authority must undertake the consultation in accordance with section 82 of the Local Government Act 2002.

3A Consultation in relation to policy statements

(1) A triennial agreement entered into under section 15(1) of the Local Government Act 2002 must include an agreement on the consultation process to be used by the affected local authorities in the course of—
   (a) preparing a proposed policy statement or a variation to a proposed policy statement; and
   (b) preparing a change to a policy statement; and
   (c) reviewing a policy statement.

(2) If an agreement on the consultation process required by subclause (1) is not reached by the date prescribed in section 15(1) of the Local Government Act 2002,—
   (a) subclause (1) ceases to apply to that triennial agreement; and
   (b) 1 or more of the affected local authorities—
      (i) must advise the Minister and every affected local authority as soon as is reasonably practicable after the date prescribed in section 15(1) of the Local Government Act 2002; and
      (ii) may submit the matter to mediation.

(3) If subclause (2) applies, the parts of the triennial agreement other than the part relating to the consultative process referred to in subclause (1) may be confirmed before—

   (b) the Minister makes a binding determination under subclause (5)(b).

(4) Mediation must be by a mediator or a mediation process agreed to by the affected local authorities.

   (b) make a binding determination as to the consultation process that must be used.
Part 1—continued

(6) The consultative process must form part of the triennial agreement, whether or not the other parts of the triennial agreement have been confirmed, in the event that—
(a) an agreement is reached under subclause (4) or subclause (5)(a) as to a consultative process, as required by subclause (1); or

(2) The written request shall give the requiring authority at least 30 working days to respond, and shall specify the final date for the requiring authority to provide its written notice.

(3) Where the requiring authority states that a designation is to be included in the proposed plan, with modifications, the requiring authority shall include in its written notice the nature of the modifications, and the reasons for the modifications.

(4) If the requiring authority fails to notify the territorial authority in accordance with subclause (1), no provision for the designation shall be included in the proposed plan.

(8) Nothing in this clause applies where a territorial authority publicly notifies a change or variation to a district plan under clause 5.

(9) A requiring authority may withdraw a requirement for a designation in accordance with section 168(4) and a heritage protection authority may withdraw a requirement for a heritage order in accordance with section 189(4).

(1) A request made under clause 21 shall be made to the appropriate local authority in writing and shall explain the purpose of, and reasons for, the proposed plan or change to a policy statement or plan and contain an evaluation under section 32 for any objectives, policies, rules, or other methods proposed.

(2) Where environmental effects are anticipated, the request shall describe those effects, taking into account the provisions of Schedule 4, in such detail as corresponds with the scale and significance of the actual or potential environmental effects anticipated from the implementation of the change, policy statement, or plan.

23 Further information may be required

(1) Where a local authority receives a request from any person under clause 21, it may within 20 working days, by written notice, require that person to provide further information necessary to enable the local authority to better understand—

   (b) may require the local authority to proceed with considering the request.

(6) To avoid doubt, if the person who made the request declines under subclause (5) to provide the further or additional information, the local authority may at any time reject the request or decide not to approve the plan change requested, if it considers that it has insufficient information to enable it to consider or approve the request.

24 Modification of request
As a result of further or additional information, commissioned reports, or other relevant matters, the local authority may, with
the agreement of the person who made the request, modify the request.

25 Local authority to consider request

(ii) the provisions of Part 1 must apply; and
(iii) the request has legal effect once publicly notified; or
(b) accept the request, in whole or in part, and proceed to notify the request, or part of the request, under clause 26.

(3) The local authority may decide to deal with the request as if it were an application for a resource consent and the provisions of Part 6 shall apply accordingly.

(4) The local authority may reject the request in whole or in part, but only on the grounds that—
(a) the request or part of the request is frivolous or vexatious; or
(b) the substance of the request or part of the request has been considered and given effect to or rejected by the
local authority or Environment Court within the last 2 years; or
(c) the request or part of the request is not in accordance with sound resource management practice; or
(d) the request or part of the request would make the policy statement or plan inconsistent with Part 5; or
(e) in the case of a proposed change to a policy statement or plan, the policy statement or plan has been operative for less than 2 years.

(5) The local authority shall notify the person who made the request, within 10 working days, of its decision under this clause, and the reasons for that decision.

(2) Where any local authority has reasonable grounds to consider that a person who made a request under clause 21 no longer wishes to continue with the request, the local authority may send a notice to that person at their last known address.
Part 2—continued

(3) A notice sent under subclause (2) shall state that if the person who made the request does not advise the local authority within 30 working days of their wish to continue with the request, the local authority shall deem the request to have been withdrawn.

(4) If the local authority receives no response to its notice sent under subclause (2), it shall deem the request to have been withdrawn under subclause (1).

(5) Where notice of withdrawal is given under subclause (1) or is deemed to be given under subclause (4), preparation of the policy statement or plan or change shall cease, unless the local authority determines to proceed with the request itself under this Part.

(1B) A trade competitor of the person who made the request may make a submission only if directly affected by an effect of the plan or change that—

(a) adversely affects the environment; and

(b) does not relate to trade competition or the effects of trade competition.
Part 2—continued

(2) The local authority shall send copies of all submissions on the plan or change to the person who made the request.

(3) The person who made the request has the right to appear before the local authority under clause 8B.

Schedule 1A

Preparation and change of regional coastal plans providing for aquaculture activities

Schedule 1A: inserted, on 1 January 2005, by section 33 of the Resource Management Amendment Act (No 2) 2004 (2004 No 103).

1 Preparation and change of regional coastal plans providing for aquaculture activities

(1AA) This schedule applies to the preparation of, and changes to, a regional coastal plan to the extent that the plan provides for aquaculture activities.

(1) Schedule 1 applies, subject to this schedule, to the preparation of, and changes to, a regional coastal plan to the extent that the plan provides for aquaculture activities.

(2) The provisions of this schedule apply, with all necessary modifications, to a variation to a proposed plan or proposed change of a plan as if it were a change.

Schedule 1A clause 1: inserted, on 1 January 2005, by section 33 of the Resource Management Amendment Act (No 2) 2004 (2004 No 103).

1A Proposed regional coastal plan or proposed change to regional coastal plan must not describe certain areas as aquaculture management areas

(1) A proposed regional coastal plan or a proposed change to a regional coastal plan must not describe an area as an aquaculture management area if the area comprises or includes space—

(a) that is subject to an application—

(i) to which section 25(3) of the Aquaculture Reform (Repeals and Transitional Provisions) Act 2004 applies; and

(ii) made by a person to whom section 25(2) of that Act applies; and

(iii) which has not been determined or withdrawn; or

(b) that is, or may be, subject to an application—

(i) referred to in section 26(1)(b) of that Act; and
(ii) made by a person referred to in section 26(1)(a) of that Act; and
(iii) where an application has been made, it has not been determined or withdrawn; or
(c) that is subject to an application to which section 50(2) of that Act applies and the application has not been determined or withdrawn; or
(d) that was subject to an application to which section 50(2) of that Act applied and—
(i) the coastal permit applied for has been granted; and
(ii) the coastal permit has not lapsed or been cancelled or surrendered; but
(iii) the application for a marine farming permit or spat catching permit referred to in section 50(3) of that Act has not been made or has been made but has not been determined or withdrawn.

(2) To avoid doubt, subclause (1) does not prevent a proposed regional coastal plan or a proposed change to a regional coastal plan describing as an aquaculture management area an area to which a deemed coastal permit under the Aquaculture Reform (Repeals and Transitional Provisions) Act 2004 relates.

(3) Subclause (1) does not apply to a proposed regional coastal plan or a proposed change to a regional coastal plan if the proposed plan or proposed change has been notified under clause 5 or 26 of Schedule 1 before the commencement of the Resource Management Amendment Act 2008.

(4) If a proposed regional coastal plan or a proposed change to a regional coastal plan describes an area as an aquaculture management area in breach of subclause (1), then (to avoid doubt)—
(a) the area is not, and is not to be treated as, an aquaculture management area; and
(b) the breach does not invalidate the rest of the plan to the extent that the rest of the plan is not inconsistent with the area not being an aquaculture management area.

2 Assessment of undue adverse effects on fishing

(1) The regional council must not notify a proposed regional coastal plan or a proposed change to a regional coastal plan under clause 5 or 26 of Schedule 1 until—

(a) the chief executive of the Ministry of Fisheries has made an aquaculture decision under section 186E of the Fisheries Act 1996 in relation to any area described in the plan as an aquaculture management area; and

(b) the regional council has complied with clause 3 of this schedule.

(2) However, subclause (1) does not apply in relation to an area that is—

(a) subject to a deemed coastal permit under section 10, 20, or 21 of the Aquaculture Reform (Repeals and Transitional Provisions) Act 2004; or

(b) an aquaculture management area in relation to which a determination has already been made under section 186E of the Fisheries Act 1996 or section 38 of the Aquaculture Reform (Repeals and Transitional Provisions) Act 2004.

(3) Subclause (2)(b) does not include a determination to which section 186H(1)(d)(ii) of the Fisheries Act 1996 or section 41(1)(d)(ii) of the Aquaculture Reform (Repeals and Transitional Provisions) Act 2004 applies, if the proposed regional coastal plan or proposed change to a regional coastal plan proposes to revoke or amend the rule on which the determination was based.

3 Effect of assessment

(1) If the chief executive of the Ministry of Fisheries makes a reservation about customary or recreational fishing in relation to an aquaculture management area, the regional council must—

(a) note the details on the plan; and

(b) delete from the aquaculture management area, any areas that the reservation relates to.
(2) If the chief executive of the Ministry of Fisheries makes a reservation (about commercial fishing) or a determination in relation to an aquaculture management area, the regional council must note the details of the reservation or determination on the plan.

(3) If the chief executive of the Ministry of Fisheries makes a reservation about commercial fishing relating to fish, aquatic life, or seaweed that is not subject to the quota management system under the Fisheries Act 1996 and that is not listed in Schedule 4C or Schedule 4D of that Act, the regional council must exclude the area that the reservation relates to from the plan.

(4) If the chief executive of the Ministry of Fisheries makes a reservation relating to commercial fishing, the regional council must note the details of the reservation on the plan, specifying any stocks subject to the quota management system, any stocks or species specified in Schedules 4C or 4D of the Fisheries Act 1996.

(5) A determination or reservation does not form part of the plan.

Schedule 1A clause 3: inserted, on 1 January 2005, by section 33 of the Resource Management Amendment Act (No 2) 2004 (2004 No 103).

4 Effect of direction under section 165O

(1) If an Order in Council is made under section 165O in relation to a proposed regional coastal plan to be notified under clause 5 or clause 26 of Schedule 1, the regional council must amend its proposed regional coastal plan in accordance with the direction and record the details of the direction on the plan.

(2) Schedule 1 does not apply to an amendment under this clause.

(3) A direction does not form part of the plan.

Schedule 1A clause 4: inserted, on 1 January 2005, by section 33 of the Resource Management Amendment Act (No 2) 2004 (2004 No 103).

5 Notification of proposed plan

The regional council must not notify its proposed regional coastal plan in accordance with clause 5 or clause 26 of Sched-
ule 1 until the period provided for in section 186J of the Fisheries Act 1996 has expired.

Schedule 1A clause 5: inserted, on 1 January 2005, by section 33 of the Resource Management Amendment Act (No 2) 2004 (2004 No 103).

6 Provision of proposed regional coastal plan to chief executive
A regional council must provide 1 copy of its proposed regional coastal plan, without charge, to the chief executive of the Ministry of Fisheries.

   (2) The following shall not be allowed if they have an adverse effect on aquatic life:
       (a) any pH change:
       (b) any increase in the deposition of matter on the bed of the water body or coastal water:
       (c) any discharge of a contaminant into the water.
   (3) The concentration of dissolved oxygen shall exceed 80% of saturation concentration.
   (4) There shall be no undesirable biological growths as a result of any discharge of a contaminant into the water.

2 Class F Water (being water managed for fishery purposes)
   (1) The natural temperature of the water—
       (a) shall not be changed by more than 3° Celsius; and
       (b) shall not exceed 25° Celsius.
   (2) The concentration of dissolved oxygen shall exceed 80% of saturation concentration.
   (3) Fish shall not be rendered unsuitable for human consumption by the presence of contaminants.

3 Class FS Water (being water managed for fish spawning purposes)
   (1) The natural temperature of the water shall not be changed by more than 3° Celsius. The temperature of the water shall not adversely affect the spawning of the specified fish species during the spawning season.
(2) The concentration of dissolved oxygen shall exceed 80% of saturation concentration.
(3) There shall be no undesirable biological growths as a result of any discharge of a contaminant into the water.

4 Class SG Water (being water managed for the gathering or cultivating of shellfish for human consumption)
(1) The natural temperature of the water shall not be changed by more than 3°Celsius.
(2) The concentration of dissolved oxygen shall exceed 80% of saturation concentration.
(3) Aquatic organisms shall not be rendered unsuitable for human consumption by the presence of contaminants.

5 Class CR Water (being water managed for contact recreation purposes)
(1) The visual clarity of the water shall not be so low as to be unsuitable for bathing.
(2) The water shall not be rendered unsuitable for bathing by the presence of contaminants.
(3) There shall be no undesirable biological growths as a result of any discharge of a contaminant into the water.

6 Class WS Water (being water managed for water supply purposes)
(1) The pH of surface waters shall be within the range 6.0–9.0 units.
(2) The concentration of dissolved oxygen in surface waters shall exceed 5 grams per cubic metre.
(3) The water shall not be rendered unsuitable for treatment (equivalent to coagulation, filtration, and disinfection) for human consumption by the presence of contaminants.
(4) The water shall not be tainted or contaminated so as to make it unpalatable or unsuitable for consumption by humans after treatment (equivalent to coagulation, filtration, and disinfection), or unsuitable for irrigation.
(5) There shall be no undesirable biological growths as a result of any discharge of a contaminant into the water.

7 Class I Water (being water managed for irrigation purposes)
(1) The water shall not be tainted or contaminated so as to make it unsuitable for the irrigation of crops growing or likely to be grown in the area to be irrigated.
(2) There shall be no undesirable biological growths as a result of any discharge of a contaminant into the water.

8 Class IA Water (being water managed for industrial abstraction)
(1) The quality of the water shall not be altered in those characteristics which have a direct bearing upon its suitability for the specified industrial abstraction.
(2) There shall be no undesirable biological growths as a result of any discharge of a contaminant into the water.

9 Class NS Water (being water managed in its natural state)
The natural quality of the water shall not be altered.

(2) In addition to the consultation required by subclause (1)(b), the
Minister of Conservation may seek any relevant information
and views before imposing controls on a recognised customary
activity.

(3) The Minister of Conservation must not undertake an assess-
ment under subclause (1)(a)(ii) if, before he or she has begun
an assessment, the relevant regional council notifies the Minis-

adverse effects assessment of the recognised customary activ-

5 Timing and notification
The Minister of Conservation must—
(a) decide whether to impose controls on a recognised customary activity no later than 60 working days after—
   (i) receiving an adverse effects report on the activity from the regional council; or
   (ii) giving notice under clause 3(4) that the Minister will be carrying out his or her own assessment of that activity; and
(b) give written notice of his or her decision, and the reasons for it, to—

   (iii) the Minister of Māori Affairs; and
   (iv) the chief executive of the Ministry of Justice.

Subpart 3—Transitional and savings provisions

109 Transitional provisions relating to New Zealand coastal policy statements
Despite sections 62(3), 67(2), and 75(2) of the principal Act (as substituted by this Act), a regional policy statement or a plan in force on the date of the commencement of this section does not need to give effect to a New Zealand coastal policy statement, but must not be inconsistent with it.

110 Transitional provisions for restricted discretionary activities
If on the date of commencement of this section a plan or proposed plan includes any rule specifying an activity as a discretionary activity and restricting any discretion under section 68(3B) or section 76(3B) of the principal Act, an application...
for that activity must be treated as an application for a re-
stricted discretionary activity.

111 Transitional provisions for certain rules
Despite sections 68(5)(e) and 76(4)(e) of the principal Act (as
repealed and substituted by this Act), a rule included in ac-

this section is to be treated as if those provisions had not been

or a heritage order; or
(c) an application has been made to become a requiring
authority or a heritage protection authority; or

publicly notified,—
the continuation and completion of that matter (including any
rights of appeal) must be in accordance with the principal Act
as if this Act had not been enacted.

(2) If, before the commencement of this section, an appeal has
been lodged or an objection made, the continuation and com-
pletion of that appeal or objection must be in accordance with
the principal Act as if this Act had not been enacted.

(3) If, before the commencement of this section, an application
for a subdivision consent has been made, the continuation and
completion of all proceedings in relation to that subdivision,
including the approval and deposit of a survey plan, must be in
accordance with the principal Act as if this Act had not been
enacted.

(4) If, before the commencement of this section, a declaration, en-
forcement, or abatement action under Part 12 of the principal
Act had commenced, the continuation and completion of that
action (including any appeals) must be in accordance with the principal Act as if this section had not been enacted.

(5) If, before the commencement of this section, a notice of appeal or notice of inquiry has been lodged with the Environment Court, sections 271A and 274 of the principal Act apply as if section 271A had not been repealed, and section 274 had not been repealed and substituted, by this Act.

(6) For the purposes of this section, an appeal includes a reference to, or an inquiry by, the Environment Court.

113 Exercise of authority granted under Historic Places Act 1993

(1) An authority given under section 9F, section 9H, or section 9L of the Historic Places Act 1954, or section 44, section 46, or section 48 of the Historic Places Act 1980 that has not been wholly or partially exercised on or before the date of commencement of this section lapses.

(b) a deemed coastal permit under section 10 or section 20 or section 21 is in force; or
(c) an application for a coastal permit under the principal Act to occupy a coastal marine area for the purpose of an aquaculture activity has been made but not determined.

(c) provide reasons for the decision; and
(d) if the decision is a determination based on a rule in a regional coastal plan or proposed regional coastal plan that relates to the character, intensity, or scale of occupation of the interim aquaculture management area by aquaculture activities,—
(i) specify the rule; and
(ii) state that the rule may not be revoked or amended until the chief executive makes a further aquaculture decision in relation to the area affected by the revocation or amendment; and
(e) be notified to the regional council.
(2) If the chief executive makes a reservation, the reservation must also include—
(a) whether the reservation relates to customary, recreational, or commercial fishing or a combination of them; and

44 Interim aquaculture management area becomes aquaculture management area following aquaculture decision

(1) If the chief executive makes an aquaculture decision under section 38, the regional council must amend the regional coastal plan and any proposed regional coastal plan as follows:
   (a) in the case of a determination, by noting on the plan the details of the determination:
   (b) in the case of a reservation,—
      (i) by noting on the plan the details of the reservation; and
      (ii) if the reservation relates to the sustainability of fisheries resources or effects on customary or recreational fishing, by deleting from the plan the area or areas that the reservation relates to.

(2) However, if, when the aquaculture decision is made under section 38, an interim aquaculture management area is in a regional coastal plan, the regional council must comply with sections 9 to 12 of the Maori Commercial Aquaculture Claims Settlement Act 2004 before it complies with subsection (1).

(3) Schedules 1 and 1A and of the principal Act do not apply to an amendment made under subsection (1).

(4) On and from the date on which the regional council complies with subsection (1), the interim aquaculture management area becomes an aquaculture management area.

(2) This section does not apply in respect of any space identified in a regional coastal plan or proposed regional coastal plan at the commencement of this Act as space in which aquaculture activities authorised by the coastal permit are prohibited.

(3) The area to which a coastal permit that this section applies to is deemed to be an aquaculture management area for the purposes of the principal Act and, if the relevant plan is not operative, the relevant plan must be treated as if it were operative.

(4) The deemed aquaculture management area is subject to the provisions of the regional coastal plan or proposed regional coastal plan that apply to the area.

(5) An area that is deemed to be an aquaculture management area by this section ceases to be an aquaculture management area if a plan that applies to the area becomes operative after the commencement of this Act and does not provide for the area to continue to be an aquaculture management area.

Existing applications and coastal permits

46 Pending applications where moratorium ends before 31 December 2004

(1) This section applies to an application—

(a) that section 150B(2) of the principal Act applies to; but
(b) only to the extent that it relates to an area for which the moratorium expires on the close of 31 December 2004.

(2) After the end of the moratorium, a consent authority must resume processing an application; but only if and to the extent that the application relates to a regional coastal plan that provides for an aquaculture management area and the application relates to the aquaculture management area.

(3) An application referred to in subsection (2) must be processed and determined under the rules in the regional coastal plan and any proposed regional coastal plan at the time the consent authority resumes processing the application.

(4) However, a consent authority must not grant a coastal permit to occupy space for aquaculture activities in an aquaculture management area that is subject to a reservation relating to commercial fishing, except to a person specified in a notice given by the chief executive under section 186ZK of the Fisheries Act 1996 as the holder of an aquaculture agreement under that Act.

(5) An application is deemed to be cancelled on and from the date on which a proposed regional coastal plan is notified under clause 5 of Schedule 1 of the principal Act after the commencement of this Act if and to the extent that the application relates to an area covered by the plan and the plan provides for aquaculture management areas, but it does not include the area that the application relates to.

(6) An application is deemed to be cancelled on and from 31 December 2014 to the extent that, by that date,—
(a) no proposed regional coastal plan covering the area that the application relates to has been notified under clause 5 of Schedule 1 of the principal Act; or
(b) a proposed regional coastal plan covering the area that the application relates to has been notified under clause 5 of Schedule 1 of the principal Act, but the plan contains no aquaculture management areas.
(7) This section—
   (a) prevails over Part 7 of the principal Act; but
   (b) applies subject to the Maori Commercial Aquaculture Claims Settlement Act 2004.

(8) In this section, *aquaculture management area* does not include an area that is deemed to be an aquaculture management area under section 45.

48 Certain coastal permits granted during moratorium not to be exercised until end of moratorium

(1) This section applies to a coastal permit if—
   (a) the application for the permit was notified during the moratorium but before the commencement of the Resource Management (Aquaculture Moratorium) Amendment Act 2002; or
   (b) the consent authority decided, during the moratorium but before the commencement of the Resource Management (Aquaculture Moratorium) Amendment Act 2002, not to notify the application for the permit.

(2) However, this section does not apply to a coastal permit for aquaculture activities that relates to a coastal marine area that, immediately before the moratorium, was subject to—
   (a) a coastal permit; or
   (b) a marine farming lease or licence under the Marine Farming Act 1971.

(3) No person may do anything under a coastal permit until the moratorium has expired in relation to the area that the permit relates to.

(4) At the end of the moratorium, a regional council may—
   (a) review the conditions in a coastal permit; and
   (b) amend the conditions so that they comply with the rules in the regional coastal plan and any proposed regional coastal plan that apply at the end of the moratorium.

(5) If a coastal permit relates to a restricted coastal activity, section 119A of the principal Act applies in relation to the amendment of conditions under subsection (4)(b).

(6) At the end of the moratorium,—
(a) no person may carry on any aquaculture activities under a coastal permit in any area in which aquaculture is prohibited; and
(b) the coastal permit ceases to have any effect and is deemed to be cancelled.

(7) For the purposes of section 125 of the principal Act, the commencement date of a coastal permit is the later of—
(a) the day after the date on which the moratorium ceases to apply to the coastal permit; or
(b) the day after the date on which the regional council notifies the holder of the permit of the result of a review under subsection (4).

(8) Sections 357 and 358 of the principal Act apply to a decision by a regional council to amend conditions under subsection (4).

49 Preferential right for deemed permit holder to apply for coastal permit for occupation

(1) Subsection (2) applies if—
(a) a person holds a lease or licence that is deemed to be a coastal permit by section 10; and
(b) the deemed coastal permit relates to an area in an aquaculture management area; and
(c) the person is giving effect to the deemed coastal permit.

(2) No person, other than the permit holder, may apply for a coastal permit to occupy the area that the deemed coastal permit relates to.

(3) However, subsection (2) does not apply if—
(a) the permit holder consents in writing to the application; or
(b) the coastal permit has expired and—
   (i) the holder of the permit has not applied for a new coastal permit to occupy the same area to undertake an aquaculture activity; or
   (ii) the holder of the permit has applied for a new coastal permit for the same area and the application has been refused and all appeals against the refusal have been withdrawn or dismissed; or
(c) the coastal permit has lapsed under section 125 of the principal Act; or
(d) the coastal permit has been cancelled under section 126 of the principal Act; or
(e) the coastal permit has been surrendered under section 138 of the principal Act.

(4) This section does not limit or affect section 124 of the principal Act.

50 Pre-moratorium and pre-commencement applications for coastal permits not subject to moratorium

(1) Subsection (2) applies to an application for a coastal permit under the principal Act to occupy a coastal marine area for aquaculture activities if the application—

(b) is not subject to section 150B(2) of the principal Act; and
(c) has not been determined or withdrawn before the commencement of this Act.

(2) An application to which this subsection applies must be determined under the principal Act as if the Resource Management Amendment Act (No 2) 2004 had not been passed.

(3) A person who has made an application that subsection (2) applies to may apply, or continue with an application, for a marine farming permit under section 67J of the Fisheries Act 1983 or a spat catching permit under section 67Q(2) of that Act if the application under that Act relates to all or part of the area, and 1 or more of the species of fish, aquatic life, or seaweed, that the application that subsection (2) applies to relates to.

(4) An application under subsection (3) lapses if the application to which subsection (2) applies is—
(a) withdrawn; or
(b) declined and any appeal in relation to the declined application has been unsuccessful or withdrawn.
(5) If an application that subsection (2) applies to is granted, the application under subsection (3) must be determined under the Fisheries Act 1983 as if this Act had not been passed.

(6) If the application is for a marine farming permit and the application is granted, section 20 applies to the permit as if every reference in that section to the commencement of this Act were a reference to the date on which the application was granted.

(7) If the application is for a spat catching permit and the application is granted, section 21 applies to the permit as if every reference in that section to the commencement of this Act were a reference to the date on which the application was granted.

51 Regional council must request aquaculture decision if application for coastal permit declined or withdrawn

(1) This section applies to—

(a) an application for a coastal permit to occupy a coastal marine area for aquaculture activities if the application—

(A) lapses under section 125 of the principal Act; or

(B) expires and the holder of the permit is not entitled under section 124 of the principal Act to continue to operate under the coastal permit; or
(C) is cancelled under section 126 of the principal Act; or
(D) is surrendered under section 138 of the principal Act.

(2) The regional council to which the application was made or which granted the coastal permit must request an aquaculture decision for the part of the interim aquaculture management area concerned.

(3) Sections 38 to 44 apply to the request.

52 Areas excluded from interim aquaculture management area

(1) This section applies to an application for—
   (a) a marine farming permit under section 67J of the Fisheries Act 1983;
   (b) a spat catching permit under section 67Q(2) of the Fisheries Act 1983.

(2) If the chief executive of the Ministry of Fisheries has declined an application to which this section applies, whether before or after the commencement of this Act, the regional council must delete from an interim aquaculture management area any area to which the application applies.

(3) If the chief executive of the Ministry of Fisheries has granted an application to which this section applies, whether before or after the commencement of this Act, the area to which the application relates is to be treated as if the chief executive had made a determination under section 38 of this Act in relation to it and section 44 applies accordingly.

   (d) the reasons for and against amending the permit to reflect the actual space.

(4) Section 92 of the principal Act applies, with all necessary modifications, to an application under this section as if it were an application for a resource consent.

(5) After considering an application under this section and consulting the chief executive about it, the consent authority must—
   (a) amend the deemed coastal permit as requested by the consent holder; or
   (b) decline to amend the permit and require the consent holder to move the activity to the authorised space.
(6) Section 120 of the principal Act applies to a decision of the consent authority under subsection (5) as if the decision were a decision on a review of consent conditions.

(7) A deemed coastal permit amended under this section must not authorise the holder of the permit to occupy a space greater than the authorised space.

(8) A consent authority must advise the chief executive of its decision under subsection (5).

(9) As soon as practicable after receiving the advice under subsection (8), the chief executive must amend the fish farmer registration that the advice relates to.

(11) Section 36 of the principal Act applies to the functions of the consent authority under this section as if an application to amend a deemed coastal permit were an application for resource consent.

(12) In this section,—

actual space means the space in relation to which the deemed coastal permit is being exercised

authorised space means the space specified in the deemed coastal permit.

54 Consent authority may initiate review of off-site farms

(1) This section applies to deemed coastal permits to which section 53 applies.

(2) A consent authority may review a deemed coastal permit to the same extent and within the same time as if the holder of the permit had applied under section 53(2).

(3) For the purposes of subsection (2), section 53(5) to (12) applies with all necessary modifications.

Notes
1 General
This is a reprint of the Resource Management Act 1991. The reprint incorporates all the amendments to the Act as at 16 December 2010, as specified in the list of amendments at the end of these notes.

Relevant provisions of any amending enactments that contain transitional, savings, or application provisions that cannot be compiled in the reprint are also included, after the principal enactment, in chronological order. For more information, see http://www.pco.parliament.govt.nz/reprints/.

2 Status of reprints
Under section 16D of the Acts and Regulations Publication Act 1989, reprints are presumed to correctly state, as at the date of the reprint, the law enacted by the principal enactment and by the amendments to that enactment. This presumption applies even though editorial changes authorised by section 17C of the Acts and Regulations Publication Act 1989 have been made in the reprint.

This presumption may be rebutted by producing the official volumes of statutes or statutory regulations in which the principal enactment and its amendments are contained.

3 How reprints are prepared
A number of editorial conventions are followed in the preparation of reprints. For example, the enacting words are not included in Acts, and
provisions that are repealed or revoked are omitted. For a detailed list of the editorial conventions, see http://www.pco.parliament.govt.nz/editorial-conventions/ or Part 8 of the Tables of New Zealand Acts and Ordinances and Statutory Regulations and Deemed Regulations in Force.

4 Changes made under section 17C of the Acts and Regulations Publication Act 1989

Section 17C of the Acts and Regulations Publication Act 1989 authorises the making of editorial changes in a reprint as set out in sections 17D and 17E of that Act so that, to the extent permitted, the format and style of the reprinted enactment is consistent with current legislative drafting practice. Changes that would alter the effect of the legislation are not permitted. A new format of legislation was introduced on 1 January 2000. Changes to legislative drafting style have also been made since 1997, and are ongoing. To the extent permitted by section 17C of the Acts and Regulations Publication Act 1989, all legislation reprinted after 1 January 2000 is in the new format for legislation and reflects current drafting practice at the time of the reprint.

In outline, the editorial changes made in reprints under the authority of section 17C of the Acts and Regulations Publication Act 1989 are set out below, and they have been applied, where relevant, in the preparation of this reprint:

- omission of unnecessary referential words (such as “of this section” and “of this Act”)
- typeface and type size (Times Roman, generally in 11.5 point)
- layout of provisions, including:
  - indentation
  - position of section headings (eg, the number and heading now appear above the section)
- format of definitions (eg, the defined term now appears in bold type, without quotation marks)
- format of dates (eg, a date formerly expressed as “the 1st day of January 1999” is now expressed as “1 January 1999”)
• position of the date of assent (it now appears on the front page of each Act)
• punctuation (eg, colons are not used after definitions)
• Parts numbered with roman numerals are replaced with arabic numerals, and all cross-references are changed accordingly
• case and appearance of letters and words, including:
